embargo on arms for South Africa

The United Nations Security Council unanimously imposed mandatory sanctions yesterday on the supply of arms to South Africa. African Foreign Minister, said his factured locally.

country was self-sufficient in the production of armaments required to fight terrorism. Weapons from small to heavy calibre as well as the In Pretoria, Mr Botha, the South necessary ammunition were manu-

Decision reached unanimously

From David Cross

New York, Nov 4 The United Nations today approved a mandatory and permanent embargo on the ale of arms to South Africa. t was the first time that the aternational organization had greed to impose sanctions gainst a member state.

The embargo was adopted inanimously by the 15 members in the Security Council, which fact here this morning to pprove a seven-point resolu-pion. This expresses the ouncil's view that the acquisi-ion by South Africa of arms and related material "constiuses a threat to the mainten-uce of international peace and

ecurity". It calls on all countries, in-It calls on all countries, inuding non-members of the
nited Nations, to "cease
rthwith" any provision to
outh Africa of arms and
slated materials of all types,
cluding the sale or transfer
weapons and ammunition,
illiary vehicles and aquipent, paramilitary police
julpment and spare parts. The
ovision of all types of equipcent and supplies, and grants
new licensing arrangements new licensing arrangements ar the manufacture or main-

nance of such equipment are wered by the embargo.

In response to the wishes, of ack African countries, the solution also calls on all mions to review "all existing macroial arrangements with ntractual arrangements with d licences granted to South d maintenance of arms, ununition, military equip-ent and vehicles with a view terminating them?. Some ich have lucrative licensing angements with South

pardy. From this day for-d let there be no doubt that

The final text represents a compromise between the original wishes of the five Western ginal wishes of the five Western nations on the council—the United States, Britain, France, West Germany, and Canada—and African representatives. The 49-member African group in the United Nations had originally wanted the council to introduce economic sanctions against South Africa. But such a move was rejected by the

a move was rejected by the five when they opposed three African resolutions earlier this

week.
The vences gave the Western powers the uncomfortable semblance of siding with Mr Vorster, the South Airican Prime Minister, against almost all the rest of Africa. At this stage the Western nations were also in favour of a mere six month's arms embargo, six month's arms embargo, subject to a review thereafter. But today's resolution goes a The West has insisted through out that any action against South Africa must not isolate that country completely. Western nations regard an arms embargo as the best means of putting pressure on Mr. Vorster to end the repression of opponents of apartheid begun a fortnight

For their part many African countries are still pessimistic and see even tougher senctions as the only response. Now that an embargo on arms is an embargo on arms is approved, some African nations will want to press for further action. Economic spections and even South Africa's expulsion from the United Nations are by no means excluded at some

charged. The charges are mis-demeanours, each punishable by a minimum of one month in

jail and a \$100 fine and the maximum one year in jail and the \$1,000 fine that the judge imposed for each count.

He said he was suspending the jail sentences and placing Mr Helms on one year of unsupervised probasion. The former CIA head must, how-

ever, pay the \$2,000.

UN orders mandatory Men at three power stations walk out over 'no pay' threat

dy Donald Macintyre

Central Electricity Generating Board yesterday gave a warning that power workers taking unofficial industrial action would "not be paid until they resume normal working".

The announcement brought a declaration from one of the power workers unofficial leaders that the effect of a confrontation between the board and its employees taking part in the action might be to "cose down every station in the country".

Members of the shop

stewards' committee were trying ast night to look for a way of resolving the dispute through inediation.

The Advisory, Conciliation and Arbitration Service said it was unlikely that it could inter-

vene.

The board assourcement came after indications that the newly agreed travel abovence, to take immediate effect and

At two East Midlands power stations, Cottom and West-Burton, 1,120 industrial staff walked out on being told they would not be paid while the action continued, and 100 men walked out of Drax, West

Mr Fen Murray, general secretary of the TUC, speaking at a board prize event at Oldbury on Severn power station. Glaucestershire, urged the men at the 65 of the board's 137 stations in England and Wales who are taking action to "follow the clear advice of their principles to resemble property stations to resemble property. unious to resume normal working right away".

The board statement said:
Those staff taking unofficial
industrial action are not complying with the National Joint
Industrial Council agreement which is incorporated in their individual contracts of employ-

Mr John Lyons, the general secretary of the Engineers and Managers Association, said his members, who include senior technical stuff and engineers, would do all they could to keep the power stations going.

The board say that the action has affected about 16,000 of the

total industrial workforce of 35,000, but that "not all" of those were taking part. The men are relating to cover for absent collectives, treasfer to other sections when requested, and are banning overtime. Their action, which

vesterday continued to cause disconnexions of supply throughout the day, started 12 days ago in support of increased shift pay travel and fuel allowances. The new travel allowance

radified yesterday by Mr Benn, ment and are working to rules
Secretary of State for Energy, of their own making.

They are therefore in breach power workers to end the discontract and will not be paid until they resume normal working.

They are therefore in breach of their annual pay claim. To do so earlier, they say, until they resume normal would be in breach of the 12-woman aged 80 died yesterday

Mr Bert Perriman, secretary of the unofficial national shop stewards' committee, which is expected to meet on Monday to review the dispute, said:
"Obviously they [the board]
want a confrontation but this will just make the lads more determined. The effect could be that the men are just going to close down every station in the country."

There were some indications that the board was attempting to keep teasion to a minimum by carrying out the threat initially only in West Burron and Cottom.

The board said that workers

who continued to take part in the action after being formally warned by local managements that they were in breach of The new travel allowance contract would not be paid from agreement, giving payments of then on unless they resumed 80p to £2, was made on Thurs normal working. Ey last night

Leyland car supplies at lowest point this year

By Edward Townsend

British Leyland is facing its
worst car supply situation this
year, the company said yester
day. This follows a mouth when
the group's share of the United
Kingdom market has slumped
to little over 20 per cent.
The company said it was
40,000 cars short "across the
entire range". Dealer stock
cover had been adequate for
only five weeks so far this year
in July, when Leyland's
market penegration rose to 29.1
par cent.

market penegration rose to 29.1 per ceot.
Leyland's luxury models, like the Jaguar and Range Royer, traditionally have been in abort supply; but it is now clear, that output disruptions have progressively starved show-rosms of the cheaper models that Leyland needs to sell in high tolume if it is to fight off foreign competition and to raise market share. raise market share.
Figures for October car sale

Figures for October car seles issued yesterday by the Society of Motor Manufacturers and Traders show that Leyland Cars sold only 21,706 vehicles to give a market share of 20.56 per cent. For the first 10 months, the company's sales totalled 287,189 (24.5 per cent). Internal labour difficulties, particularly the damaging strike by toolmakers earlier in the year, have caused grave prob-

year, have caused grave prop-lens for Leyland, but the comadverse affect on its operations adverse affect on its operations of a continuous series of component shortages. The protracted strike at Incest which supplies electrical components—and 13 other supplier disputes, itself held up production. The joint effect of component holders was the main reason for the company's application to use half the current \$100m of state loan capital earmarked for investment to ease

marked for investment, to ease its cash flow problems.

With production of four models once again heled this week as the result of both in-

week as the result of both in-ternal and external disputes, the company's fanancial posi-tion remains precarious. Leyland's concern over its poor performance was heightened by the fact that total United Kingdom car sales in October was 10 per cent

total United Kingdom car sales in October were 10 per cent greater than a year earlier at 105,581. Over the first 10 months, total sales were 1,169,942, a rise of 4.7 per cent. Ford—elso unable to keep up with demand, managed to capture 22.7 per cent of the market in October with its home-produced cars. With the company's German-built imports included, its mral penetration, was 30.4 its total penetration was 30.4

Which British prime minister was so drunk in the Commons that be could not see the Spenker; who was cought of Spenker; who was cought of Windsor Castle with his trousers in disarray; who fulfilled his three smbittless to lead the country, monry on beliess and with the Derby; and who broke the record of his immediate predecessor for the greatest number of book signings in one week?

The success to the last is Circum as them as fellow are the societ, due to the societ, who always got every the description in the last two centuries, from a different angle from the his layers with a picture of the predecessor for the greatest mumber of book signings in one week?

The success to the last is Circum as them as fellow are the different angle from the his layers with a picture of the prime who always got every the description of the societ, due to the societ, due to the societ, and the country of the societ.

The success of the societ, and previous of the societ, and previous of the societ, and the country of the societ.

The success of the country of the societ, and the country of voted to hold an immediate sounding, by postal bullet, of studies, of the vices. Mr. Abse, who has just visited the islanders, said: "I shull be surprised if they don't vote 'No'".

Others at Westnamster tended Others at Westmanster tomast to dismiss the point. But Mr Abse, surceasful last year in getting the Government to agree to referending for Scotland and Wales, is a serious wrecker. He points to the 60 per cent of potential North Sea oil that is to come ashere in Shalland. mumber of book signings in one wook?

The suswer to the lest is Sir Harold Wilson, and the roplies to the first three are contained in his latest work, a linked book and tolevision scales on some of bis likestrious predecessors. For the record, they were the younger Pitt, Palmerston and Roschery.

Sir Harold, who claims always The suswer to the last is Sir Harold Wilson, and the ropiles to the first three are contained in his lenest work, a linked book and tolerision scales on some of his illustrious predecessors. For the record, they were the younger Pitt, Palmerston and Rosebery,
Sir Harold, who chains always

"We are not tulking about Pimileo", he said. Were the Scottish nationalists to get control of the new assembly, Shetlanders fear that it could "torally snar! up the retrieval of United Kingdom oil . . . and subvert the witels strategy upon which our present econ-

unic plans rest' Of course, the Government in no way concedes a scrap of control over North Sea oil to the proposed assembly. It is given specific devolved legislative powers (whereas Wales is given only administrative or in the same closely defined areas as before, such as parts of health and education policy. The exclusions still run to many pages of an appended schedule. First reactions from the Scottish National Party empha-sized that party's predictable displeasure. Even as on naterim arrangement the minimum acceptable was "a designated share of the total tax revenue accruing to the Government", Mr. Gordon Wilson, MP for Dundee, East, exclaimed.

But the Government was for the Government was offering only block grant instead of annual review the Government was prepared to discuss a statutory level of expenditure to remain in force for several years, once the devolved administrations were

in office.

The Liberals welcomed that as part of what they called a "algorithment "improvement", thanks to their influence on the Government. My Russell Johnston, MP for Invertess and leader of the Scottish Liberals, providised that the Liberals would try to amend the Covernment's intention to have the traditional first-past-the-post method of election to the assembly. They, of course, wanted proportional rapresentation.

There is to be a free vore in the method of election but with only as few proportional representation allies to be found on Libour and Tory beaches the chances for a library look light.

Other changes in the Bills include, for Scotland, the power of the assembly to dissolve itself, provided there is a two-direct vate; elections would only be for the unexpired remainder of the fixed foreyear term.

Responsibility for implementing EEC and other international poligations is devolved, with the Government seeing that no breaches occur in such obliga-

rions.
The Wolsh Assembly is specificulty given the power to review the structure of Welsh local government. That was applied by Mr Geraint Howells, Liberal MP for Cardinary

In Scotland, on the conduct of legal proceedings about tires, there are important new provisions for devolution issues. Th's is whether any act of the assembly or action of the Secretary of State for Scotland is within their respective com-

Councillors told to think before objecting to plans

Correspondent
People at the grass roots
should think before they voiced their objections to every planning proposal that might affect their environment, a affect their environment, 2 planning consultant said at the conference of the National Association of Local Conneils Association of Local Conneils
Air E. E. Taylor, senior partner in the Development
Planning Partnership, Bedford,
called for a new approach by
councils to town planning and
development. Behind every
there in a council's side was
been difficulty to side was a basic difficulty. It might be the concern of an individual

or the "big brother metropolitan council".
"If you try to identify the problem before raising the loud roice of total objection you may find a mutually acceptable solution," be said. "I find generally that many, but not all, development proposals can be made acceptable if suitable

conditions are imposed."

Members of local councils could make a really positive contribution to the planning process by first examining a project in detail at the local planning authority's offices and by talking to the developer be who specize in defending clients. Diplock courts, even if they fore taking up too firm a accused of terrorist offences.

Lawyers to protest at RUC interrogation methods

From Christopher Walker

Correcto over interrogation methods used by the Royal Ulster Constabulary will be voiced at an emergency protest meeting of solicitors in Belfast on Wednesday.

The meeting comes after the dischaure earlier this week that

Amnests International is to investigate allegations of RUC bruzality.

one suggestion that will be put to the meeting is that all solicitors representing clients accused of terrorist-type offences should withdraw from offences should withdraw from the Diplock courts and refuse to participate further in no-jery trials must moves are made to curb aspects of police behaviour. The decision to call the meeting was taken at a meeting of 10 solicitors in co Antrim on Thursday. All those extending were Roman Catholics, but it is expected that Protestant solicitors who regularly act for tors who regularly act for extreme loyalists will also rake part mext week.

The Law Society of Normera. RUC behaviour have also taken Ireland refused yesterday 10 place between various solicitors comment on the implications of at the Crumlin Road cointing the suggested protest. But legal house, in Belfast.

in over 3,000 comprehensive achools.

Since the passing of the 1975 Boutation Act she had written to 36 unthorities requiring submission of proposals to give effect to the comprehensive principle. Only one of these was completely introduced the programmed. In the other 35, some progress had been made and she had required forsiter proposals to bring about more program. She had received proposals from 27 authorities and agreed another six should be given more time to sobust proposals. Three proposals had been wholly satisfactory. She was considering with other authorities am wisers appropriate the governors of voluntary schools.

Proposals made by 10 suthori-

the governors of voluntary schools.

Proposals made by 10 suthors ties were for various reasons unsatisfactory and she had required them under the 1976 Act to submit flustber proposals in substitution for the original ones.

She had heard floating around a few charges that she had twend into a bubly, but she had every intention of using the powers conferred on her by Parliament where she regarded the proposals as unsatisfactory.

She must ask the Opposition whether it was sensible or straightforward to counsel delaying tactics using every weapon in the book. It might be politically clever but it was educationally

irresponsible. It was as if they knew they were about to win an election. They were not. The damage shees tactics created for education must be taken seriously. by the House. The Government's object was to improve standards of all schools and offer more information and involvement to all parents. They believed that certain basic infor-

mation about schools should be readily available to parents at appropriate stages in their children's school careers.

She would before the end of the month be issuing a circular which provides authorities with a checklist of the kind of information which should normally be available in written form, covering

Some of the recommendations ment to allow them to act.
We believe each school (she said) should have its own governing body and that representatives

ing body and that representatives of parents, teachers and the com-munity should have a saintory right to membership of that governing body.
This would in no way diminish the professional responsibility of the teacher or the statutory right of the local authorities but it would create the kind of forum them to open up the relationship between schools and the com-

It but become clear in recent. It had become clear in recent years that the law on school admissions was confusing and contradictory. The extent to which parents could express preferences varied widely from one part of the country to another. For the great majority their measures school was the one they would naturally amend and their parents would want them to attend. The extent to which parents preference could be made was bound to be limited if a school was oversubscribed. It was commany to the interest of if a school was oversubscribed. It was countary to the interest of children already in a school to put unine pressure on them.

We believe (she said) that admission procedures should take account of parental wishes and parents should have that preference taken into account with other relevant factors.

country they were proposing many local authorities, had able to offer parents.
Legislation would reauthorities to set out admit

procedures clearly and provide for a coherent system of appeals by parents first to the local authority and then to ministers. These legislative proposals of Taylor and school admissions were

almost complete

Non-event after the razzamatazz

Mr Norman St John-Stevas, Oppo-sition spokesman on education and the arts (Chelmsford, C) said he boped Mrs Williams would seek to end the discrimination against the counties in the new-rata support grant. One of the reasons why certain counties had had to cut back on their educa-tion programme was because they had been discriminated against in relation in the urban erges. It relation to the urban ereas. It was important that this injustice should be remedied.

should be remedied.

For education, the Queen's Speech was a non-event. After all the remainstance of the great debate, all the talk about the vital importance of education to the country's future, the declarations of concern about standards and consultation and the crocodile tears about parents' rights, it was extraordinary that there was not a word about education in the entire Speech.

entire Speech.

It was also extraordinary that Mrs Williams had outlined the contents of an Education Bill which was not before the House, it had vanished without trace yet the contents had been sedulously leaked to the press, including Tha Times Balucational Supplement. What had become of the Bill? It was a great educational mystery like the Sherlock Holmes story of the dog that didn't bark.

But the answer to the mystery.

didn't bark.

But the answer to the mystery was indicated in The Thines Educational Supplement today. It was the most authoritative report so far. It was headed "Choice row splits Labour". And it said that the department's new legal adviser, Mr P. Barvey, who came from the Home Office, "is believed to be taking to heart the lessous of the Tameside case in which the House of Lords overruled the Education Secretary's judment". Topies were delighted

soldier and I had to kill him?.

He said he hit the captain on the head with his fist and with the bott of his gan. The statement added that Captain Nairec said: "You are going to kill me, can: I have a priest?" He was in a bad state. I simed at his head. I only put one in him. The gun missired a few times. I left the body there and went home across the fields. I don't know where the body is, and that is where the body is, and that is Mr Justice D'Arcy elso said that a leter alleged statement, made after Mr Townson had

made after Mr Townson had seen a solicitor, was also seen a solicitor, was also seen a solicitor, was also solicitors and not only voluntary but volunteered. Mr Townson had said to two police officers: "Will I be hanged for this? I will swing for nobody. I will kill myself tonight."

The court, which had considered the admirability of the tonight."
The court, which had considered the admissibility of the statement for two days, rejected allegations that there were threats to put. Mr. Townson across the border, and that he

was put egainst a wall, held down and shouted at Mr Justice D'Arcy said:
"We are satisfied that between
4 pm and 7 pm there was a
deliberate and conscious denial of access to a solicitor and therefore a breach of constitu-tional rights."

tional rights."
Those stetements were "tainted with constitutional irregularities". Any exhibits recovered as a result of the statements, including two guns found in a field, were also inadmissible, he said.

The risk continues on Monday.

There should be realism to face the facts, decentralization of administration and incentives to economy. If the real problem was shounge of money, how could it make sense to rule out forever the possibility of raising money by charges?

her proposals to strengthen the law to give parents clear choice in the schools to which their children go had started "a bitter courroversy in the Labour Party". There was a picture of Mrs Williams together with the words "I will " but another picture, of Caroline Bern, with the words

"You won't". Who was Secretary of State? It was bad enough having Macheth in the Cabinet, but they did not want Lady Macheth around, too. (Langhter.) Mr St John-Stevas then passed a copy of The Times Educational Supplement to Mr Calleghan, the Prime Manster, who was stiring on the frout beach next to Mrs. Williams. Mr St John-Stevas said he would have thought the Prime Minister, with his interest in education, would aiready have read it.

Mr Callaghas—I only read about facts, not works of faction. (Laughter.) Mr St John-Steves said that when Mr St John-Stevas said that when it came to the crunch, Mrs Wiltiams, for all her charm, was a weak minister, unable or unwilling to take decisive action in education, the work, ou comprehensive education, she and her department were thirtying local authorities and voluntary schools all over the country. She sought to impose 44 thought-out schemes for political and not educational ends.

The Opposition had set the pace of educational discussion and had many positive proposals to put forward. They believed parents must be given a much greater say in the education of their children. National standards in basic liceracy and numeracy must be introduced and these

standards must be properly monli-tored by a strengthened schools inspectorate. The restoration of national standards about be accompanied by a combineous assessment of the child's progress throughout his school life.

A pragmatic approach to com-preheasive schools was needed, not an ideological one. The Opposition were putting forward a charter for comprehensive

over the next mine months—if this Parliament lasted that long—with the question of values in the schools.

schools.

The Opposition would be holding a conference on this subject in February. Be took the opportunity to ask Mrs. Williams, if her engagements permitted, whether she would be kind enough to honour them with her presence.

Mr Laurence Pavitt (Brent, South, Lab) said it was deplorable that the Queen's Speech did not indicate that there would be some amending legislation to the Employment Protection Act 1975, because the history of the Granwick dispute had shown that it had driven a proverbial coach and horses through the Act.

Mr Alan Beith (Berwick moon

Mr Alan Beith (Berwick upon Tweed, L) said the Liberals re-greated the omission of the Bill to strengthen parental choice and implement the Taylor report. The issue was given more urgency by the tweeters. the way some authorities, particu-larly those in which Conservatives had gained power recently, were dealing with school governing bodies.

improve old buildings, which would improve the quality of life of many of the people who had to live in them.

There would be an extra £10m for current spending on the health service in England in 1978-79 with commensurate sums in Section

ahandoned?

Were they to expect a Bill to make it clear that tobacco substitutes were to be within the scope of the Medicines Act and regula-

of the Medicines Act and regula-tions under it? The House would want to debate some of the issues that had arisen in this area over the past mouth or so. It would be a paty if by unfair propagands the introduction of posacco substitutes were so become a sort of seven-day wonder. The biggest omission from the Queen's Speech was any reference to the advancing paralysis of the heath service.

I remain stupefied (he said) at Mr Emain stupefied (he said) at Mr Emain's complacency in the face of the mounting tide of criticism of himself and the NBS. Faced with the mounting evidence of complaints, mounting evidence of declining standards of care and the still sagging morate of the prodessions, his inactivity is almost incomprehensible.

The NHS was running out of money. The professions wanted to see a public recognition by mini-sters that there was not enough money to do everything that was wanted.

They wanted a public recog-nation that they were having to curn away patients, sometimes for years, because there was not the years, because there was not me resources to creat them. The NHS could not meet all the needs immediately that were presented to it and the public must not be led to expect it could.

Mr Patrick Jenkin (Redbridge, Wanstrad and Woodford, C), chief Opposition spoizeman on social services, said that the lawing had a spell in hospital be was intended to confer an exclusive right on trade unions to appoint 50 per cent of the representatives of the management on pension frades. Had the Bill been ahandoned?

Were they to expect a Bill to make it clear that tobacco substituted in the conference of new money.

More than balf the money earmarked for the Christmas bonns, about £100m, would be spent on a special £10 payment before Christmas to old age pensioners and a number of other groups. It would go to a record number of people, about 10 million, including lovalidity pensioners, those in receipt of the attendance allowance, invalidity care allowance, widows, disabled housewires and those receiving non-comintutory invalidity pensions.

He had laid down clear priorities for spending on the National Heath Service. The NHS needed more money and 50 did those

more money and so did those who worked in it, but to do that resources had to be used effectively to get the best value for

putning forward the Government's proposals was likely to be published in the early part of next year. It could not be included in legislation this session, but he hoped it was legislation which the Government might be able to include in the following session.

Last June be amounced the Government's decision to accept the principle that there should be a scheme of payment for the benefit of those seriously damaged as a result of vaccinabenefit of those seriously damaged as a result of vaccinamoney.

I am determined (he said) to abift resources into the neglected parts of the NHS, and that means a said that means and the neglected. tion. The Government would stand by this commitment and take steps to introduce any necessary legislation as soon as practicable after urgent consideration of the Pearson commission report. parts of the Mas, and man mems regional neglect and the neglected services for the elderly and mentally M and handicapped. Extra capital available over the next two years would be used so

Russians harass Dr-Kissinger tells Jews to be masters of own destiny

From Patrick Brown
Washington, Nov 4
Dr Henry Klasinger, the former Secretary of State, told the World Jewish Congress here last night that an independent Palestinian state would be a danger to peace in the Middle East. He also said that the Jewis could not abandon to anyone the duty of deciding wint was necessary for their survival.

mint was necessary for their survival.

Dr Rissinger makes fairly frequent public appearances these days, to which he seldom depens from camious support for American foreign policy or a general enelysis of the problems of the world.

His own relations with Israel and therefore with the American Jewish community were often strained while he was Secretary of State, because he never hesistated to put pressure on Israel to make it occept what he considered to be in the best interests of the United States.

It was no more than a hint, however. He sise emphasized his own Jewishness to the Congress. "The present situation is one that must fill all Jews with a sense of responsibility and a sense of concern", he said. AH Jews know that peace

cannot rest only on professions and on verbal starements, because they have seen too much of the transitory name of human intentions. All Jews of human intentions. All Jews know that in time of crisis and of frustration, they can easily become the target of popular emotions and that they therefore feel it in their despest being that they must not be seen as the cause of international difficulty."

This hint that Israel must be careful in the demands it makes on its supporters, was followed with the statement that "all Jews have seen too much suffer-ing and too many people killed to be able to abandon their own judgment as to what is neces-suy for peace and for survival."

Bundesrat move to monitor terrorists' legal talk

(Unper House) today voted to submit a concroversial Bill to the Bundestag (Lower House) which would allow the supervisign of conversations between and their lawyers.

The Bill is based on the strong suspicion that some of the terrorists, lawyers actively suspicion was strengthened by the discovery of plsenen by the discovery of pis-ic's, explosives, a communi-cations network, a radio and other objects in cells at Stammheim jail, other Statt-gart, after the deaths of the three Baeder-Meinhof ter-

Pakistan strife foreseen if poll is delayed

Unless elections are held in Pakistan next March the country could be plunged into chaos again, the president of the opposition Pakistan National Alliance said last right.

Maniana Mufti Mahmud was

reacting to remarks by General Zia, the Pakistan military leader, in Ankara in which hepredicted that elections were unlikely before next November because of the amount of "cleaning up" still to be done in the country.

Interviewed in London, Multi Mahmud said he did not know why the elections scheduled for October had been postponed. He denied that the PNA had requested the delay as General Zia has indicated.

The Multi, former Chief Minister of the North-West Frontier Province and a mem-ber of the Jamiat Ul Ulama ber of the Jamiat VI (Jama Islamic party, said it was untrue that there had been a resurgence of support for Mr Bhutto, the former prime minister, after his arrest and detention. The demonstrations of support, he said, were "all propagands. Once you get to the top and fall down you tever come back. That's the history of Pakistan."

Asked whether the alliance was united only in its opposition to Mr Bhutto and without a coherent policy, the Musti

a coherent policy, the Marki said this was an image put about by the Western press and broadcasting media.

Violence stops Mrs Gandhi visiting Andhra Pradesh From Richard Wigg Delhi, Nov 4

Mrs "audin today cancelled" "indefinitely" pleas to begin a speaking tour tomorrow in a third state of southern India after, ner appearance in two other states earlier this week resulted in serious violence. The former Prime Minister, who had gone south in an effort to show rival Congress. Party leaders they badly need her crowd-drawing, capacity, herself suffered a cut below the right ear from a splinter of glass when the car she was travelling in yesterday was stoned in Karnataka, the former state of Mysore.

Aides said the cht was not serious and Mrs Gandhi addressed the meeting she wan going to at Shimaga, 185 miles north of Bangalore, before a doctor attended her.

About 1.000 demonstrators. The former Prime Minister.

About 3,000 demonstrators, carrying black flags (the equivalent of "Go Home" notices) had paraded and nec-

notices) had paraged and neckled her throughout her speech. They were local supporters of the Jenata Party, which ules in Della, and of the Marrist Communist Party. Last Sunday two people were shot dead and more than 40 fujured in Madras when Mrs Gandhi spoke there and elsewhere in Tamil Nadu state her car had been stated but abe was not hirr.
Today's cancellation of the
visit in Andhra Pradesh after
yesterday's troubles in Karna-

Mr Sadat repeats call for preparatory peace talks

President Sadat has revived his proposal that the Geneva Middle Rast peace conference should be prepared by an informal working committee. in a television interview retalks in Saudi Arabia yesterday and broadcast in Egypt tonight.
Mr Sedat emphasized the need for "careful and adequate preparations" for the conference.
A working committee would be needed to make these prepara-tions and to draft the agenda. This work should be done by all the parties to the conference, namely the two co-chairmen—the United States and Sovier Union—Egypt, Syria, Jordan, Lebanon, the Palestinians and Israel

Egyptian officials explained privately that what the Presi-dent had in mind was not a formal committee in which all parties sat down together (something that could come only with the conference proper) but rather an informal

form of proximity talks, with form of proximity talks, with Arab. and Israeli delegates either in adjacent hotels or on different floors of the same hotel. (as happened in the Rhodes armistice talks of 1949), and talking through an inter-

tary of State. Just what form the Soviet involvement would take is not clear. A similar proposal was made A similar proposal was made in August when Mr Vunce visited Egypt, but at that thise it was vetoed by Syria. The Egyptians argue that this time Syria will not object since it is clear that the proposal does not involve sixting face to face with Israeli delegates before the conference and does not exclude the Falestinians.

Mr Sadat was quoted today in the semi-official daily Al Ahram as saying "there are no differences between Egypt and Syria". But few observers here take such a statement ar face value, and some reports say that while in Saudi Arabia Mr Sadat complained bitterly about Syria's negative artifude. Syrie's negative artitude.

A further difficulty is that by including the Palestinians in his

list Mr Sadat appears to beg one of the main questions the "committee" would have to deal with, namely that of Palestinian representation. Apparently his idee is that Mr Vance would have talks with a group of Arab delegates who would not be given separate national labels, and who would include one or more Palestinian representatives.

The United States is comhotel (as happened in the mitted not to have any direct Rhodes armistice talks of 1949), dealings with the PLO until it and talking through an inter-accepts Security Council resomediary, most probably Mr Intion 242 recognizing largel's Vance, the United States Secre-right to exist.

Blandings astle

by Richard Usborne

Wodehouse built Blandings Castle from his typewriter and from far away. As a young, struggling, English author in New York, he had been writing, primarily for the American market, light, romantic stories set in America. Something Fresh, published in 1915, justified its name. It was largely farce, and it was set in

There had been a Shrop-shire custle, Dreever, in an earlier, more serious novel, A Gentleman of Laisure, that Wodehouso had published in 1910. Dreaver had had an amorphous Anglo-American house party, a rose garden, a lake, a bossy aunt and a butler. You could say it was a pale foreshadow of Blandings. Ecipher Castle, in A a pair forestandow of blandings. Belpher Castle, in A
Damsel in Distress (1919), was
a back projection. And I
imagine that if Wodehouse
then had even a presentiment
of a saga—Baglish castle, vague
widower/chatelain/peer,
gon sisters, incarcerated niese,
her penniless lover, fat butler,
thefr of treasure (hot memoirs. theft of treasure (hot memoirs, pig. necklace), imposters and a supreme strategist (Psmith, Galahad, Lord Ickenham)—he Galanad, Lord Ickennam)—he would have ended A Damsel in Distress differently and stuck to Belpher for keeps. Belpher was in Hampshire, and Wodehouse always felt that the four-hour, plus or minus, train journey distance between Paddistress and Market Palandia. dington and Market Blandings in Shropshire was a bit of a drag on his plots. But at the end of A Damacl in Distress Lord Marshmorecon, the varue/ widower / peer / chatelain / Emsworthy figure, married a charming American chorus-girl. So Wodehouse went back to Blandings for Leave it to . Psmith in 1923 and for another eight novels and nine short

He was well on into a ninth Blandings novel when he died: Sir Pelham Wodehouse, DLitt Sir Pelham Wodehouse, DLitt (Oxon), aged 93 going on 94, in hospital on Long Island, on Valentine's Day 1975. Would State at Blandings have been his title for it? Not on his life! He wasn't ill. Just a rush of some sort on his hands and bald head. They had him, protesting, in hospital to run some tests.

He had a rough typescript of 16 chapters of the new novel, out of a planned 22, with him in hospital, and pages of notes in nospital, and pages of notes towards its ending. He was impatient to get back home to his rippewriter. But he had a heart attack, and went out like a light. When better than at the age of 93? Where better than it he heart at the heart a in a hospital? How better than at work on an unerly frivolous and irreverent novel? Wodehouse has told us hardly anything about Blandings Castle's history. It was built of grey stone, solid against possible attack, in the mid-liftsenth century. It had interested Viollet-le-duc. It stands it off at the southern end of the Vale of Blandings. It is one of the oldest inhabited houses in the country, with 52 bedroams and staterooms, some of which have not been occurried since Queen Bilzabeth I and other royalty were visions. In Leabe it to Elizabeth I and other, royalty were visitors. In Leave it to Psmith, Psmith suggests that Cromwell had been a less welcome visitor. But as Psmith gives the date of Cromwell's visit as 1550, we must suppose either that Psmith wean't being serious or that 1550 is a misprint that has survived uncor-

Now, in the twentieth cou-nay, the castle is obviously a very large, confortable, warm-house, with a long carling drive and a great expanse of gardens, and woodland stretching in sun-soaked distances in all in son-soaked distances in all directions. The railway station is Market Blandings, about three miles off. Shrewsbury is over there. You can see The Wrekin from the tower of the west wing, and the Severn is very much part of the landscape and view.

After that we, the readers, must rely on conjecture, studying the evidences in Wode-house's texts, and plecing together, where we can make them fit, rooms, floors, texts. gardens, lawns, trees, tennis cours, pig-sties, paddocks, streams, water meadows cow-sheds, drives, vistas, villages, churches and railway lines.

churches and railway lines.

But in a succession of Blandings books spanning sixty publishing years you must not look for a purist consistency of topography. Not from Wodehouse. You would not say he was careless. Carefree is a better word. He has left a considerable number of difficulties for the ilgsaw puzzler and, I think, four or rive positive impossibilities. Yet here we come, offering in print drawings and maps, with a helicopter view of the castle, the Vale, the lake, the pig-sties, the rose parden; the Yew Alley and there, in the distances, Blandings Parva. Much and there, in the distances, Blandings Parva, Much Marchingham, Market Blandings, Sunnybrae Cottage and other locations sacred to the memory of the texts. Also a sketch map of Market Blandings, station, platform and Juo Robinson's text and the Emsworth Arms beyond; and plans of the ground floor and plans of the ground floor and castle. Much

We have worked them out scrupulously and, doubtless, fallibly, from the Blandings books, and we have made a special study of the Paddings ton/Market Blandings train schedules. Even if allowances are made (as they must be) for artistic licence, the publishers expect to receive a lot of flak.

scholars: protests, counter-clinios and decision for beving dared to give fiction the semblance of fact and staked our claims on probable loca-tions, directions, shapes, sizes and distances in the fabled decisibe.

What, for instance, about that tower on the left, at the county of the castle? Wodehouse refers to that tower in two similar passages in two separate books. It is the tower over the west it is the tower over the west wing of the castle, and, or but, it is separated from the main block by a gravel path. It seems to consist of a small dark door at ground level and to contain, inside, only winding steps to the roof. Lord Emsworth's fing Thes there when he is at home. It is a footman's dury to run it up in the morning and lower it in the evening, apparently taking it away with him and locking the ground level door for the night.

It was on the turret of this

locking the ground level door for the night.

It was on the turret of this tower that Lord Emsworth looked forth through his relescope and saw his son Frederick kissing the girl in the water meadows by the lake ("The Custody of the Pumpkin", Blandings Castle). It was twenty times round its chimney stack that Monty Bodkin had seen Galabad chase his nephew Ronnie with a whanger for laying pur timesches is his chair, it was here time Sue Brown, sighing her soul for the blows that fate was dealing to her engagement to Ronnie, was unobserved by the flag-lowering footmen and was locked up, or in, till jealous Ronnie-came to rescue her, and found Moncy's tell-ade hat (Heavy Weather).

What was this tower, other What was this tower, other than a pedestal for the flag-pole? What and where was the west whing if this solitary, semi-detached tower dominated it? This is a crux. We have tackled it boldly. We have made the tower dominate a west wing that is no longer there. It has all gone to rull, and its battlements, halls and dunctions have given their stone to the more modern parts of the house and estate. The curtain wall, what's estate. The curtain wall, what's left of it, hunris nothing now, and gardens, lawns and mealows cover the courts where Threepwood after early Threepwood jousted, sang madrigals, gloried and drank deep. The chimney stack round which young Ronnie fled from his uncle is now purposeless. Jackdaws would next in it if it were not for that daily intrusive footman. In the early nineteenth cantury, I have guessed, size sixth

tiry, I have guessed, the sixth earl's factor got that Shrews-bury architect (tume unknown) to re-plan the petched-up old fortress as a comfortable negor house, with Georgian grace, printitive crucial heating in addition to the huge open fires, double being sain windows, bathrooms and lavatories plumbed in and the facilities for getting the food hot from lattices to tables. But the west wing remains as a name only, its last resisty being the singular tower flying the Ems-worth standard. Or that's the

way I read it.

And, though there is no record of Lancetot ("Capability.") Brown reshaping the park, I have supposed that the fourth earl had met Brown fourth earl had met Brown when he was at work on Weston. Park, near Sinfinal, for Lady. Withraham, and sor him to make, Blandings, from boundary to boundary, his next commission. Give them 25 years to settle and mentine much longer for the young dedars—and those vistas, those clumps of Scotch firs ("Brown's but tone"), those free rouning sandens: they would grow, in grace, beyond fashion, and be valuetable only to a profligate heir (one has to worry about the present Lord Botham, what little one knows of him) and alien property developers. what little one knows of him) and alien property developers.
Vanessa Polk, in A Pelican at Blandings, looked from the tower and could see the Wrekin and "a fascinating panorama of Shropshire and its adjoining countries". She must, I think, have been looking north to north-east. And she would have been able in see the tributary of the Severa that watered Merket Blandings and flowed below the garden of the Emsworth. Arms. But the

reagred merket handing and flowed below the garden of the Emsworth Arms. But the Severn itself was also distantly visible if you looked much west, on a line between Blandings Parva and Shrewbury. Elandings Castla is kapped in one of Sabrina's fair curves. If you hid asked Wodehouse how, exactly, he had seen the rooms, the gardele, the trees, the woods and landscapes in his mind he would have shuffled his feet modestly and changed the subject in order to prevent himself replying, testily, that he could not be bothered with details anless they affected his laminediate plot and scanario. He could give Lord Entsworth five sisters or now, the the evidence of this last, unfinished book, ten. He could but a Gutenberg Blife in the Matheum in the first book and then, in all subfirst book and then, in all subsequent books, forget both the museum and its bible. He-could put the tember drawing. room upstairs in one book and on the ground; floor ((with french windows) in others. He could magic a deserted game-keeper's contage into the West. Wood when he needed it and widoon the soil of the house. without the son of the house (Freddie) even knowing of its endstence. And so many rooms, in so many books, look out over "the terrace", that I have had in make the cerrace go round three sides of the house. Even so, it is very difficult for I have found it very difficult; to

position all the positions of that lovely, story "The Crame Wave at Blandings".

Well, we have made a cort.
It is up to others, now, to find
a more workable plan for a more workable plan. for rooms, terraces and messuages. Wodehouse has left it to us, his followers and fens, to make it work as close to his clues as possible. Where it does work, it works like a charm. Where it does not, chalk it up to artistic least to his title. does not, cases it up to artistic licence on his side, or just as an insoluble problem on ours, to be settled as beet saits die probabilities, even if it means flying in the faces of clear-cut Wodebouse statements in other passages, other books. The amber drawing room, for a start. It was first mentioned in the short story, "The Go-Getter", first published in 1931, and the short story, "The Go-Getter", first published in 1931, and the smber drawing room was specified as having french windows. After the great dog fight, Beefy Binghain's Bottles v Lady Ancester's eireitele, Beefy had "thrown Bottles out of the window"—a thing that he would never have done if the room had been upstairs and even, I think, if there had been french windows opening on to a balcony then Bot in Galahad at Blandings, Hurley Winkworth and Lord Einsworth, separately, shekked away from the aliber drawing room and went downstairs to the hall and the open air. In A Pelican at Blandings the amber drawing room is safely back on the ground floor, and then's where we have placed it in the pism. There may be more than one apper drawing room. I doubt it. But it was out of an upstairs drawing room window that Constance Keeble's nenklace dropped to Eve's feet on the terrace in Leave in to Psmith.

terrace in Leave it to Psmith The Empress of Blandings is twice brought (or pushed or pulled) into the castle. The first time, she goes dirough french windows into the Garden Suite, to be lodged in the bathroom there. So the Gerden Suite is on the ground floor, the Duke of Dubshable its resident guest at that time (Uncle Fred in the Springings). The second time that the Ribbress makes herentrings in the Garden Suite and the pig goes in at the french Galabad is in the Garden Suite and the pig goes in at the french windows, again and—quite a long journey as pigs go—up the main stairs to Verunica's bedroom, the Real Room. Wodehouse says there that Veronica's roote is "on the second floor," which is American for "first floor " (the floor above the ground floor). When the Duke of Dunstable was in the Garden Suite we were told that the State we were cold that the morning sunlight shone into his bedroom. Morning sun comes from the east, so the Garden Busts must be at that and of the castle. And it's "on the right side of the castle. side of the passage going off the ball" it is a confusion,

extra to the nervousness are get

from the first-floor/second-floor from the first-floor's econd-floor dubiety that 'Anito-American Wodehouse gives us, that, though there is a Bide Room bedroom upstairs, he bedroom of the ground-floor serden Suite is called the Biue Room. And there is a bedroom upstairs called the Garden koom.

There's a proof the in Galo-

the Cress?

Educ

There's a great that in Galatians, Once you the on it, entrails Twenty-man distinct damnations, One site, if another falls, missed the crusty old chap in Browning's Sollingup of the Spanish Cloister.

Blandings topographical questions are many of them, pleasently moot. It you want to jump in at the deep end, I suggest two tests for strong swindmers. Go back to "Tie Crime Wave at Blandings", estead it carefully and then made a map showing the positions, from which each of those thora, of George's sargun was simed at Baxter: one by George, two by Lord Emsworth, one by Beach. Show where Baxter, was in each instance Show also where Lady Constance and Beach were when she took a pof shot it him. Where was Baxter when the evening sun shode on his spectacles? Where was Jane when shi saw her uncle Lord Emsworth take his first shot at Baxter from the library window? Obviously your mappinust be to rough scale, allowing that George's airgun would not have been able to tweak Baxter up, through his trousers, at more than 30 yards.

Next question, and further stied: re-read Pigs Have. Wings and make a map of the hitcherings and thicherings in the thefus and counter-thefts of pies between their own sties, allen attes, Sunnythine and assorted shrubberies. This must be to a rough scale, too, and it will involve you in locating Matthingham Hall, home of the dreaded Sir Gregory Parsloe-Parsloe, lurer-wwy, for Jigher wages, of Lord Emsworth's pigman, George Cyril Wellbeloved, rival, now, of Lord Emsworth's pigman, George Cyril Wellbeloved, rival, now, of Lord Emsworth's pigman, George Cyril Wellbeloved, rival, now, of Lord Emsworth's pigman, George Cyril Wellbeloved, rival, now, of Lord Emsworth's pigman, George Cyril Wellbeloved, rival, now, of Lord Emsworth's pigman, George Cyril Wellbeloved, rival, now, of Lord Emsworth's pigman, George Cyril Wellbeloved, rival, now, of Lord Emsworth's pigman, George Cyril Wellbeloved, rival, now, of Lord Emsworth's pigman, George cyril well beloved.

Blandings.

Where we have tried to answer such questions, we claim no originality for our conclusions. What we do claim is to have done to the control of th have done a good deal of home-work. Whather we have for the enswers which would have pleased Teacher, we can never know, since he is no longer at his desk

This article has been adapted by Richard Usborne from one of his appendices to P. G. Wodehouse's posthonous novel Sunset at Blandings. Chatto and Windur publish on November 17 st. 53.55 magning which its man by lonicus, part of which is printed above.

- Alexander Walter, Evening Standard

Weekend Broadcasting

Today
5.25 pm BBC 2 A very welcome early-evening chance to see the excellent Women at War series (tonight, tomocrow, Monday, Tuesday, Wednesday and Friday).
8 om ITV London Weekend's Rhinemann Brichange is a gripping winner. Do not be put off by the apparently slow beginning; it needs to be if you are to master the essentials.
8.25 pm BBC 1 Only the real addicts of power, money and eccentricity can possibly want to watch a total of 3 hours and 10 minutes of The Amazing Howard Hughes, but that accounts for a lot of viewers, I suppose.
8.25 pm BBC 2 Otherwise, it has to be Russian Television's superb production of Boris Godunov, with Yavgeny Nesterenko singing Boris. From the Bolshoi, it marks the start of BBC's Russian week.
11 pm ITV Sir Harold Wilson's debut as a television instorian/front man tells us little (or nothing) about his subject,

If pm II V Sir Harold Wilson's dead as a tells us little (or nothing) about his subject, from man tells us little (or nothing) about his subject, Mr Harold Macmillan, or himself. Affectionate, even adulatory, but not memorable. But at least this first of the 12 programmes will be watched—and talked about.

Tomorrow
7.15 pm ITV The girls of The Rag Trade find yet another way
to diddle the long-suffering and untypical Mr Fenner.
8.40 pm BBC 1 Howard Hughes continues.
9.5 pm BBC 2 And second of the week's Russian treats is
the Bolshoi's production of The Nutcracker.
9.30 pm ITV But followers of the much-actlained Stan Barstow 2.50 pm II v but followers of the inter-accumined Stan Barst Cost of Loving series will not want to miss the last—
The Human Element: Anti-climactic, but conviacing, on 10.25 pm BBC 1 Even if you have to miss the beginning, it is worth turning to the gentle, utterly likelie Charles Schulz, creator of Peanuts, in Everyman, Why, why

Scottish

Tommy Lee Jones as Howard Hughes, BBC 1 tonight and tomorrow

O:Tonight's Midnight Movie (BBC 2, 11.50) is one of the best of the Hammers, The Nanny, made in 1965 by Seth Holt, a talonted British director who died young after only one more feature. It stars Bette Davis in one of the more outrageous performances of her later career, as an English nanny—all tweeds, wool stockings and indufgent smirks—who harbours a deep dark secret. Tomorrow's Film of the Book (BBC 1, 1.55 pm) is Alfred Hischcock's British-made Under Capricorn (1949), scripted by James Bridde from a novel by Helen Simpson. This was the film of which Hischcock wistfully told François Truffaut, "I would have liked it to have been a success". It was not, despite his care with the visual aspects of his setting (Australia in the 1830s), and fascinating playing by Ingrid Bergman as a sad alcoholic wife and Mangaret Leighton as a homicidal housekeeper. A romantic melodrama allen to his tastes and talent, it was not enhanced by hanguvers of the long-take style Hitchcock had devised for his previous film, Rope. Later the same day (BBC 2, 10.50 pm) there is a film by Hitchcock's most loyal disciple. Claude Chabrol La Femme Infidèle was the first and is still the best of Chabrol's dramas of marriage and murder. Here a rich and quietly married insurance broker murders his wife's lover, after which an unacknowledged complicity binds the couple more tightly than before.

The Hollywood Musical on Thursday (BBC 2, 9 pm) is Down Argentina Way (1940, directed by Irving Cummings) which launched two legends. Berty Grable, the cheerful, friendly girl with the legs, had been ground Hollywood all of a decade before this picture finally established her as a star and the GIs favourite pla-up. The Brazikan Bombshell, Carmen Miranda, was thrust into the film on the strength of her success in a Broadway revue, Streets of Paris, and went on to the brief and colourful stardom which had already taken a sharp dive before her death at the age of 39 in 1948.

ophesval of the century, but it seemed to me that in quality Erik de Mauny's study, What-ever Happened to the Revolution? more than made up for was nothing starting: manny commentary and interviews. Its strength lay in the fact that it gave a view of Russian society quite different from the one it is so easy to acquire: while not ignoring the unaccept-

heard it is really very hard to come away still hanging on to the belief that if many Rusit is only because they don't know any better. You were obliged to consider sians approve of their society, obliged to consider other reasons why they see it and the world around them as they do and one of these was summed

up by Mr Pozner: Over these sixty years the vast majority of the people have sacrificed so much for this system that they have proven beyond a question of doubt that they are for this system — because if they

coincided and are seencountry has apparently given so many of its cirizens so much and many of them can still re-call what life was like before. crinicise that country beyond a and w certain point and especially to belief-wish to emigrate. This is with cerely

out taking into account the

the very soil of Russia, some-thing which we in England hardly seem to feel for English soil at all, perhaps because it has been so little threatened. The effect of such material reality to them as does ours to us; while our society, for reasons of belief as sincere as any we may hold, looks just glimpse the world as seen by

other effort to communicate, can do. At least, so I believe. And quite sincerely, too.

Radio 3 has just hamnoised a new series of six talks on The Sinte of Depth Psychology, the first two of which can hardly have, encouraged anyone who may be pinning his hopes for the forum of man on to this branch of smoothy in the open-

aged to entitle a major work not The Explanation but

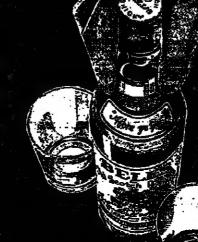

aging professor and his student held me tight and kept me smiling slightly in appreciation. Under David Spenser's direction the acture, Arma Calder Marshall and Tunothy West at the control of the contr and what the virtue of sincere protess? Reference back to tion the actors, Anna Calder belief—which we all most sin-ultimate authority does not Marshall and Tamolhy West carety believe in—may actually greatly clarify: whatever he caught every nuance. Very be. What is this powerful ele—may have believed about his tice indeed.

Fawlty Towers picturebook (Futura, £2.50) is an assembly of three scripts from the first series (The Builders, The Hotel Inspectors and Gourmet Night) complete with still-frames from the television tapes and an italicized commentary by John Cleese and Connie Booth to cover the nonverbal jokes. An initial print order of 150,000 copies sug-gasts that somebody somewhere knows there are an awful lot of Cleese addicts

Cleese himself remains uncertain about what will make people buy the book of the programme: "When we were doing Monty Python there were records and books and were records and books and Tshirts and a whole spinoff industry which I never really understood: people talked about supporting Python as though we were a football team and I think there may be some of that feeling for Faulty. Towers, though of course we're working to a wider and maybe older sudience. Pompous though this may sound, laughter affirms membership of a group, and that group may need something to hold on to: one of the worst things in the world is to be in a room. where everyone else is laugh-ing and you're not—you feel threatened and very angry.

"There are two things you can never tell an Englishman: one is that he's bad in bed and the other is that he hasn't a sense of humour. My father ouce, wrote in to Punch to complain because he couldn't understand one of the cer-tuons: it never to his dying day occurred to him that it might be his fault and not the magazine's."

Born 37 years ago to a femily of solicitors and churchmen in Weston-super-Mare, Cleese went up to Cambridge with every intention of becoming a solicitor himself, and only last month plucked up the courage to throw out the last of his law ooks. A career in undergradusto revues and then television led him to Python and from there to Faulty Towers which he writes and performs with his ex-wife Connie Booth. Not that they're actually divorced: nothing in the Cleese life is quite as simple as that. They are merely separated, pending further arrangements:

"We work together very well but as a married couple we found we were holding each other back and that we'd

ANTHONY POWELL: A Dance to the Music of Time (Fon-tains, 12 vols; vols 1-5 and 8, 85p, rest 95p) Handbook to Anthony Powell's, Music of Time, by Hilary Spuris, ing (Heinemann, hardback) £7.50)

The death of an errist changes everything about his work. There's no more promise or this development. There's a finished convex with a line drawn across the page, like an account book.

It's the same with Anthony Powell's novel-series, Music of Time, published over 24 years. The comedy is complete. Here it is, all in one eyeful, on the paperback display rack. A family snapshot album now: not, a construction continuous movie programme.

Ton Marc's brillians covers, in an old-fash begins brutal and ands up addity. The composer, Hugh of a Soho half-pine. X. Trapnell, the novelist, pouts in an hotal bedroom, with Lady Widmerpool (f. presume) naked and burn upwards on the bedspread. Dressed and older, Lady Pamels mooches along by a phallic symbol of Venice.

Marc's only error is in walter in them, about Compare Powell in the these movels which can become other novel-senies of our time. C. P. Snow's Strangers and Brothers. Snow is mocked for incomposer, they offer a his owlickness; but Powell can be prose on, too. Snow is often, I be movelland, sits glimbly in front of a Soho half-pine. X. Trapnell, the novelist, pouts in Anden and Dey-Lewis there, I Powell and the Snow series was as pleased as inspector of reporting. (as well as they deade of the Thirties.

The charm of Music of Time to have actually happened. It is not necessarily to one's dote, the carrousel of persons credit if Powell seems that here.

original novels.)

Someone coming to Powell for the first time can now read the whole thing, in the right time as it taken to get through; 12 books. But to those of us

who read the series as it came form of education. School and out, it has been part of growits echoes dominate all three ing. m. The two become very it was No 4. Ar Lady Molly's hard to disentangle. Is Music than bit me: published when I of Time over-praised? I find it was educating myself in impossible to well? Auberon Waugh, for example, nesers to it disparagingly as "knitting"; and it's true that Powell is not a man to shim cliché, and has an almost bovine tendency to ruminate, Is my view, too, neither the neurator, Nicholes Jenkins, nor the great bogyman, Kenneth To my

the great bogyman, Kenneth was this an amusing alice of another life, it was so ment and the weakest because it tarks so much be waskest because it tarks so much be garu of the 'Akternative Society. Even through 11 previous books, he has never acquired enough character to be given a plausible retread.

But what is it, then, about these novels which can become the context of person I was about these novels which can become the context of person I was about these novels which can become the context of person I was about these novels which can become the context of person I was about the property of the penalty of this funge-life because of this was the sort of person I was about the penalty of t

It is not necessarily to one's circumstances, almost always by however, he know a joke when he hears it And Snow larks the neste for goosip and military shungry as well as selected to the carrousel of persons to have actually happened.

It is not necessarily to one's credit if Powell seems the nore appealing. Unlike Snow, circumstances, almost always by however, he know a joke when he hears it And Snow larks the neste for goosip and military shungry.

She was black-haired and services and I was in the sixth form when the series began. I tried to read all of the first three, atvacious times; but without success. I found them as tellous as bearing school memoirs

its echoes dominate all three. It was No 4, At Lady Molly's, that bit me: published when I was educating myself in Boglish interactions of Control of the Co city library, in the intervals of taking a degree in French I read all the rest as they came three again, enjoying them sow for what they led up to. As the years (and the novels) passed, I began to see that not only was this an amusing slice of another life, it was

Anything for a joke, of course. But more the moral. Beware what you wish for—you may get it. Beware what you read—you may live it. Books do furnish my room.

Paul Barker

A letter to

Choderlos de Laclos

Love letters—the only letters that are kept for years, re-read and therished—are here divided

tears, or the pain of parting? I find the Carlyles' letters to each other very moving and so is Camille Desmouling last letter on the eve of his death by the guillotine, to his young wife. He was not to know that she would follow the same path some few weeks later. Some, like List or Proust, are a bit much, and so, I find are Abelard's letters to Heloise. One cannot help remembering that something like 10 years passed after their tragedy before he wrote one single word to her. Love onwanted is the soddest almost impossible to read Carrington's declaration to Lytton Strachey without crying. Who would one like to get

love letter from? There's Choom, who seems to have the gift of writing just as if he were speaking or Walter Bagehot, who writes a sweet, funny letter to the girl he was to marry. And they lived happily ever after, I am glad

Lady Antonia was not in-cluded in her selection, as she might well have done, anything from Les Liaisons Dangereuses, a novel written entirely as an exchange of letters from people living in the same section of society. The author was an un-known officer of artillary, and it was published anonymously in 1782. It was soon a runaway best seller, to use a modern phrase. And people shuddered, and were scandalized, as they and were standarded, as they still are, at the picture of society it revealed. They were rich, they were bored, they and very large up do, except take part in flictations, love affairs, and to add the spice of danger, liaisons bound to cause trouble, R. L. Storey agonies, duels, deaths, disgraces.
The protagonists are the Marquise de Mercenile and the

Vicomite de Valmont. The Vicomite has all the inlents for the classical seducer; he is bandsome, charming, resource-

The Vicome thinks it would

be amusing to seduce the vir-tuous young wife, Madame de Tourvel. At the same time, he on her own account manages to honour, revenge, sexual plea-sure and humiliation, expressed in terms of war, of defeats an It is, moreover, extraordinarily well written, quite amoral

The author knows altogethe too much about women for their fort. Every art of attracting the opposite sex, however trivial, has been observed and anatomized. And even though the concept of honour, both per-sonal and sociel, has largely disappeared from our lives, the war between the sexes con-tinues, though on a different front. We are told, and no wonder, that the Marquise de Coigny gave instructions, after the book was published, that the was no longer at home to rieur de Lactos. · · ·

Lovers, readers

The Letters and Journals of Katherine Mausfield, edited by C. K. Stead (Penguin, 95p; Adlen Lane, £5.75)

Surely, for many, Katherine Mansfield was a first isterary love affair from which one has never recovered, starting as one did (aged 18, 19, 20) with the Journal and those Letters which enabled one to foce eithers and betters with a new sense of awareness, of confidence, of superiority even. Could they understand as well as she those revelations into the sensitivity of daily events? Clearly not! We and she, that is Katherine, confronted the is Katherine, confronted the coarse static adult world (forever telling us to face facts) and shared a quite magical conception of what life was all about. "Oh, life! accept me—make me worthy—teach me. I write that I look up. The leaves move in the garden, the sky is pale, and I catch myself weeping. It is hard—it is hard—it is hard—it At 18, 19, even 20, this was pure gold.

All this nostalgia returns as one reads C. K. Stead's Kathone reads C. K. Stead's Katherine Mansfield: Letters & Journals, admittedly nostalgia tempered by a latterday knowledge of Katherine herself, which enables us to appreciate that behind the delicacy of her manners and health she was as tough as steel. Mr Stead (New Zeakander like KM) has congenitiously checked (nonscriptiously checked (nonscriptiously checked (nonscriptiously). cientiously checked transcrip-tions, includes a few bitherto anpublished letters (including a description of one of those celebrated rows between celebrated rows between Frieds and Lawrence), pro-vides a thoughtful and inform-

this was pure gold.

anive introduction to the back-ground history of those Letters and Journal, examines perhaps rather too kincely, liferry's "explosestion" of his wife's literary remains, and assesses KM's intermetional reputation. Useful for a new generation of

readers to these two classics are Mr Stead's linking hiographical notations to his are Mr Stead's linkin biographical notations to it selection, arranged as chronological aurobiography,

biographer, Antony Alpers and of Murry, while further drawing attention to KM's now factors "chambleon" moods

Perhaps KM's greatest hold on our constant attention is her specific ability to enthrall and distress almost simul-taneously. Her journal and letters, read in conjunction with sil biographical references, show a personality totally confident of its power to charm and enslave, because, when one reaches the point of throwing up one's hands in revulsion, she neatly engages mind and heart all over again. There really is no escape from her, once addicted, and we who did not know her personally may thank our lucky stars that we were not so emotionally buffeted as were, say Murry (although he inspires little sympathy) and that devoted long-suffering friend, Ida Baker, the L.M. of the journal

and letters, whom Katherine hit so constantly with the ruthlessness of a tennis cham-pion, yet whose dedication she absolutely depended on. Her bisexual nature was a fearful weapon which kept Katherine basically inviolate from all lovers. Enthusiasts and potential lovers such as Ottoline Morrell and Virginia Woolf were indeed moths to her flame, and singed were both ladies in the unequal battle of friendship with Katherine.

All this and more these ever engrossing Letters and Journal reveal, in such a participatory fashion that one has a vivid physical sense of being trapped in KM's world.

Here then is a little summary of what I need—power, wealth and freedom. It is the hopelessly insipid docume that love is the only thing in the world ... which hampers us so cruelly. We must get rid of that bozcy—and then, then comes the opportunity of nappinass and freedom.

A pertinent quote featured by Mr Stead with its revealing word "bogey", typical of one who handled love inspired with a brumlity near barbarous, one who never for a mo allowed a lover (wh (whether anowed a lover (whether momentarily rejected or judi-ciously entertained be it poor old Murry, "Bogey" in fact, or LM, distreught and bewil-dered), to withdraw or reduce

excellent conscism of KM's by a fraction. She was out to biographer, Antony Alpers consume them all, since she herself was being daily consumed by tuberculosis,

· Her final affront to all her lovers was to hand herself over to the mystical depersonalisection of the Gurdileff Institute as death robbed her of life. A superbly Machiavellian cut off from love, which she so desperately needed, denied her by her mother, tricked from her by the death of her idealised brother (called "Bogey' in the stories), love about which she was so ruthlessly calculating, denying to others and herself the warmth of it when the gall of coming to terms with it conflicted with her personal sense of justice, that is her assessment of how much generosity she, Gying every day of her life, could afford to spend.

If, mild revenge, for the pas-sions she inspires in us as we read the letters and the Jour-ual (and the biographical memoirs), one hopes to chal-lenge her supremary over us by rereading the work, vaguely hoping to find it lacking in some measure, she triumphs yet again, because the work, those five volumes of short the immortals of literature. Indeed, even those early In A German Pension stories, carica-German Pension stories, caricatures to some extent (to her
credit she refused to allow
them to be reprinted during

For children Yo ho ho

If any excuse can be found for the Treasure Island that the BBC are currently unreeling before us then it must surely be the flickering tube's windica-tion of the printed word. For, on the rare occasions when the selevision version heaves-to alongside the original story, the drama jumps and pulses with a life quite absent in all the adap-The only Treasure Island worth Treasure Island and the less messing about with that the batter.

This because the television production has prompted a number of paperback reasones; mone of which controlly measures up to can attend the matural, I suppose to recommend the Pui fin edition (50p for the combut, unaccountably, it omits Stevenson's—or, rether, Cap-tain Flint's—map, which, as Eleanor Graham notes in her preface, was the foundation of the whole story.

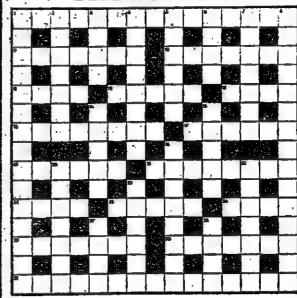

If you want a map, therefore, you will have to our the more acrubby paperbacks put our by Dent (Everyman 60p) or Collins (Armada 40p). The first of these is complete, first of these is complete, and has a solid introduction by M.

R. Ridley, but is otherwise undistinguished; the second says it is abridged, but I haven't been able to discover where, beyond the preliminary poem and dedication, the editor's cuitass has been at work. At all events, it has been vastly less destructive than that undistant by Mr. Tom Barding in wielded by Mr Tom Barling, in his "retold" edition in the Piccolo Adventure Library (50p)—a brok also illustrated by Mr Barling with quite exceptional infelicity.

The General Editor of the Piccolo Library is Edward Blishen, who has published several protestations of good intent over this hacking up of Lamous texts (fidelity to the spirit of the book; making an exciting story accessible to less literate readers, etc.). From a Treasure Island with the ceal thing though, the deletions and complifications appear to be done in the most arbitrary manner, and one can't help feeling that Stevenson's text might well make more sense to the reeder or storyteller than Mr Barking's. It stands, I sup-pose, as one more example of the trainson of our contempotaty clercs.

disorder, the so-called Wers of menace to royal authority and the Roses. public order latent in feudal These three self-made kings, society was unleashed. Henry These three self-made kings founded dynasties. An important aspect of the histories of their reigns is therefore how they established and secured control of the kingdom. Obviously all had the personal qualities necessary to govern in the conditions of their respective times. spective times.

William slove had much hard experience as a ruler before his accession. Since he was seven, in 1035, he had perilously survived as Duke of Normandy, only after 1047 effectively asserting authority over his beligerent barons. Eleven magnates who had proved their loyalty in these critical years received a quarter. of England.
Welliam assumed the hat-

lowed character of Anglo-Saxon monarchy and retained much of its governmental structure, but he replaced the Old English eristocracy with lished the principle that all land was held from the king. Feudal practices of land tenure: were thus applied throughout England, so assuring William of a trained army of nearly 5,000 mounted knights.

Another Norman innovation was the crection of casties to itary right, so that he suc dominate the conquered land. ceded in 1154, ending a long Native risings were savagely dominate the conquered land. period of intermittent civil repressed. Il's prime sim was to recever the powers and possessions held by his grandfather Henry L. Force and intimidation were necessary instruments of policy throughout his long reign (1153-89), both in England and in his domains which covered the western half of modern france. "A superb communder-in-chief" (Warren), Henry suc-ceeded by striking with un-expected speed and over-whelming might at his ene-mies key positions; "impregn-able" castles were taken and

destroyed. This French and often absent king must be numbered among the founders of the English nation | Legal procedures were devised and made available so that his subjects' disputes could be determined in his courts, often held in their counties, by verdicts of local jurors. Our word assizes commemorates Henry IPs provision of due process of law.

Royal justice became a national amenity and soon came to be regarded as a right enjoyed by all freemen, including the vassals of barons. It was a unifying bond, grying rise by 1215 to the concept of a community of the realm. Later still, the king's practice of ordering localities to send spokesmen to provide informaion was extended to summon ing elected representatives of local communities to parlia-ments. The origins of our constimency system can thus be traced from Henry It's reign.

After the proteen Angevin, Henry VII appears a instreless figure and the history of his reign (1485-1509) almost barren of incident. The contrast is partially due to the absence of literary sources equal in sophistication to those of the twelfth century. The compensating abundance of official records compels Professor Chrimes to concentrate on Henry's development of conci-

liar and financial agencies. Professor Douglas gives due weight to the importance of the Church in eleventh-century England end Normandy By Henry It's time royal control in ecclesiestical affairs - had been moderated by the extension of paper jurisdiction and clerical separatism, problems temporarily exacerbated by the intransigent personality of Thomas Becket. On the eve of the Reformation, Henry VIPs relations with the Church were seemingly so placed that Prosubject in five pages.

Two words that worry travel agents

This weekend, members of the Association of British Travel Agents (ABTA) are gathering for their annual convention in Lishon. Or, rather, some of them are. The majorisy, thous sands, have elected to remain at home, away from the vital discussions that affect their discussions that affect their future, and ours, too, as the travel and holiday buying pub-

will be a failure. Vigorous speeches will doubtless be made, and per-haps even strong resolutions will naps even strong resourcous carried. In the many social gatherings there will be heady talk of a bright long-term future, but all that talk will problems of the present. And the public interest, possible two key words, "Stabilizer" and "Tjaereborg"...

You could be forgiven for thinking that they were, scheme. "We are the only intrading and the sake of the dustry to carry the burden of product through other outlets of a slamming aid and a loser beer, but they are words which pinpoint the trade's biggest start trading", she remarked product through the state of the same pressures that other retail industries that other problems. And because these problems must affect us over the next few months, I would like to deal with them here.

"Stabilizer" is the name given to a scheme thought up by the trade in the wake of

a year to dispense with its con-trods; before referring what remains of "Stabilizer" to the restrictive practices court. The association's chairman, Mrs.
Margaret Hook, has described this as "a suspended sentence", and claims that the soomer or later turn to the real present arrangements are in problems of the present. And the public interest, pointing to two key words, "Stabil-out that ABTA is unique as a

There is little chance of Scabilizer surviving. The consumer is well protected without it—through the bonding system of the Civil Aviation Authority, backed up by the Air Travel Reserve Fund tour company failures a decade and more ago. To protect the which is currently worth consumer, members of ABTA fig.5m, as well as by recent agreed to do business only legislation against the brochure with each other. Agents would "small print". Any additional

Although a measure of protection was afforded, it was clearly a travel trade "closed shop". Such cosy arrangements are not allowed under current are not allowed under current and generally on iravel and holiday buying pubare not allowed under current cruits, the use of technology in lic. For that reason, and a few legislation, and the Office of the industry, and generally on others, the Lisbon convention Fair Trading has given ABTA establishing the "image" of its members as professionals, the real source of travel knowledge. (It is a fact that every letter of inquiry from a reader to me and to any other travel writer is a condemnation of the travel trade in this last rëspect.).

Without the protection of "Stabilizer" the travel trade

Some have pointed out that the Tjaereborg programme of a little over 25,000 holidays is a drop in the ocean, but company made a similar modest entry into the German market in 1974, selling just 53,895 holidays that summer, suffer, but those who are on't This year it sold 174,302 and to provide a genuine service estimates 222,000 for 1976. Its will service and prosper, in total sales in West Germany this respect the retailers seem and Scandinavia are around to have overlooked the oppor-

product through other outlets the 600,000 mark.

Though many people use and supermarkets and even mail order catalogues. It is this aspect of change that the retailers fear most, for they are extremely vulnerable. And it is this aspect—the complete the borg will take business away may be created and sold in from other operators and from the travel agents. (Another selling arrangements—that, brings us to "Tjaereborg".

It is the name of a Danish tour company—one of the largest in Europe—which has hours if you book by telephone entered the British market and or within five or 10 minutes if you call into the Tjaereborg 3,500,000 people chose intered to the control of the largest of the British market and or within five or 10 minutes if you call into the Tjaereborg 3,500,000 people chose intered to the control of the largest in Europe—which has hours if you book by telephone were sold in 1976, well over you call into the Tjaereborg 3,500,000 people chose intered to the control of the largest of the provided by the selling are united by the selling of Advance Purchase Charter are tickets and "add on "arrangements which the provided by the selling of Advance Purchase Charter are tickets and "add on "arrangements, and by the additional ground or tickets and "add on "arrangements which the "two additional ground or tickets and "add on "arrangements which the "travel agents which the "travel agents which the "travel agents who fear the future would do well to the travel agents who fear the future would do well to the future would do well over a stantant to the future would do well over the future would do well to the future would the future would do well to the future would the future would do well to the future would t the 600,000 mark.

campaign in the resort hotels mindy see other tour com-and at Gatwick airport has parles following the direct-seil caused some fury among estab- lead. At present no major com-Eshed tour companies and its pany will take the rask of Christmastime television commercials are unlikely no southe whom they all depend so much.

For us, the purchasers of holidays, there will be stronger price comparition and a wider choice of sales outlers. Travel agents who are nothing more than order takers for package tour companies will certainly suffer, but those who are sh'e to have overlooked the oppor-unities for such service which

Trading to "Strbilizer" and the threat from Tjacreborg to its established way of selling holidays.

A tentative suggestion from ABTA that Tjaereborg's managing director should address the convention was withdrawn almost as soon as it was issued, but for me the most significant incident has been the treatment by the association of Tjoereborg's .--cent application for membership. The application was refused and Tiacroburg advised to re-apply after three months when the company would have "gained more experience" of United King-dom trading!

When those three months have passed. I verture to sug-sest that Tjacreborg will not be the only ones to have "gained more experience"; and as more months go by, November will come around again. And November, 1978, will bring another AFTA con-vention—this time in Torremolines.
Now that could prove a most

interesting affair . . .

John Carter

Gardening

House-hunting

The old arguments about greenhouses still go on—wood ver-sus metal, glass versus plastic, solid fuel, paraffin, gas or elecricity for heating. Emphasis-hifts a little as costs of materials change. Time was when aluminium was very ex-pensive for greenhouses: but as the cost of timber and the man power to fashion it into a greenbouse has inexorably increased over the years

competitive. Frankly I would not waste time considering other materials, I would choose an

treated to give enhanced reraint adhesion. It is then coured with a long lasting green acrylic paint of an unobtrusive shade of dark green. I have had one of these Alton inuses for years and with its sliging doors and glass to the around walls I have found m very satisfactory. There are, of course, wooden models, or dinary aluminum houses, will refer to the course of the course o still others coated with white acrylic paint in addition to trese green models.

there areen models.

And this brings us once more to the question "Should we have glass to the ground or should we have brick or wooden sides up to the level of the straing? Or should we have half boarding up to the straing on one side and glass to the ground on the other?" Personally if I only had one or two small houses I would go for glass to the ground all round. We must face the fact that greenhouse heating costs by all types of fuel have gone up drastically in the past 20 years when I installed the first of my five small greenhouses. So it makes sense to have a house it makes sense to have a house into which one can pack as

many plants as possible in two or even three layers. There is much to be said for a house sited to run east to west with the door at the west end to have the wall clong the north side half boarded and the south wall glass to the ground. Then you can plant tomatoes in a horder alengated the court. wall with staging along the rear wall and possibly shelving above that. Then you can use the space under the staging for storing gladiolus corms, begonia and darkin tubers, even geranium and fuchsia plants in the property of the property the wanter. Or you can hang sacking or black plastic sheet-ing round it and force seakale

or chicory in the dark, There has been a certain of experimentation with the design of greenhouses lately and we have seen houses with from six to 12 sides. One of the latest is the Marley "Pavilion" a rather elegant nine sided structure with walls sloping outwards. It is 5ft to the eaves, 8ft 4in to the polated dome, 6ft 5in diameter at the pase and 7ft 2in at the eaves. The double doors open inwards and each wall and roof penel is supplied as a single sheet of glass cut to shape.

Ventilation is provided by means of eight low level louvre blades and a circular ventilator at the apex of the roof. Shelves may be slotted into place and there is integral staging. The house is built of aluminium tube, requiring no painting or maintenance. The basic price is £195 including VAT, with concrete foundation and three tier shelving extra.

The greenhouse market is highly competitive and if one

be carried out until a new in this field. The recent grants envelope can be fitted.

But if the house is heated and full of rather valuable phints one feels such a fool if it is ripped open by a freezing blazard. With plestic bouses you have to accept the risk of stoom damage when the plastic ages and side-step broable before it happens.

One tin however.

One tip, however: if you paint a three-inch strip of the plastic where it touches the metal supports with aluminium paint, this does help by reflecting hot sunlight to stop the plastic from becoming brittle so quickly. It is where the plastic is stretched over the supports that it usually cracks. You put this paint on outside,

There has been considerable Bridge has been compared to innovation recently with regard life by various authors include to garden frames and cloches. Presumably because of the high who found that both games

resumably because of the high cost of materiels, glass, rigid plastic panels, wood and metal manufacturers, to keep prices down to an attractive level have too often produced small frames with metal or opaque plastic sides. These I do not like very much because I find plaints tend to draw towards the light too much. Solid-sided frames, whether of brick, timber or even concrete I am all in favour of, but I would prefer to have a frame not less than about 4ft 6in by about 4ft.

Indeed I am still very much attached to Dutch lights, which are 4ft 7½ in by 2ft 4½ in and can be fitted with a single sheet of glass or covered with plastic. There has also been a resurgence of interest in cloches and we have seen some weird and wonderful contraptions—some very complicated, others very simple. Tent, high and low barn choches, of wire and glass are still available. There are tunnel type cloches of semi-rigid PVC clear plastic and the cheap polythene tunnels with wire hoops and securing wires. These last are excellent for hastening the growth of peas and beans, lettuces and carrois, strawberries and other crops.

When considering the various in the same qualities—who found that both games demand the same qualities—who found that both games demand the same qualities—who found that both games clearheadedness, prudence as disrend speculation. A readiness to seize a cheatice is what make for success, and it is mystriying why the bridge with samely advertising new ways of ellumination; times to success, and it is mystriying why the bridge wathers are size at a chaince is what makes for success, and it is mystriying why the bridge wathers are size at a chaince is what make no the bridge attraction.

Twenty or more years, ago the French had the bridge attraction.

Twenty or, more years, ago the French had the bridge attraction.

Twenty or, more years, ago the French had the bridge attraction.

Twenty or, more years, ago the French had the bridge attraction.

Twenty or, more years, ago the French had worked for make up the bridge a growth of peas and beans, leatuces and carrots, straw-berries and other crops.

When cousidering the various types of clockes remember that you are almost certain to wish after South had elected to me to have access to the crop at various times, so ease of access which suggested to his amateur is important. Plastic cloches various times, so ease of access is important. Plastic cloches are light and liable to blow away unless anchored in some way.

If the anchoring is effected by pushing metal or wooden legs into the soil this may be all right when the soil is wet. But if you have to life cloches on and off strawberries at picking time and the soil is dry you may have difficulty in gening the legs back into the ground again. The long name! \$\forall 10942\$ type with thin plastic that is just slid up between two wire

noops to give access is excel-Roy Hay

obviously a highly desirable contest and I hereby announce that I am ready to receive offers

mme considering other materials, I would choose an situminium house without hesitation. One should perhaps add a proviso that if the house is to take the form of a conservatory or learn to structure adjoining some house of great called comes in various thicknesses, it is very light so that of considerable architectural beauty, a tesk or cedar or oak smucture may be infinitely preferable to a metal one.

It is often objected that aluminium greathouses are when houses are less objected that aluminium greathouses are another to be so and in an attempt to combine low maintaines with acsthetic acceptability. Alton Glasshouses Lid have now produced a green version of their aluminium great or the ground "Dutch Light" type of house. The ground "Dutch Light" type of house. The simulation are structured one until a mew one of the control of the With Webb and Bellin both losing dieir games, the advah-

master tournament at Tilburg, which cost about £25,000, was Dutch, and though Mestel won a spirited same speinst the international master Ree, the Dutch emersed victors of the day by 51—12.

So on the Sunday the English team started off the second round with the handicap of one

point. At first and for some

Chance can be a fine thing

North had been coached by his partner in the meaning of forcing bids and knew enough, to show his word in diamonds combined with strong support for Hearts. The expert East was determined not to be out-done by South and decided that done by South and decided that by suggesting a void in Clubs when he (actually held a singleton), he would deter South from saving a small slam in Spades by a bid of Seven Hearts. How mittaken he was I South was determined at any price to conceal his misleading jump bid on a trackless hand, and he received great help when West doubled his grand slam. Now all depended on the opening lead.

West was an impocent who

I learnt these financial de-

guilty of what used to known in the nursery as "showing off". The rot set in

or design I was never told. No score : dealer North : ♣543 ÖAQ42

score, receiving later a most handsome prize. The result bore out the truth of what Mangham had written—that if the expert East had merely raised his pariner without attempting to decisive his opponents West would have bid some tricks in addition to a long suit, though whether he made a jump had by accident Seven Spades instead of Double, with the chance of making the grand stam on North's lead. In the same way as the player who has been dealt a seven card major suit chooses

♣ Q87 ♥83 OAKQ87

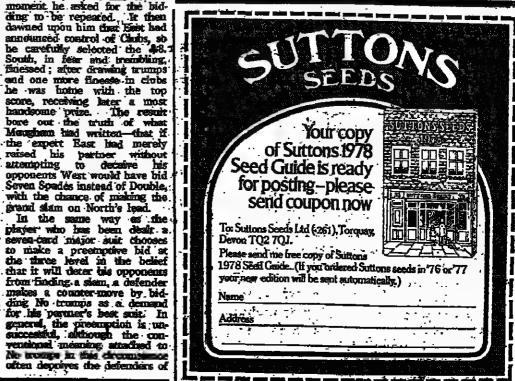

their most convenient contract. However, an opening Three Spades can be effective where appropriate who hold all, or amost all, the missing holour cards cannot decide whether to comment for a small or a grand stem, I came across example recently. No score : dealer West :

OAKQJ4 ₩ !E \$52 ₩ !E \$10962; Ô A:K J 0.5 4...

North South had arranged to play the Acol system where

Three No Trumps over en opening Three bid is employed as a demand for partner's best so it. With his singleton heart. North appreciated the unsuitability of this counter-bid and decided to show his exceptional strength by bidding Four Nothumps, which he hoped that his partner would interpret as a maintain to a commitment and a commitment of the counter-bid strength to a commitment as a maintain to a commitment as a commitment of the counter-bid strength to a commitment as a commitment of the counter-bid strength to a counter-bid strength t an invitation to a slam in one of the minors. South took his deaning, but assumed that North must hold at least two ace-kings with control of spades; he therefore bid Seven "Clubs with considerable confidence, only to find the &K' inissing from his partner's hand and ill-placed. This merely illustrates how accurately bridge can reflect situations in his when logic combined with dering are incufficient for with daring are insufficient for success unless they are infused with a measure of caution.

Edward Mayer

Collecting

Shopping at the museum

recently after many years of annual report showed gross saved the V & A for the last divisions at meanly \$14m and after more than an hour, with a surprisingly small profit. emerged, as if from Harrods, laden with packages of Christmas cards, books, and assorted goodies. Neither of us had actually set foot in any part of the museum except the large shop near the entrance hall where once new acquisi-

tions were shown. I had a momentary sense of guilt over the episode but had guilt over the episode but had forgotten it until, arriving home, I began to read my accumulared mail. Among the weight of unsolicited mallorder catalogues which have become a feature of life in America, one thick brochure was from the Metropolitan Museum of Art. Offering a range of items to put the V & A to shame, nearly everything needed to sustain life can be ordered with the exception of ordered with the exception of major appliances and food. The western bemisphere's greatest art museum is selling dinner services, glassware, pil-lows, clothing for men and women, jewelry, belts, ties and a wide variety of paper goods, picture books and cook-books.

For months I have been vaguely aware of advertise. ments in magazines and news-papers urging the message: "Do your shopping at the Met". Now the mail-order cara-Met". Now the man-croer cara-logue with its tempting display-has reawakened my sense of unease over the V & A episode and has opened a Pandora's Boxful of questions about the whole phenomenon of museum merchandising.

 $C_{il^{*}l_{il}}$

merchandising.

It might be appropriate to ask, first of all, whether such commercial activity by museums is sthical (or legal). However, a possible prior question: "Is it necessary?" would make such concerns each demic. Yet, necessary or not, one should went to know how such activity is visually educational—how it affects the museum's essential purpose.

To make season estimation.

To me, it seems self-evident. that massive commercial activity by a non-profit, tax-exempt institution is somehow suspect. Auctions, bazaurs or even gambling may sometimes be accep-table means of fund-raising for charity but they are essentially different in kind from the coninnon's oberation of a combetitive business, however noble the charitable cause it sup-purts. In fact, the United States has tax laws for nonprofit institutions concerning income derived from unrelated business activities. Of course,

When we are in London, my wife and I enjoy shopping at Harrods and looking at decorative art at the Victoria and Albert Museum. These two pastimes became a bit confused as a major retailer. The last recently after many years of

with a surprisingly small profit of about \$1m and \$1,500,000.
This phase of the museum's activity has, in fact, become so important that, over much opposition, the trustees have the ideal of the control of the contro decided to create a new posi-tion above that of the director, who has always been a distin-guished art world figure—a businessman-administrator with the title of president Both

the title of president. Both positions are now vacant and much speculation evolves about who will be asked and who will accept either one.

Of course, whether what the Mer is doing in its large scale retail operations is ethical or even fiegal in our free-market society will not be decided by critics and fournalists. The question has at least been asked and the tax men or even the courts may have ultimately, to decide. It certainly will be argued that no other course of survival is available today to this kind of cultural institution. Yet, it is a widely reported and well-known fact, that both corporate and government fin-

tion. Yet, it is a widely reported and well-known fact that both corporate and government financial support for museums in the United Scates is now available on an immente scale, supporting with generous subventions extended known of opening and the expenses of akinos every major exhibition which is shown these days.

One cannot help wondering whether the same intensity of energy now devoted to "tending the store" might not produce much more if devoted to developing some of these other sources of support. But perhaps it is not only being done for fivancial survival. The justification may also be educational value Reaching out to the public to attract it to the museum to promote art and good teste. The aim of improving taste by judicious models is an old one, very Victorian and moralistic, indeed, the "raison d'erre" for the V & A itself and, to a lesser extent also the Met. Do the & A itself and, to a lesser extent, also the Met. Do the caralogues and the shop carry the message of great art from the museum to the public? Here is an argument that needs careful attention. This is a tricky area, full of traps and felse signposts with code-words like "elitist" to mislead the

What actually happens in a museum? Remember the visit-my wife and I made to the V & A. Although we are both experienced museum visitors, we got no farther than the

shop, in spite of our good in-tentions. Does this happen often? Do we count in museum arrendance figures? What then do such figures mean? Ou that occasion, we certainly escaped the experience of a single work of original art.

In the case of the Met, these days the process of deflecting or even thwarting the experience of art can be severe. I am told by friends on the museum staff that bushoads of

school children, sobustan ladies and assorted other groups are daily disgorged on Fifth Avenue in front of the great stancase. Their behavieur pattern seems to be a fast 30 minutes in the exhibi-tion galleries and a happy two or three hours in the shops and restaurant .:.

Once inside the shops, what do they see? What is the quality of the experience? Most of the items are actual reproductions of small artifacts and decorative approach. reproductions of small arraces and decorative wares. A second category consists of adaptations, not reproductions; a silk scarf with a design adapted from a Chinese plate; a tie with its motif taken from Turkish potmotif taken from Turkish pottery; a canvas tote-bag with
Egyptian figures printed on its
side; a pillow shaped like a
mumany; a birthday calendar
book in which to inscribe one's
private reminders alongside
the birthdays of famous artists
(July 9—Orazio Gentileschi
and David Hockney).

Other objects for sale are
so-called original designs
made especially for the
museum by someone called.
Sandra Mayer; a snowlake pendant or "Christmas star"
earnings in 24cr gold electroplated on silver (\$22.50).

Several of the reproductions
of antiquities—a Chinese jade
horse and a medieval ivory
box, for example, are produced.

A page from the catalogue of the Metropolitan Museum of Art

of antiquities—a Chinese jade horse and a medieval ivory box, for example, are produced in 's material' identified as in 's material' identified as 'polymer' which looks 'and the famous Thomas who tells rather like soap. Some objects are cast in bronze which at least approximates which at least approximates the material of the original, merit either educational or servourse).

Of the clothes, and their merit either educational or servourse is giver (\$18:50 or \$250:00) for a silver (\$18:50 o

walter Hoving, father of to kook at and to own some of lists nearly five million dollars famous. Thomas who these objects which are maves (at cost) in "inventory" of the Met on this ties and perversions of orithe jonk I described above. to book at and to own some of these objects which are praverties and perversions of originals is shocking. But even if ginals is shocking not adap-the reproductions and adap-tations were of highest quality, museum be in should an art museum be in the business at all of deflecting our attention ewey from the genuine to the imitation?

On the matter of the museum's financial need, Rolland Redmond, its former Rosand Redmond, its former president and now trustee seneritus, in a letter to fellow trustees opposing the idea of a businessman-president, points out that the Met's swoten budgets come precisely from the cost of those new business ventures which are then in turn justified by the need for money, a catch-22 situation. The museum has borrowed large sums from its endowment to build a commercial parking garage, to build a still further enlarged multi-soried shop in the great entrance hall

The whole affair is now so Interview agrain in now so ladicrous, so inspired by Alice-in-Wooderkard logic that, while a few intelligent dissening voices have been raised in the press it is incredible that an avalanche of anger has not hit the trustees for their referritess affiors to bring mouse-orderness. efforts to bring trongychangers imp one of the few temples of civilization left on our shores.

In England, you are not im-more to such destructive phi-listing tactics in the name of popularism. Be after that great art collections have managers who really care about ert and when bringing ert to the people, let it be the real thing.

THE ARTS_

Factory Birds Warehouse

Irving Wardle

Here is a report from the industrial frontline by a new playwright who knows his business. With no key speeches and no departures from the shop floor,

a great explosion of pent-up rage. Like Arnold Wesker's The Küchen, the text does not look much on paper, but in the hands of Bill Alexander's company ir takes off like a rocket. "Nothing much here" remarks the works manager, hurrying through with a visitor. "a number of extremely simple operations." And don't the boys know it, clocking in every day to produce another consignment of hen-house cleaners. With no thopes of escape, they take it out on their prison, defying the rhythm of the machines with Cup. Final roars and brute Cup. Final roars and brute sexual invitation aimed at the row of secretaries enthroned at their typewriters; behind an invisible sheet of glass. Nobody draws the comparison, but the scene suggests a zoo, with a nervous foreman sticking his note in like a lionkeeper taking the boys to "crack on", and the girls supercitiously staring down through the bars of the cage. Periodically, the immates abandon their starved, violent Yorkshire dialect, and regress to shire dialect and regress to idiot repetition and bird

squawks.
There is good reason for the

four heavy lathes and work-benches of Mary Moore's set, as they give realist anchorage to an emphatically non-natural istic piece of writing. Mr Robson presents in the most concentrated form the group obsessions of the defeated working-class male, and the result is narrower, more passionate, and more ritualized than any actual light engineering factory would be likely to offer. Labour relations never enter Mr Rob-son's world at all, apart from management's manifest lack of James Robson translates the theme of daily frustration into contact with the workers. The play restricts itself to demonstrating the destructiveness of human energy when it is denied

a proper outlet.

Two characters are singled out from the group: Evie, the unspoiled pin-up of the typing pool; and Nazzer, the maritally embittered leader of the roaring boys. I rather regret the assault on Evie, as Mr Robson is clearly capable of making his point without introducing an unsolved melodrama. But Nazunsolved melodrama. But Nazzer is a fearsomely credible imbodiment of loud-mouthed despair, played by a red-eyed Roger Rees with wild physical inventiveness and maximum concentration on the derisive gutter wit of the character rather than direct aggression. The choreography of the show, as the boys leap like gibbons round the machines and compel the sirie to walk a phallic the girls to walk a phallic gauntlet on the way to the tea wagon, is quite a thing to watch; although nothing quite matches the last minute outpouring of bears language from the previously to income Wilson. the previously tacitum Hilton McRae

Odd Man Out

Be not sired of effeminacy. So not sured of effermacy. Some men are born efferminate, some achieve efferminacy, and some have efferminacy thrust upon them. And if you are lucky enough to ring all three bells, chances are you could and up with your own series, in which scriptwriters unprepared to put in a fair dury work for to put in a fair day's work for a fair day's pay, would offer you jokes about having effemin-acy thrust upon you. Your res-ponse would then be to dig deep into your reperioire of mince, pout and siggle and, so contour your innocent face as to bring shricks of laughter from the

Inman cannot but fill the simple soul with gloom. One could forgive him for stealing Are You Being Served?, since the major

explanation for his part in dragging situation comedy to such an appalling new low? True, the show is nothing but a vehicle for Mr Inman, and he and I both know that that vehicle is a bandwagen, which has to be grabbed, but surely he could have held out for a better bandwagen?

His star is, after all, on what His star is, after all, on what his scriptwriter would doubtless call the rise, and he can therefore bergain from a position of strength. Does Mr Inman not want to deliver better lines than "I've decided to scrub my unptials", and "What about my emoluments, they're not big enough", and "He might want to see your assets", which are not only all the same grisly gag, but also the same as every other grisly gag ground out on other grisly gag ground out on

Merety being gay may have done for a cheep laugh in his hist series, but should he not not build upon that single characteristic, pop another-dimension or two on to its

Whatever you've got to sell, be it Victorian bric-a-brac or a Pirelli calendar advertise 'Wanted' columns by ringing

The Aga Khan: from Curzon to Hitler, a man always at the centre of history

My father, the late Aga Khan, was born 100 years ago on November 2. Though he died in 1957 at the turn of what Winston Churchill as in Darwin's theory of the aprly termed "this tor- origin of the species which mented half-century", few swept across Europe in his today can separate reality from myth when looking back on his long and active life.

To many in the West he remains the religious leader who was weighed against precious stones, the race-horse owner who won five Derbys or the man whose eldest son. Aly Khan, once married Rita

For those who are more familiar with the East he was gious leader or forty-eighth Imam of some 12 million Ismaili Shia Muslims who are to be found from the Great Wall of China to the southern tip of Africa, a direct descendant of Prophet Mohammed and a true believer in the precepts

older generations may recall the Aga Khan as a statesman who was received by Queen Victoria in 1898, became the youngest member of Lord Curyoungest memoer of Loro Cur-zon's Indian Legislative Coun-cil in 1902, presided the Mus-lim League from 1906 until 1912 and led the Muslim deputation to the Round Table Con-ference in 1930 which paved the way for the independence

to avert war.

of these things and many more. It remains challenging but essential for the sou of any great father the do sway ret service sought to assautiably attached by history to the public figures of our time the public figures of our time the public figures of our time and he never chose to have any form and to attempt an impartial assessment. This I hope to do

in a book some day.

My father was first and foremost a deeply religious man who had no difficulty in integrating an active political and social life and everything it entailed in terms of formality and obligations in the post-Victorian era, with the close communion with God which is the support the Munich settlement and said so in a much cristian of the support the Munich settlement. aspiration of every practising

The older staff at the Ritz in The older staff at the Ritz in London or the Swiss strolling in front of the Hotel de Russie in Geneva in the thirties, might receil the Aga Khan facing Mecca at prayer time on one of the balconies, completely oblivious to the stares of surprised bystanders. My father abhorred injustice and fought actively for both human and civil rights at 3 fashionable pursuit. He resigned from the exclusive St Cloud golf club near Paris when some members objected to Sugar Ray Robiason—the black boxer—playing on the black boxer—playing on the black boxer—playing on the black boxer—based on edgy, he rebusfed the pompous headwater of the Hotel Splendide who refused to seat a large group of Senegalese students and promptly invited them to a three-star bruch. He was deeply shocked by

crimination practised by whites in America, India and China. During his visit to China in 1906, he remarked: "Within the foreign settlements the general attitude towards the Chinese was little short of out-rageous. All the benter borels respons. All the bester hotels refused them anny. From European clubs they were totally excluded. We hear a great deal about the colour bar in South "Africa today. In China, in the early years of this century, the colour bar was rigidly hoposed—not least offensively in discrimination egainst officials of the very government whose guests.

poverument whose guests, under international law, all Chinese - intelligentsis: long retained -bitter memories of intelligentsia louz

tened, was equally despised; my father's comments on the Qujor Shah Musafaraddin—to whom he was closely related are indicative in this respect:
He exhibited in an especially
huid liebt, all the dangers of
the old-fashioned autocratic oriental monarchy. However in-connectent, elliv, or criminal such a despot was, not one of the sole and intelligent statesmen of the world around him ever stood up to him and told him the track about himself. The mysterious prestige surrounding kingship and the blood of kings believed to blood of kings to himself to blood. blood of kings induced & kind of mental paralysis even in so that they were quite unable—in the litterests of their king and

makeshift, haphazard policies men and women, the latter of the years since the end of among the first to shed the the conflict and particularly veil, are well equipped in this respect. limaili have provided a network of social, economic and cultural economic and cultura While working for independ, amerities which are mri-ice, he was concerned about valled in many developing countries. These were made possible to a great extent by the wise administration of

> The community took up the and attention. This was—as he put it—his job. Thousands of Ismailis were received every year and those who did not meet their Imam individually were in contact with him when he visited their countries. Re was highly accessible and sel-dom left a letter unanswared. And yet he found time for journeys to centres of art and culture and I recall the importculture and I recall the importance he attached to my visiting the great inuscums of Europe. He owned no collections of his own; cared little about the decor of his residences and spent a great deal of time in hotels—but loved the opera and the ballet. Serge Lifat, the great Russian dancet, will never forget the time when up father gave him a considerable contribution in cash—wrapped in newspaper—to get his company out of financial dolutings.
>
> If greatness there was dan-

If greatness there was dur-ing his long and ective life, then it rested on an oddly belenced mixture of Islanic faith and philosophy and West-ern logic and science born out ern logic and science form our of the industrial revolution; it allowed for reform and vision in both thought and action and in retrospect, would seem to disclaim kiplings famous prinomicement, as my father was truly the product of a meeting between East and West

West.

A centenary is a time to pause, look back and establish a link between the prologue of the past and the realities of

My father undoubtedly left a deep and meaningful imprint on the Ismaili community and the Muslim world. In addition, he contributed in no small way

But for me, his message rechains that of a tolerant and loving father, always, at peace with himself, perticularly in sickness and when life ebbed success and when his coord-words, there has experienced moments of enlightenment and of knowledge of a kind which we cannot communicate because it is something given and not something acquired ".

George Hutchinson

The miners may save Mr Callaghan if they do not sink him

has not yet appeared before our eyes, chalked up in huge letters or more probably spray-painted in the modern manner, the thought is already present in many minds. It is an uncom-fortable one. Must the impres-sion—or the belief or the fear-become a reality

This is certainly Mr Scargill's hope and intention if we are to define his bold ambition a determination to impose the will of the NUM on Government. Lacking titular supremacy, Arthur Scargill is nevertheless the most influential and intelligent of the union's leaders. He has become a formidable political figure. If Mr Callaghan were to suc-

cumb to the demand, miners would indeed ruled—and ruling then would no doubt continue to rule as opportunity offered. But Mr Callaghan cannot afford to surrender. Nor can the nation afford to let him surrender. If he gives way, we all give way not only to the appalling rise in the cost of living that would follow but to a further diminution of public authority. These are painful prospects to contemplate.

What can the Prime Minister

do? He has little choice. Mr Callaghan's only immediate course is to encourage negotia-tions with as much patience tions with as much patience and care as he can summon up, hoping that the NUM may be persuaded to reconsider, ravise and moderate a claim which the Government could not concede in its existing magnitude or dimensions. Having the statement of the difficulty than the concede in the existing magnitude or dimensions. Having the statement of the difficulty than the concede that the concede is the difficulty than the concede that the concede the concede that the concede the concede that the concede t ing said that, it is difficult to envisage any modification calto satisfy the miners destroying the pay

> Fresh force the debate

so high that even cut it would still gravely permitted " limits a pirchied phrase which at once returns us to a familiar debate. I mean the debate in which one side maintains that an incomes policy without statutory force policy without statutory force is useless because the "voluntary" principle is unfair and ineffectual in application, and exhoration is no substitute for law. If the debate has lately become rather subdued, it can now be expected to take on a new lease under the provocation of the miners' action. Meanwhile we are reminded of the selfanne period in 1973, which led up to the ill-judged and ill-fated election of

Arthur Scargill: a victory for which party?

February 1974. The events of that dismol time come readily to nund, and were in some respects similar. But there are Important differences.

For one thing, the Heady Government was fairly widely mistrusted within the trade were accused of being "anti-union", and of wishing to "tame" the miners. The charge may have been unjust and mistaken, but it strongly affected national sentiment.

there was much public sym-pathy with the miners and support for their claims. The same cannot be said friday. they were to persist, and ultimately to strike they would surely forfeit what little good-will remained to them outside the coulfields.

Nor do I believe that Callaghan would be inviting certain defeat if, in the event of a strike, he felt obliged to put the issue to the test of a gener. election. In those conditions there are meny who who'd think it "safer" — or less — to return a Labour chancy Government than to entrust a settlement to the Tories. The reasoning might be at fault, but it would influence the vote.

The dangers are not peculi it to one party. Both are at risk. The Tories would be reckless to assume that electoral fortune was bound to follow from national misfortune.

Not long ago, Mr Scorgill was predicting a Tory victory at the next election. In the absence of industrial upherval and disloca-tion on the scale to which his own actions may lead, the prophecy would no doubt be happen he might well be proved wrong. He might yet succeed in rescuing Mr Callaghan and robbing Mrs Thatcher.

This attachment to the bizarre in Judith Rossner

Judith Rossner's immensely separated, surely carries this successful less novel, Looking theme to absurdity, yet it does not intrude in a book which is young toacher who spent her nights in New York singles as Goodbar was. burs, and was murdered.

Attachments, our this week, is about two close friends who marry Siamese twins, joined by the abdomen. This concern with the bizarre and the horrifile denotes neither a love of sensation nor a greediness for making money, Judith Rossner insists. It is simply that novels have always dealt with the extremes of life, and as life becomes more bizarre and horrific, so fiction keeps a pace

And yet it is not easy for a reader to move beyond the material. The fact is, and she is the first to agree, having thought a great deal about the implications of using it, that Goodbar was so successful because sexual violence is powerful. And Attachments has made its way into the American best seller lists (in less than two months) at least partly because such an immediately repellent subject is also attractive, particularly when the author is as unsqueamish about the physical details of life as Judith Rossner.

To read the book at all one has to stop wondering why she chose to write about, in her words, "freaks" and pass beyond them to what it is about—the theme of separation and attachment in relation of responsibility for ships. The symbolism in the use of twins joined physically to each other, and later surgically responsibility.

dealy lovely. Pay for a pur-

almost as funny and touching as Goodbar was. Judith Rossner is 42, an unmannered and slightly self-mocking woman with frizzy hair and a long face which she tilts upward. She writes novels because she is, she says, too wordy for short stories, and that precisely what she likes doing is making mountains out of molehills.

of molentils.

She dropped out of New York City College when she was 19, since she was already writing and working, and something had to go. She tried publishing, but gave it up when she found she was using the same already that want into the same energy that went into her writing. She became a secretary instead, a job she has returned to ever since when she has needed the money. After 17 years of marriage she left her husband and

she left her husband and planned to support herself for a while by writing a piece for a women's issue of Esquire about a teacher of deaf and dumb children, whose murder in New York revealed a mud-dled and lonely double life. The man who had murdered her was awaiting trial, so the project became firtion and turned into Mr Goodbar, crys-tallized by a car accident in which she fell asleep at the wheel and was badly burnt.
"I started thinking about the

An occasional series on new words and new meanings.

Everything not just in the garden, but also in the pub, the shop, the bus, the street, and all the other meeting-places and talking-shops of life, is suddenly lovely. Pay for a pur-

coming to tune in

Local radio: a better chance

eventuel.

The eventual Arman response may have seemed as something of a plague on both houses, recommending the creamon of two new authorities, one to administer the fourth television channel, the other to run, local radio. The next political move is not expensed until Jenuary evil the odds are now shortening on a

decision to do mothing for the time being about the fourth channel and to sidestep Annan's proposed Local Broad-casuing Ausbority. The growing bleekhood of a shumbs down to the LBA-

thumbs down to the LRA-designed to take over the organization of all local broadorganization of all local broad-casting throughout the United Kingdom—will edd an exre-significance to the celebrations in Leicester on Monday to mark next week's reach anni-versary of BBC Radio Leices-ber, the first of the post-war-generation of local radio stanious. In a sense, what hap-peared a decade ago in Leices-ter (accompanied by the mod-ern tribute of a bomb scare), marked the completion of the merked the completion of the broadcasting full circle. Forty-Sive years before, there

had been other lucal RBC stitions, the best-known emong them 2LO in London, with SIT in Birmingham and 2ZY in

Manchester.

By now, therefore, local radio ought to be available to ratually every defenable community in the country. Instead of laying bets on whether the next stations will be in Truro or Coventry, the broadcasters should be preparing, for example, to open up a range of urban community stations.

Local radio bught in be built in to new towns along with the in to new towns along with the power and water supplies; areas of Londop like Lewisham First World War if and Brixton could be provided by next year's bar and Brixton could be provided by next year's bar and Brixton could be provided by next year's bar and Brixton could be provided by next year's bar and Brixton could be provided by next year's bar and Brixton could be provided by next year's bar occupancy with the Government compromise and ideal setting for make ITVs Hard Times a more be met by personance for such thicas, and the closest the contemporate offering from BBC. It would the provided by next year's bar occupancy with the Government compromise and visible cost-contemporate offering from BBC. It would the be met by personance for such thicas, and such that the closest the followed by next year's bar occupancy with the Government compromise and visible cost-contemporate offering from BBC. It would the be met by personance for such thicas, and services for immigrant communities should by now be high on the priority list.

Before that happens there are geographical gaps to be made for broadcasting debut filled in the local radio map. BBC Radio Oxford three are geographical gaps to be made for broadcasting debut filled in the local radio map. BBC Radio Oxford three are geographical gaps to be made for broadcasting debut filled in the local radio map. BBC Radio Oxford three are geographical gaps to be made for broadcasting debut filled in the local life to make ITVs Hard Times a more to writing an ideal setting for make ITVs Hard Times a more to compromise and visible cost-contemporate for make ITVs Hard Times a more to compromise of times a more to provide for make ITVs Hard Times a more to compromise of the licence fee, would make ITVs Hard Times a more to compromise of times and visible cost-contemporate for make ITVs Hard Times a more to compromise of the local life to compromise of the local life to compromise of times and visible cost-contemporate for make ITVs Hard Times a more to compromise of the local life to compromise of the local life to compromise of the local life to compromis

When Lord Abben and his only a small step forward, it team of broadcasting futurolo- will be familiar stuff for the gists were at work, they were accessed by a number of They have been the victims people who complained that of consecutive political deciding the way in which the BBC and three stations, places like Shaft radio is challenging and, in fined with two, yet Bristol only a smear, out-distancing the fined between Montanages and three stations, places like Shef-field with two, yet Bristol only | one. While there is a local radio station in Cardiale there is none in Cardiff.

While it is possible to hear radio Derby in Birmingham, it is not always possible to rune in to Radio Birmingham inside its own city limits. Not surprisingly, Annan's pronouncement on this untidy scene—"local radio is in a mess"—recaived general support.
Lord Amen gave both organizations a drukt specification of his own in this year, Fleming lecture: "If ever

there are centres which need local radio, they are Ullapool, Obari and Dolgellau." There were as yet, no signs of a rash in those perticular directions.

The those perticular directions.

What has happened, in the face of the Angan Committeels proposed LBA, is that both BBC and IBA. (which entered the local radio scene in 1973), have drafted development plans sinued at expanding the existing 39-strong group of stations into a nationwide network-of 100.

In the meantime, while the In the meantime, while the broadcasters wait for action,

there is not only a mounting audience for local radio, but a growing eithusiasm across the United Kingdom for the whola idea of community broadcasting. The appearance of a BBC executive in Northampton a sice weeks ago was enough to persuade the local evening paper to make the occasion, and the possibility of BBC Radio Northampton, its front page story.
There are, however, areas of

There are, however, areas of anxiety amidst the broad-casters, enthusiasm as the Home Secretary, Mr Merlyn Rees, decides what to do next.— The well-publicized financial difficulties of the BBC have to be considered at a moment when the possibility of an interval pre-strately to of an internal pay struggle, to be followed by next year's bar-gaining with the Government over the licence fee, would make ITVs Hard Times a more appropriate offering from BBC

national networks for the share of the sudience. And he has more than enough evidence to convince him that local radio is proving an effec-tive means, as Annan put it, of "combating loneliness, isola-tion and the fragmentation of communities."

From Belfast to Brighton it

viding genuine service to the community and it is this unique strength, whether in reflecting life as it is, in mobireflecting life as it is, in mobilizing volunteers to help the sick and elderly, teaching pensioners to read, finding jobs for the young, let alone monitoring burst water mains, which will ensure that there will be more stations on the air har 1920.

by 1980.
With that date in view, it seems likely that the decision to be taken in the first few weeks of 1978 will be to persist of turber where of arrangements. mit a further phase of expan-sion through an additional 10 stations or so. The Home Office and the two broadcastounce and the two broadcast-ing organizations may get together to decide who will go where. Given the commercial operators' freedom from licence fees and the current surge in audience and advertising revenue an increasing number of stations now have monthly advertising receipts in six figures, the stage could be set for an additional half-dozen independent stations to bring

the IBA tally up to 25. Where would that leave the BBC? Still very much in the local radio arena, and with vigorous redevelopment plans either in mind or in being for Scotland, Northern Ireland and Wales.

Wales.
Since the corporation is involved already in small-scale operations in Orkney and Shetland, nominally enabling it to field a 22-strong local line-up, both the British enthusiasm for compromise and the need for wight a perfect might visible cost-consciousness might be met by permitting an addi-tional three BBC stations. lt would then very nearly, be 25-all between Montagues

would not have occurred if there had been no cuts. Even today, sake of one's immediate and narrow interests, should be recognized as repugnant.

These risks with the welfare taken because of three fringe benefits claims. Wage bargaining in the industry is highly centralized, and the unions in-volved had been slow to take up the grievances until the go-slow attracted their attention. One demand travel allowances for those whose journeys to work have been increased by the building of new power stations away from tower has now been conceded. It had some justice (similar allowances are not uncommon in private industry), though not enough to justify the breach of the twelve-month rule. The other demands are more contentious and could not be

The men are opposed by their employers, their unions, and by the TUC; as represented by Mr Len Murray yesterday. Their unions have much to answer for, having failed either to give effective, representation or to impose effective disciplines on members abandoning the proper

proper might nor necessarily be those best calculated to bring about a resumption of supplies. Even if workers are in breach of their contracts, dismissal might only gain them sympathy. The decision not to pay them is abundantly justified.

This is a case—a conspictious case, but not regrettably an isolated one—of a group of workers inflicting on the public at large hardship, inconvenience, even danger wholly disproportionate to the magnitude of the grievance they are seeking to remedy. There is sometimes a frightening moral blindness about collective behaviour in pursuance of a dispute about terms and conditions of employ-ment, an irrational loss of any sense of proportion, and a disavowal of responsibility for damage done to fellow citizens at random, damage which is directly attributable to that col-

ective action.

The public, and therefore the public's representatives, are vul-nerable, to these assaults. But they cannot be accepted just as a feature of modern life, unless there is also to be accepted a chronic loss of amenity and security in the organization of society. By the mobilization of opinion and a readiness to withstand temporary dislocation these assaults have to be resisted -starting now.

lective action.

One homeland executive, Chief Buthelezi of Kwa-Zulu, has refused to fall in line. The others may regret their betrayal when black consciousness and black political leadership revive, as they will. It was Chief Matanzima's acceptance of Pretoria's condition for independence, that all Xhosas were Transkei nationals whether they wished to be so or had ever lived there, that wrecked whatever claim he could have made for international recognition. ·

any government to require its citizens to carry identity cards, and it may be right to control the entry of jobless and unsuitbantustans which the blacks area. But whatever the law, it massively oppose, and which the must apply to everyone, white or world stigmatizes as South black. But other opportunists soon appreciated Andorra's advantages. The capital's main and almost only-street began to be transformed as a Hongkong style duty-free market place. The modern world's quick-growing fungus of fringe banks and the like invaded the "ruritanian charm" of the travel writers. Not only did the tourists pour in, Andorra became a tax-haven for the retired, so much so that of its 28,000 estimated population less than a third are now Catalan-speaking natives of the region. And now that Spain is firmly democratic what hope is there for Andorra? One can imagine the guides in a year or two rattling off their piece to the visiting tourists on Andorra's feudal past. Smuggling might even have to be made a crime.

lines: "Tussle between joint rulers", "Hopes of Compromise in Andorra" and before long, ominously, "Andorrans come to which it had been effected. To change a suffrage that had Religious education From Mr Nicolas Walter

Sir, The current complaint made by many Christians involved in the present legally imposed system of religious worship and instruction in schools, that many children prefer non-Christian to Christian forms of unreason, would be funny if it were not so sad. If you teach children to have faith in and to suspend doubt about one irrational belief, how can you complain if they decide to have faith in and to suspend doubt about other irrational beliefs? The point is not what is believed but how it is believed.

Those of us who reject all forms of unreason can only comment that the pseudo-scientific superstitions mentioned by the Church of England survey (October 13) are no more irrational than religious superstitions, that the "fancy religious" mentioned by Frank West (November 1) are no more fanciful than orthodox religions, that the "wilder process of the supernatural, daemonology, human sacrifice" mentioned by Ivor Powell (November 4) are no rilder than many aspects of Judaeo-Christian religion, and that the science fiction religion" mentioned by Martin Rogers (November 4) is no more implausible than scriptural religion.

As long as the religious and political and educational authorities in it on maintaining a system which teaches young children traditional religion without the rational and

critical approach given to every other subject, older children will continue to have irrational and uncritical attitudes to all kinds of superstition. The obvious solution is to replace the present system of instruction in religion with a new system of education about both religious and non-religious systems of belief and behaviour, so that young people will be able to make up their minds about basic questions in the light of the facts and by the use of their reason.

NICOLAS WALTER. Rationalist Press Association, 88 Islington High Street, N1. November 4.

The British in Cyprus From Mr Roger M. Wilde

Sir, Hundreds of British citizens living in Cyprus were affected by the Turkish invasion of the island in 1974. The majority of these people are represented by The United Kingdom Citizens Association which is continually pressing which is continually pressing tion, which is continually pressing the claims for compensation which have been lodged by these people. The Association has the full recognition of both the Cyprus Governnition of both the Cyprus Government and her Majesty's Government.
On Sonday, October 23, Sir
Michael Pulliser, the Permanent
Under Secretary at the Foreign
Office, visited Cyprus for official
talks, but unformately the UKCA
was advised early on the Sunday
morning that Sir Michael would

not have time to meet its representatives as he was only on the island for one day, and would therefore have to concentrate his time on his political contacts. Barlier in the year Dr David Owen risited the island for 24 hours, dur-ing which time UKCA representa-tives, rogether with about 12 other people, were invited to meet him at a huncheon party which he was able to attend for only 10 minutes. Such brief contacts can only serve to confuse the mind of the visitor, however brilliant he may be.

It would seem strange that HMG can go to the expense of sending top diplomets to visit the island and yet restrict their stay to one day's duration. Surely, in such cases, diplomats should have discussions not only with the island's poli-tical figures but also with the British community and British citizens actually affected; even if it is necessary to extend their visits, thus enabling them to obtain a clearer view of the feelings of the residents.

Presumably, any negotiations will affect members of all communities, would it not, therefore, be in order that factors affecting the British commits should also be taken into consideration? consideration? Yours faithfully,

ROGER M. WILDE. Island Chearman, United Kingdom Citizens Association, PO Box 1881, Nicosia. October 23.

LETTERS TO THE EDITOR

Pay increase demands and industrial unrest

Sir, Lord Wilfred Brown (Novem-Sir, Lord Wiffred Brown (November 2) is neive in suggesting that wage differentials should be determined by agreement between union representatives. In the first place agreement, in the absence of accepted trineria, would never be forthcoming; in the second place, any sucil arrangement would be an abuse of the union's traditional role which is to protect the interests of its own membership and nor to derive how the national income its own membership and nor to decide how the national income should be allocated; and, finally, the question of wage differentials is a matter affecting the national interest and not merely the interest of employees (police pay relative to miners' pay, for instance, is not properly a matter to be determined by the TUC, nor even by policemen and miners).

and miners).

If we nevertheless accept, as we surely must, that the labour market has ceased to function as an effective means of determining the dis-tribution of national income, then we are faced with the following alterna-tive: either we reconstitute the market mechanism through a novel form of industrial structure such as producer cooperatives (a solution so ably advocated by your former Economics Editor, Peter Jay) or else we must adopt a system of national job evaluation which will have to be operated at the political level. What we cannot do is persevere with the present system of free collective bargaining which is threatening the social cohesion of this country and the very frame-work of democracy. tive means of determining the diswork of democracy. Yours faithfully,

R. S. DALE, The Old House, E.baco. Near Centerbury.

proposals

From Sir Capil Kleimoort:
Sir, The ethics behind the recent strikes do not bear examination.
How can one justify the intense discounier; and danger to which the people of this country are being subjected by a tiny few who seek

Agreed housing policies

From Councillor A. P. Wigram

Sir, Further to your recent leading stricte and the letter on "Agreed housing policies" on October 28, I would like to emphasize how very

important this could be in central

London and to make some coucrete

proposals.

In Westminster there are several thousand dwellings in urgent used of rehabiliration and modernization and many more in a steadily deteriorating condition. From an administrative point of view these crease an impossibly difficult task for a single central authority because each house, has different structural problems and a multinude of different tenancies. With the best will in the world—and this exists—we do not have the staff or the money to deal with these kinds of problems.

This is a natural field of endeavour for the small kindlord and the small correspondent but at the moment there is little or no incen-

financial reward beyond the Govern-ment's guidelines? Machinery has raised the standard of living in a modern state enormously, but this change has also given a great number of small groups of operators the power to hold the country to ransom. Human nature being what it is, this power will continue to be abused mutil collapse of the economy brings in a communist or another form of dictatorship.

The alternative is that economic The alternative is that economic laws are allowed to exert pressure on the striker and not only on the employer. North Sea oil arrived just in time to subsidize a standard of living which we no longer earn. We have little time to face the truth and take action.

CYRIL H. KLEINWORT.

20 Fenchurch Street, EC3.

From Brigadier P. E. Hutchins
Sir, Taken to its logical conclusion,
pursuance of the right of all workers
to withhold their labour will result
in the removal of that freedom altogether. Survival of the human race
in an automated environment must depend upon the continuous provi-sion of essential services—to which end governments will be forced to enect authoritarian measures now regarded as nothinkable. Unforturegarded as morningsone. Constitution of either hose will shrink from this and will thus be replaced to accessive by autocracies. These

from this and will thus be replaced of necessity by autocracies. These will also be of either hus, and both equally abharrent.

The simple answer is acceptance of the truth that since lo a demogracy every man or woman is free to choose what his work shall be, it means no loss of freedom to remove the right to strike from workers in those incustries; and undertakings upon the constant functioning of which we must all depend. which we must all depend. ... Yours faithfully, ... P. E. HUTCHINS. 76 Shoe Lane, EC4.

From Mr John Barker Sir, With the present electricity supply cuts beralding the winter

the confiscatory 98 per cent.

The above proposals might be open to minor abuses and possibly some sort of ceiling would be desirable in each case but such misuse and possibly some sort of ceiling would be desirable in each case but such misuse

ought to be considered negligible when compared with the possible

when compared with the possible contribution that private landlords could make towards improving the bousing st.ck over the next ten years if treated fairly.

Yours faithfully,

ANTHONY WIGRAM,
Westminster City Hall,
Victoria Street, SW1.

From Sir Eugene Melville Sir, The Director of the London

Housing Aid: Centre (letter, October 31), is, I think, unconvincingly hersi on your editorial of October 24. "Towards Agreed Housing Policies", particularly when he asserts that you offer "the tirad old spectre of a revived private ratted merket—a chimera which is now widely recognized to he letter.

Surely a significant reason for the increase in equatting, howeless-

ness and the unacceptably high numbers of until houses is the con-

tinuing political vendetta against private landlords.

private landlords.

The Government's recent document on the review of the Rent Acts acknowledges the need for a private rented sector. It is as ridiculous for the Housing Aid Centre to assert that the private landlord has no part to play in meeting the nation's housing needs as it would be for the private landlord to assert that council housing has no part to play.

part to play.

If there could be an agreed bipartisan policy towards the role of
the private rented sector this would

be a first step for a saner approach
to tackling our housing problem.
Yours faithfully,
EUGENE MELVILLE,

Director General, British Property Federation,

The area is now part of the new town of Redditch. This does not necessarily involve the disappear-

ance of an ancient settlement name

ance of an ancient settlement name—witness the place from which I write and scores of others which survive as suburbs—but in this instance someone decided that the name Ipsley should disappear from—the 1967 edition of sheet 131 of the 1 inch map. The loss to the history of the area is considerable. One of the area is considerable. One of the area is considerable.

35 Catherine Place, SWL

months add following so shortly behind the non-delivery of bread, can your readers explain the defects of national character that permit us to be so greedy and selfish towards each other, or are these difficulties the birth pangs to be experienced on the road to true socialism?

Yours faithfully. OHN BARKER, Butterfield Lanc, St Albans. Rertfordshire.

From Dr I. R. Nash

Sir, I doubt whether the power station workers responsible for the present power crisis appreciate the consequences of their action. During a seven-hour evening shift in the local casualty department two elderly ladies were seen as a result of a fall at home, due to prove lighting. One sustained a broken wrist and the other a broken andle.

Yet again we have a group of the conternatives charging no concern for

workers showing no concern the weaker members of the unalty. These injuries are likely to cause pain and misery long after the industrial action is over. Yours faithfully, I. R. NASH. 120 Wintersdale Road,

Leicester.

From Mrs C. M. Delahunty From Mrs C. M. Delahunty
Sir. Good luck to the miners in
abbir-ckeim for £135 per week. I
myself have just had a rise; my
con-contributory inv-lidity pension
has been increased from £3.05 per
week to £3.10 per week. I'm over
the moon!
Your faithfully,

CHRISTINE M. DELAHUNTY, P.S. Please note that the postage stemp for this letter has taken care of my rise for the next formight. Livil our the remaining 10 towards the Miners' Benevolent Fund. Wondingdeen Ward, St Francis Hospical, Haywards Heath,

of 30 per cent, and not as income where the possible maximum rate Silencing burgler alarms

From Mr J. R. Pritchard . Sir, Listening regularly, as I do, to people who have suffered sleapless nights because of nearby ringing burgior alarm balls, I sympathize with Mr E. M. Nicholson in his letter of November 2.

Mr. Nicholson calls for additional legislation to combat nuisance from ringing alerm bells, but adequate statute already exists, A local authorfty under Section 58 Control of Pollution Act, 1974, can serve notice upon the owner of an offending bell to cease causing nuisance and in so doing it can prescribe ways in which this should be done.

The London Borough of Islington is using the Act with success to deal with nuisance from ringing slarm bells. Notices require, with alterna-tives, the installation of a cut-out device in an intruder alarm system now widely recognized to be econ-omically unrealistic in place of positive suggestions for tackling Britain's continuing housing problems. to automatically turn off the alarm bell within twenty minutes of it beginning to ring. A bell ringing for longer than twenty minutes will contravene the notice.

Contravention of a notice could bring a maximum fine of £200 on a First offence and a minimum fine of £400, with £50 a day penalty on second and subsequent offences. Yours faithfully. J.R. PRITCHARD.

Principal Environmental Realth Officer, London Borough of Telington, 159-167 Upper Street, N1. November 3.

Ordination of women From Miss Christian Howard

From Miss Christian Howard
Sir, The letters of Professor Lampe
(October 26) and the Bishop of
Truro (October 29) both raise
the question of the authority
of General Synod. Constitutionally,
there is no doubt that Synod
can (subject to many procedural
safeguards) authorize the Ordination
of Women in the Church of
England, and could, even without
doing this, amend Canons and legislation to allow women, validly
ordained elsewhere in the Anglican
Communion, to officiate as priests Communion, to officiate as priests in the Church of England. It is less clear what is, the authority of Synod when it declares its mind on a theological issue. Perhaps rather less than that which Professor Lampe claims but a good deal more than the Bishop of Truro would suggest. The Bishops, guardians of doctrine, did vote for the principle by 28 to 10 but clearly it is not binding in conscience on other Anglicans: it is rather a first (essential) step if action is to

follow. How a church decides what truth and which questions it decides are of the essence of truth is a far more difficult matter. What "common body" is needed for a decision? Who calls it together and who comes? Do Anglicans think that only churches with bishops in the historic succession are com-petent to take part (in which case, what of the Church of Sweden and those Anglican provinces which already have women priests) or are all churches in the mainstream tradition (most of whom now have women priests/ministers in their worldwide families) to be invited?

Archbishop Scott, Primate of the Anglican Church of Canada, has written: "I wonder . . . given the realities of today's world, if waiting for a universal consensus does not mean ruling out any action. In the early Church many things were tried in one area and then either approved or rejected for Catholic use. Perhaps today, we need again to consider this as a valid way of acting . . . If we are prepared to act but also to recognize that our action must be tested by experience and if we are prepared to have other churches help us to evaluate the results of the action then we may, in fact, be making a contribution to wider ecumenical relation-

Yours sincerely, CHRISTIAN HOWARD, Coneysthorpe, November 1.

Visit to Britain of Vaclav Kral

From Professor F. L. Carsten, FBA and Professor G. H. N. Seton-Watson, FBA

Sir, The case of Kral, discussed by Bernard Levin in today's paper (November 2) raises the whole issue of cultural cooperation between Western and Soviet-block countries. The British Academy has made numerous agreements for exchange of scholars, believing that this is possible, regardless of differences of political system; and that contacts because who cultitacts between academics, who culti-vate their own fields of learning and keep their political prejudices out of them, is in itself a desirable aim. This, we are convinced, is the view held not only by us but by most British scholars. The system of exchanges has

worked well, and relations of mutual confidence and even friendship have been established.
And now we have the case of Kral. Our own information about this man agrees entirely with Bernard Levin's account. We feel Bernard Levin's account. We feel obliged to ask through your columns the following questions.

How can the Czechoslovak Academy have brought itself to nominate such a person for an academic exchange? What sort of relations does the Czechoslovak Academy think it can have with the British Academy, or with British scholars? Does it believe that it is the duty of British scholars, in the name of détents, to submit to attacks on their professional ethos? Yours faithfully,

Yours faithfully, F. L. CARSTEN H. N. SETON-WATSON.

F. L. CANSETON-WALE G. H. N. SETON-WALE 8 Burghley Road, SW19.

Violence in politics

From Lord Carr of Hadlen
Str., It is not "fun", writes Mr
Tariq Ali, to see the hemes of
socialists attacked with fire bombs.
Nor is it "fun", let me assure
him for non-socialists to have their him for non-socialists to have their homes blown up by explosive bombs—even if the bombs ore made and planted by people who would be labelled as true socialists by such as Mr Tariq Ali and his confrères. I can indeed see why they object to being described by Mr Bernard Levin as mere "fuo-revolution-wise".

If the Far Left would clearly and consistently denounce and renounce the use of violence making other people, their protestations of human compassion on so many issues might ring more true. Yours faithfully, ROBERT CARR,

Morality of guerrillas From the Reverend Giles Hunt

Sir, The first thing I read in today's Times (November 1) was your account of the misery of Cambodia. Sick at heart, I turned (escapism?) to the letters and the first I saw was the Revd Richard Harries' measured defence of guerrilla warfare on When will my brother-clergy, and indeed ky Synod members, realize that "freedom fighters", be they the Khmer Rouge of vesterday or the Patriotic Front of today, are only interested in the morality of their cause beofer as they realize only interested in the morality or their cause insofar as they realize their cause insofar as they realize the importance of propaganda and the desirability of persuading Christians, among others, to support them? Of course Rhodesis, let alone South Africa, are unjust societies. So were the South Vietnam and Cambodia of yester-year. But once Christians advocate changing those societies for the better by supporting violence, they simply force the groups in power—for example, Rhodesian whites—to choose between conflicting evils. choose between conflicting cylls. Which is the lesser evil; Rhodesiu under Smith, or Cambodia under the Khmer Rouge?

From a peaceful vicarage, be it Fr Harries' or mine, it is not possible to know what is going on in the rough world outside; and we in the rough world outside; and we clergy are perhaps shielded from knowing how much influence is wielded by unscrupulous men who rely on force. Fr Harries may suppose that: "indiscriminate terror will alienate the people and lessen the chance of political victory"; unfortunately, both history and current affairs indicate otherwise. Yours sincerely, GILES HUNT.

Barkway Vicarage, Royston, Hertfordshire, Hertfordsbire. November 1

Electing Euro-MPs From the Director of the Electoral

Reform Society Sir, "On what general platform can Labour candidates stand for the European Parliament?" asks John Mackintosh. Quite. While it is of course designable that Labour voters should be able to elect their fair share of Euro-MPs, it is no small matter that the Government's re-gional list system counts each vote for a party, so that a vote given to a candidate because he wants to keep the parhament powerless may contribute to the election of one who will surve to make it more powerful. Or vice versa. Only the single transferable vote avoids the presence that any party is united in its abbitude to the Community. Yours faithfully, ENID LAKEMAN, Director, Blectoral Reform Society,

6 Chancel Street, Southwark, SE1.

Forget the future

From the Reverend P. M. Haynes Sir, Once I heard a Mothers' Union speaker tell her audience that "the Virgin Mary spent the nine months of her pregnancy reading the New Testament". I have had to wair 20 years for something in the same class. Now Mrs Thatcher has obliged. She has assured us that the children of Israel "were so relieved not to have been drowned that they forgot they had got to face 40 years wandering in the wilderness." Yours faithfully. PHILIP HAYNES. St Mark's Vicarage, 22 Peaks Hill,

The bargaining season for serious danger. The sick, the disnegotiating channels. The man-electrical power workers is in abled and the old are particularly agement's position is delicate, for March, when the thaw has at risk, and it is quite possible actions that might be perfectly usually set in and the nights are that there may be deaths which

drawing out. November is a match more advantageous time this disregard for a special for pewer workers to remind the responsibility to the public public how useful they are. Like (freely taken on), merely for the the miners, they are among the tively united national force, more of the community are being punctilious than most unions about referring major issues to its members before taking action. and so all the more formidable when it does act. It remains a less thyme and reason about dis-

marginal output in peak hours is accomplished without immense public inconvenience and some

NO CHANGE FOR THE BETTER

as passports are when the holder takes up foreign residence. Expiry of the endorsement means return to the homeland.

The new system in fact is meant- to rivet the bantustan arrangement on the blacks, by increasing the authority of the flimsy homeland "govern-ments". Holders of their documents are to ger preference for jobs and for the permission to reside in white South Africaover those with documents stillissued to blacks residing in townships by the Ministry of Bantu Affairs. The object is to induce as many blacks as possible to register "voluntarily" as homeland nationals. Carried far enough this process would render South Africa, a pure white country with a few million

black Gästarbeiter. It is the doctrine that all blacks really belong to the 13 per cent of South Africa known as the passes. Possession of one Africa's uniquely abhorrent race will be needed to apply for a policy. Though talks with the job in white South Africa, and homeland leaders were started they will be endorsed or visa'd some time ago, it is no accident

It is within the competence of with periods of residence much that the new system is being nobody.

moment there is little or no incen-tive for them to get involved. Here are three suggestions which might be considered. First, all income arising from the letting of residential property should be estempt from the investment arrcharge. A los of neople think that the surcharge is iniquitous anyway and with this I would agree but it is manifestly absurd to treat income arising from residential letting as unearned. For the small lendlord there are endless difficulties involved and it is just not the same as sticking your money into the Stock Exchange or silt edged and waiting for a dividend. Secondly, all repairs, whether First, all income arising from

Secondly, all repairs, whether structural or decorative, carried out to residential property should be to residential property should be regarded as income expenditure and be offsettable not only against rent arising from property lettings but against all other types of income, earned and measured possessed by the individual concerned.

Thirdly, profit on the sale of suv residential investment should be treated as a capital gain and be subject to a maximum rate of tax

Mapping buried history

From Dr Margaret Gelling Sir, The letters from Dr Webster (October 31) and Mrs Proudfoot (November 1) protesting against the proposed curtailment of the activities of the Archaeological branch of the Ordnance Survey must com-mand wide support amongst all who care for Britain's past, Ordnance Survey maps have not hitherto been mere instruments to enable the motorist to get from A to B; other organizations supply maps for that purpose Our Ordance Survey maps have been a record and an exposition of the whole history of life in

this country.

The archaeological information is vital and should continue to be supplied; but there are other aspects in which the maps have become less informative recently. To become less informative recently. To take one instance, south of Birmingham there was a parish called lpsley. The settlement is described in Domesday Book, the church still stands, and the place is of interest to archaeologists and historians. It is, among other things, the location of the earlier thanks. the location of the earliest Saxon object to be found in Worcester-shire, and a place where Roman and Anglo-Sexon finds occur in significant proximity.

Trespassing and the law

Sir, Your correspondent David

Green (Letters, October 27) makes

a severe leged error in his first

sentence: "The owner or tenant of

property has the legal right to use

reasonable force to eject a tres-

passer. . . . He is referring to a single case (McPhail v persons unknown) in which Lord Denting, in

an obster, stated that the use of reasonable force was permissible.

However, this case pertains to very

special circumstances and by no means should be taken, or has been

taken, to give owners a universal

right to use force against trespas-sers. In fact, by doing so, after December 1 when the Criminal Law

From Mr Christian Wolmar

or the area is considerable. One of the earliest references to Redditch occurs in a forest perambulation of 1300, which begins "at the red ditch in the town of Ipsley". It would have cost no one anything to have left the name Ipsley there, so that the map continued to illustrate the history of settlement. May I suggest that, in addition to campaigning for the preservation of the Archaeological branch of the Ordnance Survey, all historically minded readers of The Times look at the most recent maps for their area to see what has been deleted? Such deletions are a very real loss to our historical heritage.

Yours faithfully, MARGARET GELLING, Chairman, Council for Name Studies in Great Britain and Ireland, 31 Pereira Road, Harborne,

Birmingham. Act Part Two provisions come moto force, an owner will leave himself

Resease, 1 Elzin Avenue, W9.

of that Act. Both the forcible entry Acts and the Criminal Law Act which is replacing them on December 1 afford a large measure of protection ro certain types of trespassers, such as squatters of empty houses and workers occupying a factory. In making such an MI informed and general statement, Mr Green has confused the issue of trespassers in an already occupied property (eg. 2 guest whose invitation has been rescinded) and trespassers on empty property or in factory occupations. Yours faithfully, CHRISTIAN WOLMAR,

open to prosecution under Section 6

Most Christians are gamblers in their innermost hearts. Even if they have never heard of Pascal they would agree with him that Reason cannot determine the existence of God. Though we ought not to gamble in general, we have to gamble whether God exists or not. We have everything to gamble whether God exists or not. We have everything to gain, or to lose; and in order to avert error and misery and to attain to truth and good to attain to truth and good to attain to retain and good to attain to truth and good to attain to retain the good to attain to retain and good to attain to retain the good which are and to attain to retain the contract of the story. God's gamble with the six ory to attain the good to attain to retain and good to attain to retain and good to attain to retain the good which are and to attain to attain to retain the good which are and to attain the good which are and to attain the produce perfection. But the cannot attain the attainment of

demonic within takes all. And so it must be in a world which excludes grace and faith, for who can still hear God's answer to the Satanic provo-cation: "Does Job fear God for nought?" To this decisive question we have no answer. Only God can and does answer with a resounding Yes.

Opening of Parliament Opening of Parliament
The Queen spened Parliament
yesterday—a historic occasion in
that it was, the first time that her
Majesty! had performed this
impressive ceremony. A new
voice spoke from the throne in
the changed surroundings of a
new reign. But the new page of
history was Highly turned, and
still enriched with the age-old
traditions in which Parliament,
with all ist ceremonial, is steeped.
The conscious giance backwards
was, fittingly, in the first sentence of the speech from the
throne, as the Queen gratefully
acknowledged, the sympathy of her
peoples and recalled the kingly
example of her father, which
it will be my constant endeavour
to follow. The crowded scene
in the House of Lords was enlivened with a special air of
expectancy and long before the
arrival of the Queen, every inch,
of space in the Chamber was
occupied. Noble lords sat unplushingly on the steps of the gangways.

OBITUARY

MR ERNEST KLEINWORT Banking and support for wild life

He went into the family bank-

ing concern of Kleinwort Sons and Co after being educated at Jesus College, Cambridge, and he became a partner in 1927 and remained until 1947, when he became acting chairman of Kleinwort, Sons & Co; and from 1961 to 1966 he was also chairman of Kleinwort also chairman of Kleinwort Benson Ltd. A powerful personality, with

an incisive mind, he was chair-man of the merged bank at a time of great opportunity and immense problems, and the growth of its prosperity and activities owed much to his

Most importantly, he was an international trustee of the World Wildlife Fund from 1967, and it was in recognition 1967, and it was in recognition of his work that he was made a commander of the Order of the Golden Ark by Prince Bernbard of the Netherlands in 1974. He became this year a vice-president of the Fund, a life appointment; and he had been for ten years a vice-president of the Wildfowl Trust, and a vice-president gince 1970.

He became internationally known also as a conservationist and a great benefactor of the World Wildlife Fund. Impressive though his £250,000 gift to

SIR FREDERICK BOURNE

Sir Frederick Bourne, KCSI. Service. He was posted to the CIE, the last of a long line of Province and in 1934 became sec-Britons to be Governors of retary to the local government on the local government in the electricity and industries department. He was made at the age of 85.

His career, which had been a distinguished one in the locian Civil Service, included several such appointments in several such appointments in the closing years of British rule—he was selected for the last of these, as Governor of East Bengal, by the newly-created Pakistan Government. He was succeeded by a Paki-stani, Sir Firor Khan Noon, in 1950.

Five years later Sir Frederick Bourne was selected by the British Government to advise British Government to advise on constitutional aspects of the devolution of powers to the regions of the Gold Coast, including questions of federal government and a second Chamber, as requested by the Gold Coast Government. In three months he issued his report, proposing regional assemblies. The opposition refused to cooperate over the assembles. The opposition refused to cooperate over the report. It was 15 months leter that the Gold Coast Coloney and associated territories be-

came an independent state, as Ghana. com of Sir Frederick Bourne, CMG, was born on August 12; appointment lasted nearly three 1891, and was educated at Rogby 29 years. Lady Bourne was formand. Christ Church, Oxford, merty Miss Heather Burbury 29 where he graduated. In 1910 he 20 they married in 1918. The Royal West Kent Regiment, with which he served during the 1918 war, and his record with it was a factor in his selection, in 1951. He became a member of the Committee of the British 1920, for the Indian Civil and Foreign Bible Society.

Punjab and in 1934 became secretary in the local government in the electricity and industries department. He was made deputy commissioner of the Lahore District in 1937 and three years later went back to the secretariat as secretary to the Home Department. In 1941 he was made chief secretary to the Government and he continued in that office until the spring of 1945. He next acted as governor of the Central Provinces and Berur. Early in 1946 he was acting head of the Government of Assam but in that year returned to Nagpur as that year returned to Nagpur as substantive Governor of the Central Provinces and Bergr.

When power was transferred in August, 1974, and the Pakistan Government appointed Bourne as temporary Governor of East Bengal, that province was confronted by urgent issues arising from the migration from and to it by Hindus and Moslems and the atrochies by which these traks were accompenied. He was a man of cool and sure judgment and quickly won the confidence of ministers, not least because of his con-stitutional rectitude. He and Lady Bourne, who survives him, were held in affection in the Province and the "temporary"

DR RONALD MackEITH

D.M. writes:

The obituary of Dr Ronald MacKeith gives him, rightly, the appellation "an influential paediatrician". His delightful paediatrician". His delightful his own joke often impeding nature explains some of that infinence; but how to describe it? He saw the human side in a chinical case, before anything else and was more interested in this than the intellectual exercise of diagnosis; at least, he was so much affected by it in the care of neurological handicaps of children that he spent his life in mying to obtain practical solutions for their baffling problems from the experts of the world.

He was very sensitive, affectionate and kind and could be hurt, sometimes to the point of tears (well concealed) at the

awfulness of the plight of a spastic child and distress of the parents.

His humour (his laughter at his own joke often impeding him in making it) and his bursts of suger made him all the more

Cup. They won the tie on
lites.

penalties.

Barcelova are challenging to lead the Spanish league and are among the most powerful teams left in the Uefa Cup. They have drawn their players from a wide area of Europe and include two of the best in the world in Cruyff and Neeskens. They have also received me advantage of playing their second leg against lpswich in Spain where they will know the size of their task.

Recent performances by know the size of their task.

Recent performances by loswich suggest they will seed to win well at Portman Road if they are to have any chance of reaching the last eight. They have lost only one home league game this season whereas they are still awaring their first away victory. However, their 3—3 draw in Las almas this week was encouraging and in Europe they are still considered a team to fear.

Aston Villa's chances of ballog are before Aston Villa's Chances of husing Atlético Bilbao are better now that their form is retunding to that of last season. They are unbeaten in eight matches and their Uefa Cup defeat of Gornik Zabras, of Poland, was commendable. The 1—1 second leg draw in Poland was expecially affections.

Puland was especially satisfying after a physically testing match.

The county champions, Lancashire, who had their grip on the title surprisingly loosened by the 12-7 defeat to Yorkshire last week, will be without their full back, Gallick, for the crucial match with Cheshire at Monthester. Gullick failed a late fitness test on a shoulder injury and Titkle, of Waterloo, makes his first uppersunce. In their only other change, Briers is recalled in place of the England under-23 wing, Carlston, With two other matches to play, Yorkshire hold a one-point lead over Lancashire, Cheshire and Northumberland in one of the tightest Northern group battles for years.

years. Eddie Butler, the Cambridge

Eddle Binler, the Cambridge University secretary, returns to lead Cambridge today in their match against London Scottish at Richmond. Butler, who has led the side in the absence of Hignell for the past month, missed his first game for the University last week with a braily cut knoe. Two other experienced forwards, Heath and Horsthuis, also return after injury. Oxford University make one change from the side beaten by Cloucester last week for their match against Cardiff at lifley Road. Thomas, who played for Bristol at the end of last season, comes in for Edwards at full back.

He may find his reappearance all the more difficult if a knee injury stops Todd playing in a defence already without McGadond

Athletics Correspondent

Britain's attempt to persuade the European Athletics Association (EAA) to salect Edinburgh as the host city for the 1982 European athletics championships failed yesterday. The association, meeting in Seville, awarded the event to Athens.

British hopes had been ressonably high at it was the first attempt by the British Amateur Athleric Board (BAAB) to secure

the championships, which are second in importance only to the Olympic Games. Representatives of each of the four cities, Athens, Edinburgh, Lille and Munich, were

allowed 10 minutes to present their

allowed 10 minutes to present their case yesterday before a vote was taken by the 14-member council of the EAA.

Since the European championships were last held at Athens, in 1969, they have been staged only twice more; at Helsinki in 1971, and at Rome in 1974. Next year there will sake place at Present

and at Rome in 1974. Next year they will take place at Pregue, and return to Athens in 1982.

Although the EAA could have had little doubt about the ability of Edinburgh to stage the championships successfully, they may have felt that the holding of the European Cup finals there in 1973. was just a little too recent for a

Mrs King taken to the |QC offers answers other side of midnight | to twenty questions

Billy Jean King will play either hristine Evert or Diame Fromoriented school or women tennis, founded by Alice Marble, against a young exponent of the ground-stroke tradition which older Americans will always associate with such players as Molla Mal-

the winch mass evert, the United States champion, beat Miss Wade, the Wimbledon champion, by 1–6, 6–4, 6–4 in an hour and 52 minutes. This contest, too, was penchanted by disurbing amendments to line decisions. In the first of Miss Wade heads as 2 1 means in the decisions. In the first set Miss Wade broke to 3—1 when a decision was changed after Miss Evert had "won" the point to reach dence. Suddenly achieving an arrestable numerous to 1550. wade won to consecutive points and, shortly afterwards, the set. "She just wheel me off the court," Miss Evert said.

Miss Evert then made a mighty effort of will, raised the level of the game and began to scamper about the court more briefly than she had done in the first set. For

as set and a half, the manch achieved a thrilling sylendour with Miss Wate straining to reassent her actionity but never managing to break up the rhythm the stout-hearted American was imposing on the railes.

Early crisis for some in county championship

Several same will be beiring for survival, when the county hockey chempionship, sponsored by Rank Kerox, reopens hoday and tomorow. For some the crisis seems to have come a little tho soon; the hopes of others have already been shattered. In the Rastern, Southern and Midhard areas where the competition is split into two groups, the sense of myency is more acuta. The most potential situation probably exists in; group two of the southern division where kent have lost a match and Survey and Middlesex have drawn to leave Berkster the only team with a win. So, Survey are aware of the gravity of the occasion as they prepare to meet Kent at Gore Court tomorrow. Kent hope to be refutored by Saldanha, whose midfield anthority was sadly missed when they were bearen 3-1 by Berkshire a formight ago, Middlesex, with Thomson available, have a talented side on view, but they will need to match the sharpness of Berkshire whom they return, for a hig European event, event after time years. Lille were planning a new sports complex, but the Franch may have been similarly pensilized by the fact that the European Cup finals were held at Nice in 1975.

That left only Munich, and as the Olympics were held there in 1972, the World Cup also in West Germany (Düsseldorf) titls year, the Cermans, seem already to have hed a fur share of important international events.

The secretary-gameral of the Greek Athletics Federation, Mr Evangelos Mihael, and he was suprised and delighted with the result of a secret ballot of council members. "We had a hard fight against much bigger and richer countries, so, of course, we are very pleased", he added. No date has yet been set for the champion-ships. They will be held at Athens' new Olympic stadium. Council sources said Edinburgh was eliminated first and did not get a single vote.

The Lord Provost of Edinburgh. but they will need to match the sharpness of Berkstire whom they meet at Eastcote. Buckinghamshire and Hamp-shire, each with a victory in hand, The Lord Provost of Edinburgh, Mr K. Borthwick, who headed a four-man delegation to help present the city's case, said he was shattered by the decision. "But the council is full of very expert people and they can choose exactly what they want. It seems we just didn't have it", he said. meet at Slough where the (uncome of what is likely to be a close and exciting match should settle the issue in this group. The much improved Oxfordshire side are expected to beat Sussex at Henley.

Several teams will be bettling Eastern division depend on a big for survival when the county victory over Lincolnshire at Skegvicinty over Lincolnshire at Skeg-ness, but the odds in this group favour the winners of the Suffolk-Cambridgeshire match at Crance, Ipswich. Each have a victory to their credit, whereas Heritord-shire have already lost to Cam-bridgeshire. If Bedfordshire bent Resex at Luxon they should finish on top of the other group.— Much to everyone's surprise, Nottinghamshire have no chance of retaining the title in the Midlands where Worcestershire and Staffordshire are concerned in a winner-take-all group match at Worcester. Likewise, in the other group either Stropshire or Leicestershire will emerge winners from the match at Bridgnorth.

The best match in the Northern area where the competition is played on an all-play-all besis, is the one at Northern Cub, Liverpool, where Lancashire are at home today to Yorkshire. Two sessons age, also at Liverpool, Lancashire best Yorkshire 6—4 in a remarkable match after being two goals down. There is a concourse of western teams today and tomorrow at Weymouth where the best chances rest with Wiltshire, the champions, Devon and Somerset, in a complicated system which demands only four matches from each of the seven reams involved. Staffordshire are concerned in a

Chasing the sun round the world

By Peter Ryde

By Peter Ryde—
Golf Correspondent
There used to be a saying—it is probably old bat, by now—to the effect: " Join the Army and see the world." It always struck me as slightly bogus because, although true enough, it obscured the fact that the Army's main job was processed util mislence in one concerned with violence in one form or another or the prevention of it.

I get the same feeling about far-I get the same feeling about farfiung golfers at this time of year.
Professional golf provides a
wonderful chance, for young men
to see the world, thanks to managers and the willingness of the
third world to pay well for a
chance to see the game properly
played, But, as with the Army, the
lure of travel can obscure the less
palatable fact that the golfer's
main job, if he is a touring professional, is to heat the next man.
There are of course other good There are of course other good reasons for escaping to warner climates in the winter when the home course may lie under frost or mud and a good swing may become distorted by high winds and muscular pains. Some stick it out at home. Neil Cules is not at home. Neil Cules is out at home — Neil Coles is a shining example—and thrive on it, but most of those who are still making their way with some success, and a few who are not, get away for a bit during the next four months. Opportunities are

four months. Opportunities are not lacking.

At the moment Faldo, Townsend and Dairy are enjoying the balmy air of Rabat. A group which includes Lyle, the newest professional recruit, is in Argentina for that country's Open championship, and they will be joined by others next week at the Brazillan Open. Another little group, headed by Ingram will soon be off to the Sierra Leone Open (November 12-13).

Poster have their sights set on Australian Open (November 17-

20), preceded by their PGA championship and followed by another Colgate tearrement.

The South African circuit is already well advanced. It has seen better years, and the closeness of its Open (November 10-13) to the Australian Open has not helped the South Africans. But they have their loyal supporters, among them Job, Humphreys, Corr, N. Huot, and Toe-man and to follow, but he is expected in better years, and the closeness of its Open (November 10-13) to the Australian Open has not helped the South Africans. But they have their loyal supporters, among them Job, Humphreys, Corr, N. Hunt, and Tourney and this year they were joined by Jacklin and Dawson.

Jacklin did not shine and has, American sun-trail for the Crossy (still carrying on) from January 19-22, and the Phoenix in Arizona the week before. There is also talk of exhibitions for him in Brussia in the way a year, but C. 2 gets the Impression that for all his mid-Atlantic tightrone walk-ing the theme next season will once again be Europe. Another chance to widen horizons occurs when the World Cup takes place in Manila (December

rakes place in mania (December 7-11): Dawson (from Australia) and Faldo will be paired for England, along with three other have intermediate.

and K. Brown for Scotland,
Vaughan and DeFoy for Wales,
and the Irishmen, Darcy and
Polland.

What special preparation are
they giving themselves for that
event? I do not know, but if I

to follow, but he is expected in Tobago for the pro-am there in January. That is the season for those events—a good time for them whether it he in the West Indies or that popular series in the Portuguese Algarve—and a number of our better professionals have been attracted 19 them. There will hardly be time to get

back to Britain and unfrenze the pines before the Saiori circuit starts up in Central Africa. The curton-raiser is a two-day affair in Gambia (geography should be a compulsory subject for anyone trying to qualify in the professional golfers' school). Those dates are February 11-12, and between then and the end of Merch five more tournaments will be played in successive weeks in Liberta, Moore Vanna and Table The successive weeks in Liberia, Nigeria, Kenya and Zambia. The difficulties of travel and accommodation in these parts are offset by the magnitude of the prize list, which is out of proportion to the quality of the entry and therefore all (to more attractive to the adventurer. With so much going on I can-

with so much sering on t cannot see many Britons finding it
worthwhile to take part in the
Asion circuit. This also starts in
February with the Philippines
Open, whence it flows westward in
successive weeks through Henry
kees Bringlet in India return seccessive weeks through Heng-kong, Bangkek, to India, retern-ing via Singapore, Indonesia, China to Korea towards the end of April. By that time the Euro-pena circuit should be under way, always allowing for coups d'estat and for all-our strikes by d'etat and for all-out strikes by air hustesses, ticket collectors or caddies.

Racing

Count Kinure will notcatch Francome unawares this time

By Michael Phillips Racing Correspondent

Sixteen runners will contest the teeplechase for the Mackeson Gold Cup at Cheltenham today. This will be the largest field that this covered trophy has attracted for 17 years. So open is the race in my view that it would be possible to draw up a short list of at least half a dozen runners and still miss the winner. So it is with no great confidence that I pin my hopes on Count Kinure, who will have the carry a little overweight. have to carry a little overweight in return for the services of a former champion jockey, John

of days ago and complete a full circuit of the Course before the start of his race will be understandably wary about backing him. However, after that unhappy experience Francome is bound to be more on his guard than everthis afternoon as he takes Count Kinure out on to the course. He should be able to prevent the seven-year-old from getting up to his antics.

bis antics.

If his exuberance can be contained and channeled into an all out effort at the right moment Count Kinure has the ability to give his backers: a good run for their money. In spite of everything Count Kinure still managed to finish only two lengths behind ise of Man at Ascot and in the circumstances that was a praise-worthy performance. Before that he had won at Stratford-op-Aron and Chelenbarn

Anyone who does not fancy the idea of mking a chance with Count kinure, could do worse than take a chance with either Tom Morgan

or Bachelor's Hall. For Morgan won the Grand Annual Steeple-chase on the first day of the National Hunt Festival at Cheltenham in March. He has been sent on a long journey from Rozburghshire for this race and I'know that his trainer, Ken Oliver, would not have undertaken this venture without first giving it a lot of thought.

lot of thought.

Tom Morgan will be ridden by Ron Barry, who is adamant that today's distance is his ideal race and Tom Morgan will certainly strip fitter than when he finished implaced at Newcastle towards the end of last month, Bachelor's Hall will also be sharper than when he finished fourth in a hurdle race at Stratford last month. Last year he won a good race over today's distance at Liverpool, but with a much lighter weight than he has today.

Graigue House may be Haueren
by his recent performance against
Fort Devon at Newbury and a
truer reflection of his chance
could easily be his previous race
at Cheltenham where he beat
Corrieghoil by four Lengths.
Corrieghoil bas been allowed 6 lb
for that defeat. for that defeat.

At Ascot, Count Kimme had Tipthe Wink behind when Early
Spring was pulled up. The ground
may not be soft enough for Tipthe Wink, but Early Spring can
be expected, to run much better
this time.

Invincible should live up to his name

French Racing Correspondent St Cloud, Nov 4

I believe Invincible will live up to his name and win the Prix. Thomas Bryon at St Clond tomorrow. He will be given plenty to do by the motre experienced Kemmare and I also expect fair performances from Kemmar and Nar, who will be ridden by Lester Playout.

Maurice Zilber is already talk-ing about Invincible as a possible for next year's Derby. The son of Vaguety Noble has appeared or vaguery Noble has appeared itst once in the Prix Marerella.

It Maisons-Laffitte on August 14.

He won this race without being extended and the runner-up that day, Ethnarch, like Inviscible, owned by Nelson Bunker Hint, was today successful in the Prix Pitchours, also at Maisons.

Inffirm

class company in the group one Prix de la Salamandre. He was besten under half a length in their event by John de Coombe and Bhai, but finished a length and a half in front of Soper Concorde. However, Super Concorde, However, Super Concorde had complete revenge when winning she Grand Critérium four weeks later and in that rade Kanmare was no closer than fifth. Kehaer is a stable companion of the Grand Coitérium runner-up, Pyjama Hunt, On October 1 at Longchamp, Kehaer run an hohest race to finish third so Noir et

Amazing Sea Pigeon to overcome weight, going and 20 opponents

Shuffling and Now Here This.

Not for the first time, the wizard of Findon, Ryan Price, has set us a merty problem. Last year, he indied the Bridge and Shelahuu to finish first and second in this race. This afternoon, he runs both Gale Bridge and Lucent. The stable jockey, Brian Taylor, has elected to ride Gale Bridge, who is set to carry only 2 lb more than she didyin her victory as a three-year-old. This mud-loving stayfr advertused her well-being when bearen only five lengths by lafonseignenr in the Prix du Conzella du Baris at Lungchamp recently.

No horse has carried Sea Pigeon's heliy buden of 9st 77b to victory during this century. Yesterday afternoon, after Peter Easterby had warched Alverton camer home in the Torksey Hurdle, the Malton trainer glanced anxiously of the rainfilled skies, and said: "We don't want any more of this for Sea Pigeon. At the moment, the going is just all right, but if it rains all night, I wan't be very confident." seil du Basis at Longchamp recently.

But Lucent is no slouch either. John Ratilie's filly is on the fringe of the top class, and ran with great; sest when only four lengths behind Hot Grove in the St Simon Stakes at Newbury a fortuight ago. Mine stone is a big weight for a time-year-old, but with that able rider, Brian Rouse in the saddle, ringer should be fighting out the finish today.

Such a competitive handling is of course not confined to four horses, Those improving three-year-olds, Greenjacket and Carrigeen, are by no means forlorn hopes. The same applies to Amber Valley, who was given a lot to do when narrowly defeated by Frash at the last meeting on this course. Henry Candy's Moonlight Rag showed all the courage in the world when just beating Country. Fair at Sandown.

If the going was fast, I would have the unnost confidence in Sea Pigeon, who has inherited much of the speed of his sire that one standing racehorse, Sea Bird II. But in the circumstances, I can only make him a hadrant selection to win from Gale Bridge, Sall-cloth and Lucent.

Cheltenham programme

1.0 COVENTRY STEEPLECHASE (Novices : £1,232 : 2m)

130 PEARCE DUFF HURDLE (Handicay: £3,376 : 3m)

MACKESON GOLD CUP STEEPLECHASE (Handicip.:

The £5,000 Williamson Sword Stakes, for two-year-olds is also a real beaser. I can going for Lord Rochford, who was winning his third race from four starts when giving Cherry Picking a clever length beating at Lingfield Park on Tuesday. My idea of the soundest wager on the Town Moor is Reg Holliamshead's three-year-old sprinter, Nice Value, whose sperkling turn of foot should enable him to record his third victory in a row in the Guy Fawkes Handicap.

At Doncaster yesterday, an

At Doncaster yesterday, an interest-packed National Hunt card provided the best jumping the races were wen by well backed houses and only a catastrophe in the Grandstand Novices Chase when the favourite Ballet Lord fell at the last fence bringing down the equally faucked Ras prevented the bookmakers' satchels from being emptied. Provided both horses are none the worse for their mishap, they are certain future winners over fences.

The highlight of the day, was undoubtedly Midnight Court's short head defeat of Casamayor in the Baxter Gate Steeplechase. Badly hampered, both at the fifth and third lences from home, Fred Winner's six-year-old appeared to have an impossible task racing to the last during Bart's with John the races were won by well backed Winter's six-year-old appeared to have an impossible task racing to the last jump. But with John Francome riding like a man inspired, Midnight Court fluished like a rocket to snarch the verdict in the final strides.

Ròyal Marshal II, having his first race for 11 mouths, pulling like a train, event well in the lead until a mistake at the third from home finally put paid to his chances. Tim Forster was delighted with this effort and provided all goes well in the meantime, plans to run last year's King George VI Strepletchase winner in the Hennessy Gold Cup.

International seen as match of champions

Laurel, Maryland, Nov 4.—The heavy mist on the turf course at Laurel racecourse early yesterday morning plastered John Russell's fair hair to his skull, and forced the young trainer to squint as he tried to peer through the murk. "How does he look?" Russell asked a friend who had focused his binoculars on a horse coming down the straight. The friend shrugged, but as the horse thudded by he rolled a cocky eye back at Russell as if to say: "Just fine, thank you."

The steek bay who was the

object of all this scruttery was not Russell's horse, Majestic Light, the leading turf horse in the race that should decide the North America "urf championship.
There e nine starters in the race, time from France (Exceller, Crow and Monseigneur) and four from the United States (Maiestic Light, Greet Coutractor, Johnny D and Vigors). Britain with Balmerino, who finished second in the Arc, and Italy (Stateff) are also represented, but it is seen here as essentially a two-horse race, the rubber match between the American and French champions.

pions.

Like all Vaguely Noble colts,
Exceller, owned by Nelson Bunker
Hunt, is a flashy horse, a dark,

This season he took the Coronation Cup at Epsom and the Grand Prix de St-Cloud and then finished third behind The Minstrel and Orange Bay in the King George and Queen Elizabeth Diamond Stakes. The colt has finished out of the money only firree times in 17 starts and has won \$669.213. United States. Rather, it was the finished four and a half le French colt. Exceller, who is expected to be Majestic Light's O'War Stakes at Belmont. Toughest rival in tomorrow's weeks later, he reversed Washington, DC, International, a race that should decide the North Canadian International at Washington to the company that the state of the

rich-looking bay. He has raced primarily in Europe, where, as a three-year-old, he won four consecutive top French races, including the Grand Prix de Paris and the Prix Royal Oak before he lost the Arc de Triomphe.

Jones Boy takes puissance to

give US big lead

New York, Nov 4.—Jones Boy, ridden by Kate Monahan, won the \$2,000 pulssance event today, adding to the solid lead of United States in the National Horse Show at Madison Square Garden. At the end of the third day of the sinday competition United States have 64 points and West Germany are second with 25.

Buddy Brown, of the United States equestrian team, leads the individual scoring with 26 points and Hendrik Schulz-Slehoff, of West Germany, is second with 16. The puissance event went to five rounds before Jones Boy, an eight-year-old bay gelding owned by Hunterdon, Jucorporated, finally won, the wall being at 7ft 2in. Wow, owned by Ann-Leibel and ridden by Barney Ward, was second and Eribneo, of the United States equestrian team, fluished third, Five horses thed for fourth. States equestrian team, finished third. Five horses tied for fourth.

Ali 'must meet winner of Young-Norton bout'

Las Vegas, Nov 4.—Ken Norton and Jimmy Young, who meet over 15 rounds tomorrow night at Caesar's Palace; got the assurance yesterday that the winner will be the World Boxing. Council's candidate for challenger to Muhammad All and his heavy weight champlorship.

José Sulaiman, the president of the World Boxing Council, said tomorrow night's winner must be the near challenger for All's title or the WBC would vacate the title. Mr Salaiman gave Ali a December of eadline to sign for the bout which, he said, must take place no later than April.

Both boxers were enthusiastic about their chances against each other tomorrow night, but neither felt that Ali would meet time. Young said, "Why would he fight I get careless I hope I lose. I hope me and lose when he knows he

Prices soar as diamonds make more friends

crowned by dismonds. De Beers, which has the world's least two senses of the expresrough diamonds by 17 per cent as demand continues to rise. straight price increase, apart from alignments for currency fluctuations, and means that rough dismond prices have in-creased by 34½ per cent since the beginning of the year Sales of rough diamonds should

exceed \$2,000m this year. But do not despair-the price of diamond rings and other irems should not change in the jewelry shops before Christmas.
Partly this is because the price increase is operative from the next "sight" (sale) of the Central Selling Organization in December, the De Beers arm which controls the merketing of all but a small handful of the world's rough

Additionally, since the CSO sells in dollars, a currency which has been noticeably weak of late, the price of diamonds should theoretically decrease in hard currency areas. In practice they will probably not, but at least any rise should be

should already be reflecting any rise since gems, on the open merket have been selling at a premium to the CSO prices when the last price rise was

If your friendly neighbour-hood jeweller ignores all these factors and attempts to put his prices up by 17 per cent, it should be pointed out that the increase relates to rough dismonds and that any retail rise should be much smaller, given the immense value added dement of all jewelry.

Given the fact that diamonds are perhaps the ultimate in luxury and conspicuous consumer consumption, the diamond market is extreordinarily well regulated by De Beers, although it is naturally unable to prevent sales falling in a severe recession.

It was in fact out of the great cresh of the late 1920s that the real De Beers supremacy, was born. As the world went into a major slump, demand for diamonds plummeted and producers set about cutting each others throats in one of the most vicious price wars ever seen. Order was restored by Sir Ernest Oppenheimer and it represented the consumment of his attempts. consummation of his attempts to rationalize the South African and, later, the world diamond industry.

Despite the implease empire he created spanning gold, platinum, base metals and in-dustrial incrests diamonds remained the favourite of all Sir Ernest's interests. This is no less true today of his son. Mr Harry Oppenheimer, who is both chairman of De Beers and the Anglo American Corpora-tion of South Africa.

The Oppenheimers have managed to control the marketing of rough diamonds, and to act for such disparate producers as the South Africans, Bots-wanas and Russians, by operating a stockpile, and by running a very sophisticated marketing campaign.

Desmond Quigley

Britain accused of dumping in US

Mr Charles Vanik of Obid. who is among the most power-ful members of Congress on: international trade manters, has accused the British Steel Cor-poration of violating American anti-dumping laws by selling steel phate at below cost price. He told the House of Representatives that the Treasury had compiled figures that show that BSC was selling steel plate at prices below those offered by Japanese manufacturers. He pointed out that on September 20 the Treasury charged the Treasury charged enese producers with selling

Japanese producers with selling steel plate at 32 per cent below the Japanese home market Mr Vanik said that BSC's selling practices must be immediately investigated. He announced that the trade subcommittee of the House Committee on Ways and Means, which he chairs, will hold hearings on the Administration's enforcement of anti-

dumping laws: He declared that if the Trea-

22,000 laid off at Leyland and Vauxhall plants

The same with the same of the Oxford St gets 25pc of tourist cash

London's Oxford Street accounted for about a quarter of all the money spent by fourists in Britain's shops this year. Mr. Harry Shepherd, president of the Oxford Street Association of the Oxford Sirver Association of retail traders, said yesterday. Speaking at the association's fourth annual lanch, Mr Shepherd pointed out that despite the exceptionally good business from overseas visitors, Britons coming from other parts of London or from the provinces still accounted for the substantial part of total retail trade. He called for cheaper shopping fares on public transport and offered the help of the association in publicizing any suitable new fare structure.

At the close of the 14th weak-after the end of phase two the CRI's data bank had recorded

For most of this year the current issue of National Savings certificates have been highly attractive buys. But what about the holders of previous issues of certificates?

Dr. C. W. Wickham-Jones, of Stockton-on-Tees, has drawn attention to the plight of savers who are still holding National Savings certificates issued before the war, the Firstto Sixth issues inclusive. It is not possible to determine the number of holders but it is known that the amount they have invested (based on the purchase price) is £4.02m.

The rate of interest on these certificates, which may be held indefinitely, is a miserable 5/12p (1d in old money) a month, a rate which will not vary "unless notice to the contrary is given by the Treasury"

The real rate of return that this interest represents is unforgiveable. It works out at just over 1.3 per cent for the First issue, rising to a generous 2.13 per cent in the case of the Sixth issue. And this is in an era when double figure interest rates have been commonplace.

Holders of subsequent issues fare much better. From time to time their extension terms are readjusted upwards and are not far out of line with the rates on the current issue of certificates. People, for example, who bought Twelfth issue certificates in 1966 will get a 7.54 per cent return on their savings this year.

Why, then, is the Government not prepared to offer. similar increases to holders of prewar certificates? It has to be assumed that it does not think it necessary to do so. The argument is, after all, that no one need stay with the old issues. They should be encashed and converted into the much more attractive current one. .

Yes, of course, they should. No one would contest that point. But it is fairly obvious that the Government is probably dealing with elderly holders who do not have the initiative to do the "right" thing. A modest advertising campaign by the Department of National Savings in Scotland a few years ago failed to get the message over and the department cannot afford to circularize holders individually.

But is the fact that the Government has a "captive market" any excuse for not offering such savers a better deal? By the law of diminishing returns, the yield for these savers will further worsen as the years go by. Fixed interest investment

Gilts afloat in a sea of change

The Bank and the Treasury went to sea On a beautifully buoyant pound, They took some miners and other hard-liness

And rapidly ran aground.
But the Bank looked up to the money supply and sounded a warning note. We hold the purse strings, so don't ask too much, We're set on keeping afloat,

We're set on keeping afloat.

The gilt-edged market, like the foreign exchange market, has been trying to find its sealegs this week. So far it has not found its task particularly easy. On Thursday the market took on inursity the market trok a testy lurch and it finished the week looking quite pale.

When the Treasury announced on Monday morning that it was to give up the struggle to hold down the value of sterling and leave market forces to determine the currents of a sterline the currents of t rency's worth, one might well have looked to the gilt market to have responded rather more

on have responded rather more enthusiastically.

Sterling raced shead and a higher value for the pound could, after all, be expected to cut import prices and help in the battle against inflation—all. of which one might have thought should have been music to the

them and acceptance of the cost they would involve. Annual general meetings are

a costly ferce for most com-

panies and regrettably they probably would be for unit trusts, too. Unit-holders would

also presumably face hicreased charges to absorb some of the expense.

Public share ragisters are another matter. It is right that

fellow members of a trust should be able to communicate with each other without going through a third party and the trustees do bave a register available to unit-holders of that

fund. In theory, provided you can prove you are a unit-holder, all you have to do is eak to see it, although I gather you

mey be asked—unnecessarily in my opinion—why. Unit-holders would want to get in touch with each other

get in touch with each other most obviously when management group, or even fund mergers, are proposed. I have much sympathy with SEECA's point here. Trustees do their job adequately, in these circumstances, but their concern can lack the urgancy and direct interest of the unit-holders, who have been powerless in the past

it clear in his "mini-Budget" that the Government had rejected the idea of neutralising the to start taking their profits? mounting flows of money into the country by permitting greater outward investment, the market immediately smifted that the Government (appar-ently opposed to the idea of tighter inward exchange concrois) had only one option left to it if it was to keep the growth in the money supply under control. To choke off at least part of the oversess demand for sterling, the policy of keeping sterling artificially undervalued would have to end.

But this anticipation by the

had to struggle to make much reason for its only reason for its only reason for its muted enthurpward progress. In part this sasm. There was also the was because the market had senged that something was in the wind at the end of the previous week. Once the Chancellor had made inevitable—and just what they had all been waiting for mow induce those overseas investors

For North American investors in the gik market, for in-stance, the capital gain on the gilt holdings and the capital gain on the currency added up to profits beyond their wildest dreams—gained partly, inciden-tally, at the expense of the British raxpayer. To what extent overseas investors have in fact been taking

profits is difficult to tell. But while the possibility has been there—and it clearly increased over the course of the week as prospects on the labour/pay front worsened—there has been little incentive for British institutional investors to commit-fresh funds to the market. What bappens next? Certainly, the bearish factors are

now far more abundant than they were a couple of monits ago. And once a market thinks ago. And once a market thinks in the upside potential is in the market than they were that the upside potential is in the market than they were that the upside potential is in the market than they were the take some profits. Secondly, to the extent that the sterling "float" chokes off overseas inflows it should also overseas inflows it should also be a control of the sterling that the sterling is the sterling that the sterling is the sterling to the sterling that the sterling is the sterling to the sterling that the sterling is the sterling that th

bearish factors, are as follows. First, now that overseas inves-tors have seen sterling allowed

obviously increases.

The bearish, or potentially reduce excess liquidity in the

money markets, confirming that short-term interest rates are now more likely to rise than

Thirdly, any further deterioration on the pay front will upset sentiment still further. Fourthly, the monetary authorities still have to sell a lot more gilt-edged stock to keep the money supply under control over the second half of the financial

Finally, the personal sector could emerge as significant sellers this winter. As the table shows, the sector bought large quantities of gilts in the final quarter of 1976. Many of those oldings will now have run for the magic one year—the point after which you can take your profits free of any capital gains

tax liability.

Those who wish to play safe should think about taking at least some of their profits. This is particularly true in stocks where the income loss from moving back into building societies or even National

Savings is not too penal.

For those who stay with their gilts the argument for thinking that any setbacks will not be too sharp or too prolonged over the coming months mainly rests on the Government's determination to stick to its guns.

John Whitmore

Unit trusts

Consumer groups take up the cause of unit-holders

Consumerism now has the unit repeated mention by the man-changes informally—if there-trust industry within its sights, agement groups in fund annual was a universally felt need for SEECA (South East England reports of this method of buy them and acceptance of the trust industry within its sights. SEECA (South East England

mally consulted when there is no legal obligation either to hold an annual general meeting or to maintain a public register of investors. The second is that the investor is not nor-many consulted when theree is a change of management or where there is an appropriate policy and "he thus has no one to use opportunity of opposing such change if he considers it so be. With interceptional funds there are some gamains difficulties in finding a matching

The third criticism is a varied bug asking for more informa-tion for existing and future unir-holders. SEECA would like funds to be compared with an established index; more publicity about the amount of the dollar premium in a unit price; oublic that there are other ways of buying units than by filling in coupons in newspaper adver-tisements; and more readily available information about

The letter belongs to the "more - in-sorrow - than - in anger" category and adds that it is precisely because the industry has so many "plus" points that SEECA would like to see reform and "a more open policy adopted."

"The introduction of unit rusts was succly intended to

trusts was surely intended to take some of the mystique out of dealing in chares; it seems to us that this landable objeccive has not yet been fully realized."

The letter has been welcomed. The letter has been welcomed by the Unit Trust Association. Its secretary, Mr Wilf Burnett, said that they were "good points to raise". He added: "We happily thought they were well covered. But obviously more can be done. There are things that one has to keep bammering away at."

Mr Burnett was reforring in

hammering away at."

Mr Burnett was referring in particular to the request for more information. Pound-cost averaging is a classic example of a subject which sounds more complicated than it actually is, for which reason it is a regula stand-by of most commentators who write about the industry. the managers could circumvent. There probably is a case for by introducing some of the

SEECA (South East England consumer Associates, which represents some 35 consumer aroups in the South-east) has just written to the Unit Trust Association drawing attention to certain points that we consider to operate against the interests of an investor in unit trusts.

There are three main critimally consulted when there is

of selling units.
What is the case for the other two information points? Well, my impression is that most aroups to compare a fund's per-formance with a stere index

index.

However, for domestic funds there is certainly a case for insisting upon comparison with the more representative FT allehare index than with the FT industrial ordinary share index which embraces only 30 stares. Another point worth considering is that once an index comparison is introduced it should be maintained dirrough bad performance years as well as good. And, yes, I am in isyour of terminar the deliler resimbure. And yes, I em in favour of temizing the dollar premium coment is the unit price—but I doubt if many people will find it a particularly useful concept. The dollar premium content is a sophisticated tool of investment malysis, which is professional investor might use before deciding which overseas-

ment analysis, which a professional investor might use before deciding which oversess oriented fund to buy.

The two other main points raised by SEECA can be discussed only in the light of the peculiar status of a unit trust, because a trust is precisely what it is not a public company. Consequently, unit-bolders ariogs a substantial degree of protection under English trust law and the particular protection of the Department of Trade, which decrees both whether a trust is enthorized and whether the management group, the managers are suitable. This protection is applied directly or through the trustee to the fund.

What emerges from this is that to introduce and whether the status is the industry is mature as the industry is mature.

What emerges from this is that to introduce some of the try and not merely unit trusts. This may be an inhibition which

The range of cash or means-tested benefits offered by the state to families with children has about it an ear of Carch 22." It requires a superbunant effort to sort out whether you, may claim and it so what.

Children

So off-putting is the present-ation of many of the fringier benefits that the take-up rate is abysmally low. It is esti-mated, for instance, that the take-up of lower income entitle ment to free milk and vitamine is only 10 per cent of what it could be.

Many families are missing out.

on the benefits eather through false pride or ignorance. Child benefit: The simplest and most universal cash allowcame into operation last April, and is a tax free sum payable weekly, usually to the mother.

It has been designed to replace the old system of the relief for children and family allowances. The family allow

allowances. The family allowances was payable only on the second child, and subsequent offspring. As it was tarable, many higher rate taxpayers tended not to collect it.

The new child benefit is £1 for the first child and £1.50 for the second and subsequent children, with an extra 50p a week for the first child of a single parent family. Next financial year it will rise to £2.30 a child.

Who gets it? The child

Who gets it? The child benefit was designed to be a cash payment to the mother and this concept was something of as it involves the gradual reduction of father's tak allow-ances (see next week's article) and his net pay.

with their feet.

To be brutel, voting with one's feet—ther is, selling one's units—will probably always be the best solution. But unit-holders should have other arrangements of the best solution. the two parents.

If you received family allow-

ances, you will receive it auto-marically. You must apply to the local Department of Health office for other children.
Child's special allowance: If
you are divorced and your former busband dies you may be entitled, in addition, to the child's special allowance, pro-vided he was obliged to contrioute at least 25p a week in cash or goods towards the maintendance of your child.

Many women give up the

battle to procure maintenance-from their former spouses, baby. Even if the husband refused to pay what the courts awarded you, the fact that you had taken reasonable steps to enforce payments should mean that you are eligible for this benefit.

The deceased former spouse must have fulfilled the necessary

basion conditions.

The rate of the allowance is £6.45 for the first child and £5.95 each for the others. These rates rise on November 14, to £7.40 and £6.90 respectively.

School dinners : more families can now claim free school meals.

Following the elusive In the case of divorce, where most commonly the father pays maintenance and the child lives with the mother, the mother will be awarded the benefit in event of a dispute. Unlike the old family allowance there appears to be not provision for the benefit to be split between the benefit to be split between the benefit to be split between entitlement actually comes.

entitlement actually comes down on that date making many more families eligible. Family income Supplement: This is available to people with any gross income. You can obtain details of the income scale from your local education authority.

Even fairly well-heeled perents with children should do the sums—particularly as school meals here gone up to 25p each. Take a man with two children estning £80 per week. This would put him marginally above the average weekly cross above the average weekly gross wage recorded in April this year. Nevertheless, depending on his requirements, he could be eligible for free school meals for one if not both his effective.

offspring.

Roughly deducting a quarter of his wage for tax and National Insurance payments, leaving £60, then taking off a further £5 for fares to work and another £10 for the rates and mornage leaves our above-average family man earper with £45—in which case he will be slightle for free school meals for one child. If he perred £44.15 or under a week he could claim the meals for both

Free school meels are not now simply for poverty-line

Educational allowances: Education authorities are obliged to provide help with maintenance or clothing for school children in certain circumstances. Educa-tional maintenance allowances are available to perents who

want to keep children at school above the statutory leaving age.

Assessment is on the basis of net income, computed exactly like that for free school meals, net of reat, rates, mortgage and feres to work, with the first £4 of wife's earnings deducted (£6 of single parent's earnings) to arrive at the figure.

figure.

A family with two children and net pay of £32.50 a week would receive a maximum are of £228 g year. The same family with pet earnings of £43.15 could claim £102 a year. Uniform allowance: There is other discretionary help awailable to parents of school-children. You can claim the Uniform Allowance, if you have a child of children attending a secondary school where uniform is compulsory. The assessment is based on the free school means remarks of the free school means the school where a child. that qualifies for free meals he os she should also qualify for the uniform allowance. It is paid when the child is 11, 13,

and 15 years of age.

It is not, however, obligatory on local education authorities to offer this grant and there are no set amounts for payment. The Inver Loudon Education Authority does offer it, at a rate of £24 per girl £22 for a boy.
Necessitous Clothing Grant: There is also a necessitous clothing grant available for printery school children or others who attend a secondary school where uniform is not compulsory. This grant is

Converting to a whole-life policy

shares because of the tax advantages. The policy can be linked directly to a suitable fund (held within the life fund of the life office), so that the value of the policy keeps in step with the performance of the underlying fund.

. First, regular premiums paid towards a life assurance policy (up to a total of one-sixth of one's income) can qualify for relief of income tax—at half the current basic rate of tax. Secondly, the rate at which the life fund pays tax on its investment income will be not more than 371 per tent. That, for most investors, is an enviable low rate and after deduction of tax, the life office reinvests the balance in the fund, thus increasing the value of all policies linked to the fund

Thirdly, the maturity value of the policy at the end of the day will be completely free from rax. Admittedly, the life office will have made some deduction for its contingent liability to tax on the capital gain, but this is likely to be at a rate which is much lower than the standard rate of 30 per cent which would apply in the case of an indi-vidual shareholding

A useful acrangement offered by some companies is to provide a straightforward 10-year unit-linked endowment policy; but, at the end of the 10-year take the tax-free cash. Instead, on the same money, and thus

The practical effect of this bond.
is that the value of the units Adm one's policy continue to grow on a rax advantageous basis, but on a tax advantageous basis, but is possible to withdraw cash in easy stages—as and when it is needed. And neither basic rate nor higher rate income tax will be payable on these withwill be payable on these with-

drawals.

The sim, of course, is to transfer capital currently in a portfolio of stocks and shares into this type of "qualifying" into this type of "qualifying" policy. One method is simply to sell enough shares each year to-meet the net premiums, plus any capital gains tax which will be payable on the disposal. Since total disposals of up to £1,000 per annum are free from capital gains tax, no tax may have to be paid.

With that -arrangement there is, of course, the risk that the shares may be standing at a low level when a premium has to be paid: equally, they could be

Often, an insurance broker period, one is not obliged to wants to earn two commissions

In many cases, it is better to on payment of no more than a suggests that, at the causet, have a qualifying life assurance policy carber than a portfolio of shares—because of the tax advantages. The policy care is the policy care in the converted to a shares—because of the tax advantages. The policy care is the policy care in the converted to a single premium

The industry is mature enough to look into the question of whether or not unit-holders should have more rights than

Margaret Stone

Admittedly, up to 5 per cent per annum of the original pur-chase price can be withdrawn Admittedly, up to 5 per cent allocated to one's policy should continue to grow, with income being reinvested net of the favourable rate of tax. If one had taken the cash, and invested it, a much higher rate of tax, and invested it, a much higher rate of tax, bend is finally cashed when one almost certainly, would be payable, on the investment income.

Admittedly, up to 5 per cent per annum of the original purchase price can be withdrawn from a single premium bond (for 20 years) free from tax are the time. If, however, the bond is finally cashed when one is paying a relatively high rate of tax, there is likely to be Not only should the value of quite a high tax charge. A better arrangement may be to tarve a series of bonds, cashing

way of overcoming that difficulty is to buy a ferm annuity from an insurance companypreferably at a time when interest rates are high, so that a reasonable yield will be obtained. In this case, benefits can be paid annually in arrears

for nine years.

Part of each governanced payment from the insurance comnany will be free from tax, and the belance will be rested for tax purposes as investment income. Barring a rise in one's. marginal rate of the this method guarantees that the scheme will produce the pre-ntiums as they are needed for the nine years; after the pay-ment of the iditial premium.

Taxation

Relief for those starting a business

In its economic package speech last week the Chancel-lor of the Exchequer showed a genuine wish to relieve the lot of the small firm. In addition to certain proposals for com-panies, his helping hand is to extend to the individual entrepreneur who, against all the commercial odds, starts up in business either on his own or

It is not unusual to find that in those early formative years the firm makes a trading loss. Under present law the ways of getting tax relief for the loss are chreefold.

First, if there is income in the same tax year in which the biss is made (such as salary mss is made (such as salary from an employment and investment income) the loss can be set egoinst it, resulting in a lower tax bill or a repayment. The loss can also be set against the spouse's income for that year, but this may not always be advisable M income is required to cover personal

If the trading loss is not wholly relieved in this way it can be set against the following year's income from all ing years income from an sources. The authority for these two ways of claiming relief is contained in section 168 Taxes Act 1970. Finally, if there is insufficient income in these two years to absorb all the loss the balance can be curried forward against future trading profits only (section 171 Taxes Act 1970).

Although the section 168 relief sounds generous in that relief sounds generous in that it allows a set-off egainst other types of income, it is normally not particularly helpful to a new enumerreneus—one perhaps who has just given up his job to start a business—who may have put all his eggs into his business baskat and has little for an other income. rie or no other income against the individual over this problem the proposal is that he or she should be able to obtain loss relief sooner than at

suggested by allowing a trad-ing loss sustained in any of the first, say, three years of a new business, to be carried back. The carry-back could be—it is The carry-back could be—it is proposed—against income from all sources of the previous three years and this would include the individual's earnings from his previous employment. The result would be an immediate tax repayment giving a much needed boost to the cash resources.

However, those with loss-making hobbies will find that there is little point in rushing to the tax office to hold themselves out as a business. Such a possibility was enticipated by the present section 168 relief and the rule was laid down that this type of loss claim cannor be made unless the business is carried on on a commercial basis and with a view to the

realization of profit.

When—or, in deference to the more cautious, if-the new proposels should reach the statute book this restriction will certainly spoly to the carry-back provisions as well. Indeed there may well be other constraints in an attempt to thwart the devices minds of the tax avoiders. One can only tope that the legislators' attempts to prevent abuse will not produce law so compligenuina cases.

Vera Di Palma

Round-up...

Property unit trust

The Woolwich Building Society has joined the ranks of those who are campaigning to make mortgage interest rate adjustments an annual event, rather him y than a movable rest. It has written to its 250,000 borrowers suggesting that the inconvenience involved in adjusting repayments every time there is a rate change is not worth it.

not worth it.

The society Boints out that between October 1, 1976, and September 30 this year (the society's financial year) there were three rate changes. If the borrower had not adjusted his payments the ordinary mortgage term would by now be 10 months longer than it would have been had the rates been adjusted each time; by readjust ing now (the year-end) the term could be kept at the same length for an extra 8p a month per £1,000 of mortgage.

* * *

It is good advice, but after Save & Prosper's decision to merge its Property and Aldied Building Trades fund into As-Financial Trust, the new Schle-singer fund will be welcomed by the more sophisticated unit-holder who believes in short-MD noider who believes in short-term holdings in specialist funds.

not over

at Pennine It can at least be said for shareholders in lockless Pennine Motor Group that once Pennine Motor Group that once saw Mr Feter Grimshawe string in the chair, that hie for them is extining it uncomfortable.

Since 1973 they have had four chainman and audimors qualifications every year. In the past three the qualifications have been serious, Even so Pennine struggles on.

This suditors' reservations about the accounts for the year that ended as long ago as January 31 have a familiar ring. Apart from a now ritual remark

Apart from a now ritual remark that no depreciation has been provided excinst either freshold or long leasehold properties Messrs. Coopers & Lybrand

Messra. Coopers & Lybrand say:

Although the group incurred further trading losses during the year these accounts have been prepared on the basis of it being a gning concern. This assumes the continued support of the group's bankers.

"The group's bankers at this stage have not confirmed that they will continue to provide such support, and actordingly," we have been unable to satisfy ourselves there a going concern basis is appropriate.

Mr Geoffrey Tankard is still chairman and the reports that a property sale has stashed overheads. He does not wish to forecast optimistically, but adds cryptically that he hopes to size shareholders gome infor-

give shareholders some infor-mation in a few weeks. Mr F. Lownsbroogh, managing direc-tor, and M & G Unit Trust are among shareholders with 5 per cent or more of the equity. The shares were last dealt in on October 28 at 3p.

Index 33 points down on week and nervous selling persists

Contrary to widespread hopes 5p lower at 363p, making a drop of the previous evening, equities did not end the week with Touches of firmness were to ties did not end the week with a technical rally, though many stocks managed to stay firm GKN 267p, Hawker Siddley 177p Metal Box 306p and, in But in the main, it was the front of figures, Lacus at 295p.

Stock markets

on the six mounts to September 30 last, the group tarned in a pretax profit of £11.9m against £8.4m. However the 1976 figures included a loss from the Formica stake. Sales alipped from £75.9m to £51.1m. Stripping out the Formica contribution, the incress amounts to £3 ner cent in the neriod. But in the main, it was the same pattern as before, with nervous selling early in the day being followed by a listle boying activity at the lower levels. The FT Index, 59 off at 20m, closed at 476.2, a net loss of to 43 per cent in the period. Reports jumped from £24m to 3.6 on the day and of 33.1 over

what has been a disastrous week for the industrial pitches. Gittedged stocks were equally uncertain, though longer maturities did manage to halve early losses which

contracts in the banknote husi-The initial impact of Tesco's The minial impact of Testo's price cutting campaign on its compatitors should be evident when Sainsbury reports half-year figures next week. Dealers would be surprised if profits rose from £10.7m to more than £12m, but the effect of strikes at distribution depots is an unknown factor. The shares edsed 30 to 230m. ness as the first six months. a hiccup in the grofits of its Swiss associate company, where the order book shows signs of a temporary slow down. Further growth is predicted for subsidiaries Crosfield Electronics known factor.
edsed 3p to 230p.

stretched to 21. A promising raily at the shorter end fizzled out as profits were taken with gains of half a point all but lost by the close. In some cases, short dates edged ahead again after hours.

Continued bearish comment on the forthcoming third-querter profits left ICI another

There were also some firm features to be found in the financial sector. The clearing banks performed comparatively well with Barclays at 307p and Lloyds at 250p both unchanged on the day and National West-minster at 255p and Midland at 335p just a couple of points

ne of the discount houses some of the discount houses rallied from the falls of Thursday, notably Allen Hervey & Ross where the gain was 10p to 520p and Union, which rose a like amount to 430p. Though generally thin market, merchant banks to the fore were Brown Shipley 15p to 190p and Keyser Ulimann which edged ahead to 43p.

The long-awaited share split, coupled with a dividend—boosting rights issue, did little for De La Rue which slumped 45p to 470p, while the Grampian scrip traded at a £1.62 discount on the £10 partly-paid price, More than 80 per cent went back to the underwriters.

Speculative interest was directed into Radley Fashions which ended 4p to the good at 30p, but speculative issues going the other way were RRF, chown 14p to 108p, Pork Farms 33p to 310p as profits were taken, Spink & Son 7p to 286p

Latest results

and Stothert & Pitt, which lost 5p for a close of 138p.

In electricals, Muirhead dipped 8p to 170p in from of figures due soon, while export considerations Rowered Decra

In a week Chubb have drifted gently from 133p to 116p and figures for the half year to September 30 are due soon. In the year to March 31 profits grew by only 19 per cent to £14.1m. the 60 per cent or so of profits that arise abroad is no longer a bull point, and the fear is that newcomer Gross Cash Registers is proving indigestible. It all adds up to renewed pressure on margins. renewed pressure on margins.

Distillers dipped another 49 to 164p
After falling after figures on After falling after figures on Thursday, Heover managed to hold up at 360p. In the building sector, Rush & Tompkins lost 11p to 82p after lower profits and Marchwiel continued to react to their surfier statement with a full of 7p to 241p. Two specularity counters with the property of the continued to reach the section of the sector of t which continued to go shead were Leigh Investments 6p to 130p and Wight Construction, which firmed contier 5p to

979. In after hours treding, De La Rue continued to lose ground after the rights statement, while Brasway suffered from a trad-ing loss and the omission of a final dividend. Herman Smith were just a touch off after a profits statement.

Rush & Tompkins fall 13 pc but prospects brighter

A variety of things, from a bad spring to dear mortgages, pushed pre-tax profits of Rush and Tompkins down by nearly 14 per cent to £406,000 in the first half of this year. Turnover, by "contrast," went up from £17.55m to £20.01m. Rush is in property invasiment, residential development and building and civil engineering contracting.

Mr Derek Palmar, chairman, reports that contracting two-over continues to grow in real

over continues to grow in real terms with a welcome rise in the number of industrial build-ing contracts.

He finds it is difficult to be

cost of morranges, while Rush gained no significant benefit from falling interest rates later in the haif-year because of the maturity dates of the loans.

The results include those of Reed and Mallik, which was taken and Mallik which was taken and which which which was taken and which which which which whi

in but he believes that many Reed and Mallik, which was of the difficulties that have taken over earlier this year. Air strike hits Davies & Newman

The Dan-Air's operations of came to 4.03p against 2.69p. Mr. Davies & Newman, the ship. A. H. Coggans, chairman, says broker, ship agant and airline that another record year is in operator, are seasonal and the group had; a does of £976,000 in the six months to June 30. Moreover, this total is smaller than the £1.4m deficit the year

before.

Turnover increased from £30.3m to £40.2m. Income from shipbroking in spite of low freight races was well undu-tained and a sussiscoory result should be achieved for the still year.

Dan-Air was busier than before. The third quarter of the year suffered from the strike year sintered from the state of the traffic controllers assistants but the flying programme was maintained. Inevitably costs rose and equally inevitably, profit this year will go

Record year in sight at Headlam Sims

Headlam Sims and Coggins, the sports and safety shoemaker, hoisted pre-tax profits from £115,000 to £155,000 in the six months to July 31. Sales were £2.08m compared with £1.54m and first half earnings

1.43 times subscribed.

Applications from the public, that is apart from ICI and IMI shareholders, will be allotted: 300 shares for every 500 applied

for; 500 for every 1,000 applied for; 500 for every 1,000 applied for; 600 for every 1,500 applied for; 600 for every 1,500 applied for; for 2,000 to 900,000, 35 per cent of the application and for one million and over, 250 35 per cent of that applied for.

Dealings should begin in renounceable form on Wadnes-

prospect. The mould divide ad will be the maximum and an interior is paid for the first time.

Ulster TV tops £400,000

Grasting through the £400,000 barrier for the first time, Ulster Television lifts its instal dividend for the year to July 31 from 5.389 gross. Pre-tax profits rose by 12 per cent to a record 12 per cent to a record 1426,000. Advertising revenue went up by 24 per cent to 13.76m, but costs rose by 25 per cent to 13.49m. Mr James that advertising revenue that advertising revenue throughout FTV was healthy. The attractiveness of television to advertisers had revived after a temporary levelling out in

Grasshopper Trust. finds a buyer Details of Barclay's plans to sell the Grasshopper Property

Unit Trust fund are in go out to unit holders as early as next Monday. It is understood that a buyer has been found for the £14m property fund and institutional unit-holders will be compensated in full. The 124 unit-holders have been locked into Grasshopper since the linearitally troubled trust annuanced a moratorium on

Mir Jessel's attempt to thwart M. James

Mr Oliver Jessel, a director of Goo Dolland, has written to chareholders urging them to reject the Maurice James offer "by doing nothing". Mr Jessel says that over 450 members representing 46.6 per cent of the company's shares have shown support for his plan of action. This, has encouraged Mr Jessel to require the directors to convene a

He proposes to remove two non-executive directors, Mr. Davis and Mr. Epstone from the board and proposing his col-league, Mr. T. A. Lewis, as a new director.

MK to pay a bit more for Ega

A higher offer has been made for the engineering and surgical divisions of Ega Holdings. MK Electric made its own offer for the whole of Ega conditional upon this sale and is now paying an extra 1p share for Ega. Shareholders will be meeting

on Monday to vote upon an offer of £497,000 from Hernia-plast, a company controlled by Egg's chairman, Mr F. Payne, and his wife. However a higher offer of £597,000 has now been made by Mr. R. Eurl and Mr R. Ross—both engineering divi-Herniaplast is prepared to release Ega from its contract

her Felix Waier, QC, and Mr. Saunel Wiggs for the appellant; Mr. Brian Polleck for the Crown. LORD JUSTICE CUMMING BRUCE said that Mr. Greer was manocuvring his lorry outside his butcher's shop when he hit and slightly damaged the appellant's Triumph car, which contained the appellant, Mr. Shephard and Mr. Williams. After some minutes of discussion of compensation and exchanging of particulars, a fight broke out, in the course of which Mr. Williams's jaw was broken

Solicitors: L. R. Burke & Co i

Man self employed by choice cannot claim to be an employee

Law Report November 4 1977

Massey v Crown Life Insurance agreement to stipulate what the Company agreement to stipulate what the legal relationship between them should be.

Court of Appeal

not employed by the respondents, Crown Life Insurance Company, but was in fact and law a self employed person.

Mr Alastair Sharp for Mr
Massey; Mr Anthony Boswood for

the company.

The MASTER OF THE ROLLS said that a person could only complain of unfair dismissal if he was an employee. Mr Massey had been the manager of the company's liford branch. From 1971 to 1973 the company had treated bim as a servant, paying him-wages and deducing tax. In 1973, pursuant to the advice of itis accountant and with the agreement of the company, he registered the nsiness name of J. L. Massey & Associates and with that new name entered into a new agreement with the company. The Inland Revenue were content that he should change to being taxed under Schedule D. to being taxed under Schedule D.

That was completely inconsistent, with his present assertion that he was a servant. One had to go back to the realities, if the true relationship between the parties was that of master and servant under a couract of service, the parties could not alize the truth of the relationship by putting a different label on it.

On the other hand, the very terms of an agreement could alter the legal situation in which parties stood and the legal consequences. In such cases, as the industrial tribunal had found in the present case, the person worked under the new agreement exactly as he had under the old one.

When there was a situation which was doubtful or ambiguous it was open to the parties by

Company

Before Lord Deming, Master of the Rolls, Lord Justice Lawton and Lord Justice Eveleigh

A man who, after having been employed by as fosurance company as a manager under a contract of employment, continued to carry out the same functions for the company but under a contract by which be became taxable as a self employed person, was held not to be an employed for the purposes of bringing a claim for unfair dismissal.

The Court of Appeal dismissed an appeal by Mr John Linnel Massey from the dismissal of his appeal to the Employment Appeal Tribunal (Mr Justice Kilner Brown, Mr A. C. Blyghton and Mr A. J. Nicol) from the decision of a London industrial tribunal, on a preliminary issue, that he could not pursue a claim for unfair dismissal because he was not employed by the respondents. Cown Life Insurance Company to the decision of a London industrial tribunal, on a preliminary issue, that he could not afterwards say that the relationship was something the relationship was something eight in order to claim another advantage. The appeal should be dismissed.

LORD JUSTICE LAWTON said that that that the allow a mun to claim that that the collow a mun to claim that the collow a mun to claim that that the collow a mun to claim that that the collow a mun to claim that the collow a munity that the collow a munity that the collow and that the collow a munity that the collow an

else in order to claim amother advantage. The appeal should be dismissed.

LORD JUSTICE LAWTON said that to allow a man to claim that he was a self employed person in order to claim tax advantages and also to deny that he was self employed in order to claim tax advantages and also to deny that he was self employed in order to claim conpensation for anniar dismissal strained the highly desirable union between fairness, common sense and the law almost to breaking point.

Mr Massey's status immed on the surrounding facts and the terms of his contract. In 1971 he had entered into two contracts with the company, one appointing him as a manager and one by which he became a general insurance agent. Consequently, he was then wearing two hats, one as an employee, the other as a self employed person.

In 1973 he was alerted to the advantages of wearing one hat, and to achieve that the parties entered into a new written agreement. It was the existence of that contract with its written terms that distinguished the present creations with its written terms that distinguished the present creating with the new agreement was entered into.

It was clearly established that parties could not change their status mostely by putting a 2nw isbel on it, but if in all the circumstances, including the terms of the agreement, it was manifest that there was an integality and it was a genuine agreement the only conclusion was that Mr Massey did change his status.

Lord Justice Breielich agreed.

Lord Justice Breieigh agreed. The appeal was dismissed. Leave to appeal was refused. Solicitors : Resling, King, Aylett & Co; Coward Chance.

Identification in court by elimination

Tord Justice Comming memory was still patchy and he prosecution case was that his injuries, where the real issue Josefice Thompson

At a trial where the real issue was whether the victim of an astack with an iron bar had been struck by one of two men who had been talking to him earlier, one of whom was tair baired and the other dark hatred, it was not objectiousble for the prosecution to bring forward the fair haired man and then ask the victim first whether he bad been attacked by their man and secondly to give a description of his astacker with the dark hair in the dock at an about it had first identified his attacker with the dark hair in the dock at an about the trial the day before.

The Coult of Appeal so stand when giving reserved remous for having dismilesed an appeal by Victor join Hughes, aged 32, from his conviction at the Central Criminal Court (recorder: Mr W. M. Howard, QC) on April 27 of causing grievous bodily harm to Mr Rodney Greer with imperit contrary to saction 18 of the Offences against the Person Act, 1861, and of having an offensive weapon in a public place without living a trial had begut of charges against the spellant and two other men, Shephard and Williams, After Mr Greer had, given his evidence-inches, the recorder saided him if hydie head. Air Grees had immiddiately identified the appellant in the dock; that was the first time he had been given the opportunity of identifying his assallant, owing to the head injuries he had sustained. That trial had thereupon been simpped, and a new one started the following day with the supellant; Mr Brian Polleck for the Cown.

LORD JUSTICE CUMMAING At a trial where the The first trial had been stopped on the ground that Mr Greer's dock identification was praindical and untain by reason of the familiar principles emphasized and clarified in R v Turnbull ([1976] 3 WLR 445). At the second trial Mr Shephard and Mr Williams were brought into the well of the court and Mr Greer was asked in the witness box whether it had been either of them who had struck him on the head. He replied in the negative, adding that they were both fair haired men. He was then asked if he could give a description of his assellant, which he had not done before. He described a man with dark hair and sunken eyes (which tallied with the appearance of the appellant). By that time it had become clear that the identity of the assellant had narrowed down to one of two men, since Mr Williams's movements were established from the time his jaw was broken.

Mr Watey submitted that the identification procedure that had been followed was unfair, and he previous trial. The court disagreed. Mr Greer had not been with significantly different physical attributes, during the minories spent discussing the car accidenced attributes, that was en opportunity to recognize whether it was one of the two men he had just been talking with, and if so which one. If the recorder had appreciated, in the first trial, that that was the real issue in the case. If the recorder had appreciated, in the first trial, that that was the real issue in the case. If the recorder had appreciated, in the first trial, that that was unplicitly that he would have stopped the trial. Similarly, no objection could be taken

Maintenance order devalued

When considering the variation of a militariance order made years ago the fall in the purchasing power of the pound was a relevant factor, the Divisional Court of the Family Division said.

was parson, me Divisions and.

The court allowed a wife's appeal from the refusal of Liverpool City justices to increase an order of £1.50 a week which had been varied in 1948 from an order of £2 made in the wife's favour in 1945 on the ground of the husband's desertion. The justices had considered it finappropriate to increase the order because the parties had lived separate lives since 1944.

MR JUSTICE ARRIGLD, with was sitting with Mr Justice Wood, said that the parties had married in 1942, separated in 1944, and had been diwored in 1953. The wife had worked and brought up the two children of the husband. In 1970 she ceased to work he passes of arthritis. By—now she find enhanted her savings—and

who lived alone, exped file a week gross.

In deciding the amount of maintenance in such circumstances, the court should have regard to the value of the award in 1945 in the light of the purchastig power of the pound enday when file was needed to buy the equivalent of £2 then; and the difference between the wife's present means and what the received when she was working. She had earned £34 a week in 1970. Applying the one-third rule as a starting point and reflecting in the order the shortness of the massage and the dong temperation his Lordship would substitute £12 a week for the £1.50.

The first case cited in Candiff v

The first case cited in Cardiff v Jenkins (October 25) was Bull v Bull [1955], 10B 234), In President of India v John Shao & Sons Ltd (October 28), Gregory, Röwelliffe & Co were agents-for John Taylor & Co, Man-

Trading post

They could hardly be prettier, more colourful, more fun and yet more elegant than they are at General Trading Company, an apt name despite the prosaic undertones because the old general trading posts were where the fun began after long

where the tun began after long periods on some dutiful or monotonous task. To go into the shop is to be bathed with a feeling of luxury and a longing to spend and to give. To open up their leaflet is to get some idea of the charm and versatility of the place.

On one side of the opened

On one side of the opened leaflet are gifts for under £5, including some very sturdy, heavy-based tumblers with initials sandblasted on to their curved sides in large and impor-tant letters and all for £1.35 the tumbler (40p postage). Then there is a dainty ashtray or pin or paperclip tray, of heavy brass, made in India in the shape of a flattened apple complete with leaves and stalk, the whole just 31 inches long and rather better looking han the price of £1.45 suggests

(22p). A little pottery cachepot is realistically patterned to look like bamboo canes and would be charming with an African violer in it—the cachepot is £4.95 (£1). The garden cushion really works but looks too

pretty to be that functional. A floral patterned fabric exudes curonella to keep away the insects and the underside of the cushion is coated with PVC to be even more practical. With such forethought, you will hardly be surprised that the kunards are waterproof and that the price is £4.50 (35p). The Meadow Herbs pack to make pot-pourri is £2.80 (25p) and the Crabtree and Evelyn soaps are their usual tempting and fragrant selves in their roseate packs for Musk, Eglantine and Damask rose scents at £1.80 for three tablets, also boxed (45p).

Gallery brass trays are hand-some and are gleaming to look light but to feel solid in dia-meters from 8; inches through 94 inches and 11 inches to 12 inches. Prices are in order of size, £1.50 (45p); £2 (65p); £2.50 (83p); and £3.50 (83p). Try also little brass oval boxes for the sweetening tablets, just tor the sweetening tablets, just 4 inches long by 1½ inches deep, woven from bress strips and with lift-off lid for £1.80. Or there are plain; shiny brass boxes with binged lids at £1.20 (35p for each box).

Hand-made especially for GTC ste dark, cool, criso, peppermint bitter-lemon or bitter-orange discs of chocolate in green, gold or red foil in marbled boxes holding 11b for £1.50 (40p). Fascinate children of all ages from five to 95 with pads holding 100 sheets of writing or scribbling paper shaped like elephants, pigs and bulls. Stick a pencil in the eye and keep it by the phone or in the office. Roughly 8in long by 5in wide, they are £2.50 each (400). And for must that could (40p). And, for mugs that could displace the teacups, give the flowery Coalport china mug

cars so, if driving your choco-late gift to a friend, pack it so that it is well insulated.

You can get Ciare's list complete with packing and postal charges and you will see quite a range including bitter-

mint crisps, after-dinner mints, mouth-watering Harlequin boxes full of candies, jellies, fondants and chocolates or of Continental favourites like noisettes, pra-

lines, margipan, nuts, hard centres and truffles. But you will give joy to anyone with the

named boxes like the one shown here. The letters are creamed on, not stuck on, and the smul-lest size on which it can reason-

ably be done is the 1lb size at £3.70 (the message is from

about 30p or 50p extra according to what it reads). This classic assortment goes up to 14ib boxes for £13 and any of them can be posted all over the

world as they regularly are. And do not forget, if you want

And do not forget, it you want to give diamond rings for St Valentine's or Easter day, start ordering your heart or your egg in good time.

Perhaps the most famous mame in chocolates is Charbonnel et Walker, who will post

to anywhere from New Zealand to Alaska and whose chic, glossy chocolate-coloured brochure is a temptation in itself. I like their simple white boxes with the golden cords and the dark chocolate assortments, but a more efficient and unusual

dark chocolate assortments, but a more attractive and unusual gift might be the cigar drums of coffee crisp butons at £2.25. Charbonnel also does the message boxes, in the Boite Blanche drums, with moulded and gold-foiled pieces spelking our the names or words. Prices range from a 11b box with 14 letters or numbers at £5.55 up to 10bb boxes at £38.85 for which you

boxes at £38.85 for which you can have 50 letters or numbers.

the fridge or near radiators and Birtermints are £2.85 per lb. world wide and cashould not be carried in heated But what I love most from this a special demand.

especially designed and made for Tiliany, the breakfast jeweller in New York. The name is Flourish, the capacity helf a pint and the price £3.10 (31p). Above £5 is a cheese bell, as I am assured they are called, a lovely thing in Mason's Iron-stone, oneleot with fruit and leaves, 9 in long and fit to hold 11b of the best cheese at £6.40 (£1). And, if I may remind renders, the best cheese comes by the truckle at around 5th or 7th and over from Priory Farm. Chewton Farms, Chewton Mendip, Samerset (tel Cirewton)

Mendin 560). Meanwhile, back at General Trading they also have early morning china sprinkled with little shamrocks for luck; a cork ice bucket; an amezing. massive Spode jug, about three teet ground its portly girth, for 540 in a tikue Italian pattern, just ideal for the punch; Magijust ideal for the punch; Magi-mix, the efficient French cook's machine that grates, slices, mixes, liquidizes and kneads the dough all in one compact goblet; a marvellous carpet bag of which range no two are elike because all are hand-made from cleaned, lined and double stitched pieces of old carpet. Strong corners and leather handles that adapt as shoulder straps make it practical as well as quantily pretty and, at 15 in as quaintly pretty and, at 15in high on a 14in wide base it is good carrying value as handbag, feminize brief case or for overfeminine brief-case or for over-night at £22 (£1.46). There are more things on this aminently well-designed but no-nonsense leaflet so send to General Trading Company, 144 Shane Street (the Shoane Square end), London SW1X 9BL (01-730 0411).

102-year-old shop are the fancy things, like the exquisite hand-made "lace basket" packs,

which can be trimmed or moun-

which can be trimmed or mounted with cars, dogs, pomes or even the rather less domestic elephant. The ginger chocolates are terrific, much motempting, and the enchantingly floral, oval theatre boxes are worth keeping just to look at when the chocolates are eaten. They make to their own old recipes too, and their history is studded with anecdotes like the serious anxieties of 1910.

the serious anxieties of 1910 when the king's death led to "dumb grief in the West End"

near Charbounel et Welker who seriously thought of taking off

the cherry brandy being served with a couple of cherries as by all high-class confectioners. It seems that old ladies would have their carriage and pair

drive them from chocolatier to chocolatier and often reached

Gifts galore

When Parrots opened, the Fulham Road, even near South Kensington, was still in the throes of becoming a good shop-ing area. It had one or two good shops that augured well for the future and had been established by Habitat (now Conran) near what is always called the Michelin corner. Now,

there is much to tempt you including a host of lovely things in paper at Paperchase, which is spacious and packed with enchanting displays of cards, posters, calendars, diaries, apers, paper plates and table napkins, wrapping paper, and a lot of table accessories that make you long to give parties and dinner parties. A place for those lower-priced gifts that make people happy.

Parrots is at 56 Fulham Road, London SW3 (01-584.5699) and is as much an all-England gift shop as a place to visit in per-son. The merchandise is difcalled the Michelin corner. Now, ferent and is great fun being from the luxuriant Flower House along to the smart night-wear shops called Night Owls. gives more than 500 ideas and

Sheila Black

can be bought for 50p. Sturdy pens from Cartier at £70 and see that ubiquitous pen-calculator, this time companioned by a pen that is also a digital warch and calendar (£29.40 and £39.80 respectively with 30p postage). Or whar about a minute refrigerator to take in the car (£125)? Try a really cute plant communicator to tell you the moisture needs of the plant, looking rather like a modern periscope or a sawn-off golf 'club, it is the best design I have seen and it costs less than others at £5.95 (35p). It purts when the plant is happy, cries or gives a shrill whistle when thirsty and clicks noisely for more fertilizer. The pronged probe is ultra sensitive, but so

this on my lists of wants.

Hitchin, Herts.

Eating & drinking

The prime factor in Christmas eating and drinking must be the turkey, and Bejam, the freezer and frozen foods people, are doing their bit by holding prices so that at £5.64 a 1211 prices so that at £5.64 a 121b bird is now only 60p more than it was last year. Which is pretty good when you consider that they are doing Matthews, plump, unwasteful birds which have butter worked in under the skin so that they need no basting but come out moistly sweet. In stock are the popular sizes, so you should be able to buy exactly the size you want instead of having to eat for ever or go short. At Bejam they, started their Christmas shopping and planning last February, so that we could all drink with a good wine and buy it from Les Amis du Vin which is a friendly shop in London where you get good wine along with good advice or a mail order business, as it best a mail order business, as it best suits you. The shop is open from 10 am to 8 pm Monday to Friday and until 4 pm on Saturdays and you will love browsing among the really original wines, buying cooking wines, falling in love with some of the antique glasses, and being intrigued by the names and places, on the labels which will be new to you. If your taste is for stronger stuff then choose from 80 mailt whiskies. I found it hard to believe that anyone Pebruary, so that we could all plan ahead too and be free on pan anead too and be free on Christmas Day. Many of their prices are down from last year, many are the same and the few increases are small on their basic lines—which are rather less basic than most such lists. The self-basting Marthews and the self-basting Marthews. self-basting Matthews it hard to believe that anyone would stock 80 but was assured The self-basting Marrhews Golden Norfolk turkey is 57p per 1b which proves that Bejam's planning and tough amitude with suppliers worked. And don't be ashamed of buying cakes, smoked salmon and other delicacies because they have bought them well and there is cortainly my shame in that connoisseurs of malts have the fiercest loyalties and are not only emphatic about what they want but will not take substitutes.

The Mailly champagne, exclu The Mailly champagne, exclusive to Les Amis, is one of the best surprises you could give or keep to yourself. Mailly is a village in the Champagne district with all the vines classified as 100 per cent. The producers broke away from the others in 1929 and dug a 16-kilometre tunnel in order to get their Champagnes our rather than lose their distinctive identity or risk receiving the rates fixed by those with poorer standard vines. This champagne has style and the rose derived colour by have bought them well and there is certainly no shame in freezer foods these days if it allows the householder to be with the guests and family. If you can store smoked salmon without freezing, you will get a really first-class buy from Nigel D. Mizen, Sprunks, Knightons Lane, Dunsfold, Surrey (Dunsfold 468). Obviously not Scots salmon, but the fish are carefully and knowledge ably chosen by Mizen, who knows what to look for and who does his own smoking. It sells does his own smoking. It sells at £4.20 per lb plus 67p postage. You can freeze it, of course, but do not unwrap it. If you live near the place, call in for leaving the grape skins with the juice before the first fermentation, makes it the pluperfect celebration tipple—the colour. stimulates the right mood and smoked salmon mousse which is great but cannot be posted. the flavour delights.
What you get from Les Amis
du Vin is good value rather Quail, a nice change from the richer foods of Christmas, is richer foods of Christmas, is subtle, easy to cook in so many different ways, always reliably tender because it is so young, and fast to cook for the same reason, as well as quick to thaw out. They arrive fresh but can be frozen if wrapped and protected really well. Available from the end of November at £5.76 per dozen plus £1.27 postage (a dozen is the minimum order). than supermarket prices—and a zest for adventure. The wines are chosen by David Wolfe, absolutely my favourite expert because he tastes and recom-mends without too many pre-conceived ideas. The service and

Wash down whatever you

brought out a little catalogue that includes some of drinking's accessories like a tastevin that accessories like a tastevin mat is bound to appeal to a great many and which, silver plated od a long chain, will make many a drinker proud to wear it. To personal shoppers it is £9.50 but, alas, it is £10.95 by mail and good value even at that, nested in a box for presentation in the small manner. There tion in the grand manner. There is also a fine silver-plated decanting funnel at £15 with which, they suggest, you could sieve the tea in the spirit of those who line their raincouts with mink. Ask if this can be noted safely as it is not yet posted safely as it is not yet in the mail order list, which also bas good corkscrews, champagne stoppers, cork pullers, silver-topped corks to keep the wine overnight, replicas of antique bin labels et al. Ask about the News-

Herter service.

Wine books include the Boozer's Diary at £1.10, due at any time when I called in but not yet there so I cannot describe it, a number of leading works on wines and other wanes and

other

course the wines themselves of a wine token will solve many of your giving and getting prob-lems besides adding to the traditional merriment. Les Amis du Vin is near the middle of Baker Street, and parking is not bad in that area for there are many meters. The address is 51 Chiltern Street, Loudon WiM 1HQ (01-487 3419).

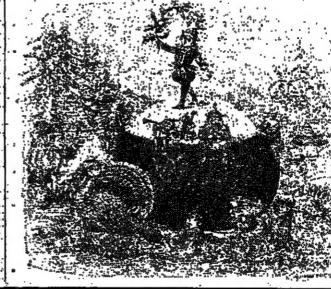

accessories and others, and

W1M 1HQ (01-487 3419).

Jacksons of Piccadilly—it is hard to decide whether their catalogue is best included under the earing and drinking or under the general stores heading, for it now festures home accessories like mirrors and aprons or tempors and cheese dishes as well as food and wine. An interesting bamboo-framed glass paining bamboo-framed glass painting is a lush basket of fruit and sells in various basic colours. The herb, cheeses, pares, can-ned delicacies and exoric foods ned delicacies and exotic toods mean that you will need to spend most of the evening browsing through this catalogue, which costs 50p by post (35p to personal shoppers who can then make out their armchair lists). New are the Jackson's own label

well with Scottish smoked fish what they are, the club needs to include a few foreigners.

conceived ideas. The service and the atmosphere live up to his tastes and you will find beginners as happy in the shop or with the mall order lists as connoisseurs and dedicated enthusiasts. They have also just.

Sip the wines and whiskies frem a Stuart crystal. initialled goblet. This goblet 30107 with the curved stem is 5 inches tall and costs £6:50-a noble gift. There is another goblet (30252) which is 52 inches high with an air-twist stem, at £12.75, more romancic than classic but it requires 12 weeks for delivery. Goblets with single engraved initials initials but delivery is protracted and the charge is £2 per extra initial.

are in stock at Mulberry Hall, Stonegate, York (York 20736). You can have two Postage and packing is £1.25 each, regardless of quantity ordered. Even on the 30107 only gobless with single initials are in stock and double initials or more are charged extra and also take three months as do the brandy goblet at £7 and the } pint beer tankard at £6.75.

eaflets available,

Jigsaws your face made up in itzerland, be you male, cale or undecided. Have your g, car or child made up

measuring 91 by 71 Take it to pieces and send it to families, suggesting they all make it together and guess the finished result but enclose a small prize (wrapped up) for the one who shouts the soswer fast. Send the photograph, mono

chrome or colour but no transparencies, please, to Studio 4, 62A. Elsworthy Road. 4, 62A Elsworthy Road, London NW3 and wait four or

five weeks until the jigsaw comes back from Switzerland. Obviously you can give it whole for instant impact but, even if it goes to non-doers of jigsaws, it is that much more intriguing if they are told the pieces must be made up for a very special reason. A lovely, fun gift that is worth every penny of £3.95 per Photopuzzle plus 40p postage etc. The final date for Christmas orders is November 15.

Herbs

have written of Meadow products being at a number of shops, have opened their own shop at 47 Moreion Street, London SW1 near Pimlico Station so this is no more than a reminder of their postal

leaflet which offers ingredients for port poteri, herbs for your own recipes, and the predictable accessories like sleep sachets and drawer-scening sachets which do make such pretty, But there is another delight

Tumblers Bottom Herb Farm which is at Kilmersdon, Rad-stock, Somerset (Radstock 3452). I cannot resist a bundle of higoorice spicks at 9 ip or scap leaves for a lady who is always travelling and can peel off one scented leaf at a time from her little booklet, sold in three booklets for £1 or six for £1.95.

Guy Cooper and Gordon Taylor, who run Tumblers Tumblers Bottom, are refugees from the city rat race and are loving what they have learned about herbs, their growing, their uses and indeed their commercial shops at Beaudieu and at Wohurn Abbey and put together a range of gifts from books to sleep pillows (yes, they are everywhere). They sell the plants in season and there can-not be a single herb missing from the long long list. They are not cheap but who is these days. The gift leaflet is free, the herb catalogue is 20p.

Chocolates

There are chocolate comoisseurs and entirevients as there are for wine, and they will

rarely be happy with anything but the best. Clare's Chocolates

ore to be found at 3 Park Road, Baker Street, London, NW1, or at 163 George Street, W1 (01-262 1906 or 01-262 8428). There is no real mail order service as such but they do

arrange posting or you can buy in time to post yourself. Their

novekies are many and they have even been asked to make

on Easter egg enclosing a diamond ring, a gift I'll bet she accepted with joy. The business is owned by the Dobrins, who

come here 50 years ago from a famous Berlin chocolate house.

They use 200-year-old recipes

real fruit, real cream and so on and their chocolates taste like

The heart you see here is £4.50 or £5.50 according to size, is filled with chocolates and adorned with a suitable message

than can be anything from "I love you" to "Ger well". The

little golden boxes with the

carrying handles are enchanting at 80p and there is a double size for £1.60. Companies could

give them because each box can

be printed with the giver's name for roughly £50 per 2,000 boxes. Mr Dobrin insists than

too few people care properly for their chocolates, which

should last well in constant temperatures of around 65/68°F.

They should never be left in

Department stores

Most of the stores still produce their catalogues, workmanlike and packed, like the Heal's version. Christmas shopping is helped at Heal's by the cus-tomer's car park (which is not always full) and by the enormous number of buses that run near it—to say nothing of a couple of pretty local Tube stations (Goodge Street and Square). You Euston arrange for a pushchair and expenditure the healthy way at the Cranks bealthfood self-service restaurant or buy health

to take home with you. Herbs, spices, kitchen things that please and good cakes vie for your favour with the original Farrah's roffee in old, old look ing tins from the early designs. Superb wine glasses, a whole mass of little presents like sachets and bath essence make the stocking easy to fill while rather glamorous photo frames and backgammon could help with the major presents. Heal's is, need I tell you, at 196 Tot-tenham Court Road, London, W1 (01-636 1666) or at Tunsgate, Guildford, Surrey. You can save a lot of money on normally expensive leather furniture right now. Harrods is what you would

predict, coolly and casually rich and sumptuous with such clear-crystal flying dolphin on a chrome stand, made by Daum, where superb crystal comes from, and a stumer at £180. Very, very expensive modern glass and chrome furniture

should be bought to go with the dolphin, as should an un-usual music cabinet all in whiter than white acrylic (mind-ful of a barmonium that is back to front and housing turntable. cassette deck, amplifier and so forth all for £1,049). An ex-quisite Lalique bottle is filled with perfume and stands proudly for £75 and would look good with the "tortoiseshell" hand mirror at £18. Luggage, jewelry, pure silk scarves, fine kid gloves and even a satinfinished union umbrella are all at prices you would rarely ex-pect to pay for such things but, I must confess, they look ex-pensive and understatedly ex-pensive at that—which is the pensive at that—which is the true sign that they cost a lot. Harrods is at Knightsbridge—actually in Brompton Road but they have always managed to hang on to the Knightsbridge address—London SWL.

world wide and can meet many

Edinburgh). shirts, sweaters and shirts for women, short or long, are simple and so English. Apart shirts, from a charming handlentited bedjacket (£11.95) the night-wear is pretty ordinary but the leather lines are good. To be fair, Jenners has dug our a lot that is reasonably wired to that is reasonably priced to scatter through the pages like a long, Paisley shatwaister dress for hostesses that is such a change from the loose caftans and good white at £19.95, or like little whatnots for desks at home or in the office and other stationery items. Very good idea for the young is the attaché case which doubles as brief case for school books or first job needs and as a casseme holder when the fitted, compartmented innerth go in (£5.50). A very guart cassette storage cabinet in teak holds Into a similar category of storage cabinet for teak holds expensive but looking it are 69 cassettes and costs £15.25 the gifts from Jenners catalogue and there is an executive

slopping rope in a leather case, marked with the description of the contents, for £3.75. Asprey attracts the rich to salver-plated egg-inners at £43 or to fine Russian Icoas at £2,500 or to entique furniture. Miniature salt shaker and Miniature salt slinker and pepper-grander set are ancased in green, red or yellow and should ensure that your buffer or cocktails are seasoned to your personal taste as they fir in pocket or handbag (£13.50 plus £1 postage). Silver dressing table set in the fancy Bird and Scroll design is £485 and is something that is quite a rarity these days. Jawelry cases in soft, righty-coloured sugles.

in soft, richly-coloured suedes are £29 and there are some lovely watches and carninge clocks as well as some lovely old jewelry. So take your thousands to 165/169 New Bond Street, London W1 (01-493 6767) or to 153 Feachurch Street, Loudon EC3 or to Geneva. Or send for the cata-

l logue and buy from anywhere. I by one of the leading stone-The President's Selection is mallish, in a thin but clear and well-presented have booklet. It has the calculator pen at £36; the amusing but very sensible Hade a Safe at £53 (this is a sale, disgrised as a coathanger, which lets out a raucous alarm when tampered with). Portable telephone in a box is £127 and a cassette recorder combined with a calculator is £80. The President's address Meadfield Road, Langley, Slough, Berks.

David Mellor is the america tidiest ironmonger you will ever visit. A good designer in various materials, Mellor is a man who can furnish and accessorize your kitchen with his own good taste and you can select wan him from a plump caralogue with some 900 plump catalogue wan some sour illustrations and I cannot think that any single thing is missing. The basketwork curiery tray, the marble pastry sleb, made

masons to smooth your pastry and cake work and the white willow-basket cheese tray are redolent of a graceful age when servants below stairs did much of the work—but all translate to modern ethnic kitchens as there is come. Weller long as there is space. Mellor does the green glass bortles, caryed short and stumpy with springedip tops that keep tomato juice or small measures of homemade cider and beer fresh—they hold thire and are mornially difficult to find but worth every penny of 31p for those who use small portions and like to make their combrant franctions and like to make their tions and like to make their own brews of any kind. Roller towel holders, salt boxes, pots, pans and fancy dishes are all in this book, which costs 75p to personal shoppers or 95p by post from David Mellor, 4 Shane Square, Lendon, SWI. Everything can be mailed.

Oziam's catalogue is as good as ever and some new things

come into each one to join the more familiar lines. Prices are still almost starflingly low are still almost starringly low and you do contribute to an excellent cause by getting the current edition from Oxfam Activities, Kidlington, Oxford OX5 1JD. The National Trust offers honey in beautiful jars, English china plates superbly adorned with old-fashioned and othershores agricus a large agree. shrub roses against a large area of white so they look cool, unlike the busy patterns of so unlike the busy patterns of so many rose designs. Nice as gifts for £1.90. Old fashioned barleysugar and a Victorian sweet assortment are from Culpeper, the herbalist, and are nice little mementoes at 559 each. There are a great many National Trust shops around the country including one is Loudon at the Blewceat School in Caxton Street. The mail order address is National Trust Mail Order, Western Way, Melicibam, Wiltshire. Way, Melksham, (Melksham 704545).
